TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

BACKGROUND TO THE COMPANY

Trium UCITS Platform Plc (the “Company”) is an open-ended umbrella investment company with variable capital and segregated liability between Trium European Equity Market Neutral Fund, Trium Multi-Strategy UCITS Fund*, Trium ESG Emissions Improvers Fund**, Trium Sustainable Innovators North American Equity Fund, Trium Sustainable Innovators Global Equity Fund, Trium Alternative Growth Fund, Trium Avala Dynamic Equity Fund, Trium Epynt Macro Fund and Trium Climate Impact Fund (the “Funds”) and is organised under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 (as amended). The Company is authorised by the Central Bank of Ireland (the “Central Bank”) pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the “Central Bank UCITS Regulations”). The Company was incorporated on 14 October 2014 with registration number 551039.

The Company is structured as an umbrella fund which may consist of different funds, each comprising one or more classes of shares. As at the date of this Annual Report and Audited Financial Statements, the Company has eight active funds in operation, Trium Multi-Strategy UCITS Fund, Trium ESG Emissions Improvers Fund, Trium Sustainable Innovators North American Equity Fund, Trium Sustainable Innovators Global Equity Fund, Trium Alternative Growth Fund, Trium Avala Dynamic Equity Fund, Trium Epynt Macro Fund and Trium Climate Impact Fund (the “Funds”). Additional funds may be established by the Company with the prior approval of the Central Bank. The Company has one liquidated fund, Trium European Equity Market Neutral Fund (closed on 31 March 2021). All closed Funds will remain ‘active’ on the Central Bank Register until the revocation process has been completed.

* Trium Absolute Return Fund changed its name to Trium Multi-Strategy UCITS Fund on 22 February 2023.

** Trium ESG Emissions Impact Fund changed its name to Trium ESG Emissions Improvers Fund on 16 February 2023.

Investment Objective and Policy – Trium Multi-Strategy UCITS Fund (the “Fund”)

The investment objective of the Fund is to seek to achieve long-term capital growth (independent of market conditions) by adopting a multi-strategy approach to investing.

Trium Capital LLP is the Investment Manager in respect of the Fund.

The Fund seeks to achieve its investment objective by investing in a globally diversified portfolio of currencies, financial instruments including equities and equity related securities (such as warrants and preference shares), and financial derivatives, fixed or floating rate securities including corporate and/or government bonds, convertible bonds (including up to 5% of net assets in contingent convertible bonds (“CoCos”)) and inflation linked bonds. The Fund may also invest in exchange-traded notes (which are eligible for investment by UCITS) in order to gain exposure to commodities and/or eligible commodities indices.

The Fund may invest in sub-investment grade securities (being securities with a credit rating below investment grade as measured by Standard & Poor’s or any equivalent grade of any other credit agencies). The Fund may also invest in mortgage-backed and asset-backed securities.

The equities and equity-related securities in which the Fund may invest will generally be listed on recognised exchanges globally (within the list of Regulated Markets in Schedule I of the Prospectus). The Fund may also invest up to 10% of net assets in transferable securities and/or Money Market Instruments which are not admitted to or dealt in on a Regulated Market, in accordance with the UCITS Regulations, which will include unlisted equities and equity-related securities (as outlined above) and/or Money Market Instruments.

Investment Objective and Policy – Trium ESG Emissions Improvers Fund (the “Fund”)

The investment objective of the Fund is to seek to achieve positive returns over the medium term, independent of market conditions.

Trium Capital LLP is the Investment Manager in respect of the Fund.

The Fund seeks to achieve its investment objective by investing in a diversified portfolio of equity and equity-related securities (including warrants and convertible bonds).

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

BACKGROUND TO THE COMPANY *(Continued)*

Investment Objective and Policy – Trium ESG Emissions Improvers Fund (the “Fund”) (continued)

The Fund focuses on the energy, utilities, materials, industrials, construction and transportation sectors. The equities and equity-related securities in which the Fund may invest are generally listed on recognised exchanges globally (within the list of Regulated Markets in Schedule I of the Prospectus). The Fund may also invest up to 10% of net assets in transferable securities and/or Money Market Instruments which are not admitted to or dealt in on a Regulated Market, in accordance with the UCITS Regulations, which may include unlisted equities and equity-related securities (as outlined above) and/or Money Market Instruments.

It is intended that the Fund will have a European focus in relation to the equity and equity-related securities to which exposure may be taken.

The Fund may take long and synthetic short positions, through the use of financial derivative instruments (“FDI”) listed below, in accordance with the investment policy and investment strategy.

The Fund may use exchange traded or over the counter FDI, which may include futures, contracts for difference, forwards, swaps and options on equity and equity-related securities. In addition, the Fund may use such FDI on indices for the purpose of hedging and/or efficient portfolio management. The Fund may only utilise FDI which are referred to in this investment policy and in the Company’s risk management process.

Investment Objective and Policy – Trium Sustainable Innovators North American Equity Fund (the “Fund”)

The investment objective of the Fund is to seek to achieve capital appreciation over the long term.

Trium Capital LLP is the Investment Manager in respect of the Fund.

The Fund invests primarily in the equities of high quality companies listed on the stock exchanges of the United States of America and Canada. The Fund has a long term investment outlook as the Investment Manager seeks to invest in companies that it expects to perform well over a longer period (including, for example, companies with a strong balance sheet, transparent and reliable reporting, and a thoughtful approach to resource management). The Investment Manager seeks to hold equities for as long as, in the Investment Manager’s opinion, the investment case based on the below characteristics for that equity remains positive and therefore turnover in the portfolio is expected to be comparatively low.

The Fund has a concentrated portfolio, generally comprising the equities of between 20-30 companies. The Investment Manager typically invests in companies with a market capitalization of at least USD 3 billion (as at the time of investment).

The Fund may purchase securities denominated in any major convertible currency. The Fund may also hold ancillary liquid assets, such as short term deposits. Further, the Fund may use forward foreign exchange contracts and currency swaps for Class hedging purposes and/or efficient portfolio management purposes.

The Fund is actively managed without reference to any benchmark, meaning that the Investment Manager has full discretion over the composition of the Fund’s portfolio, subject to the stated investment objectives and policies.

Investment Objective and Policy – Trium Sustainable Innovators Global Equity Fund (the “Fund”)

The investment objective of the Fund is to seek to achieve risk adjusted returns and capital appreciation over the long term.

Trium Capital LLP is the Investment Manager in respect of the Fund.

The Fund invests primarily in the equities of high quality companies listed on the stock exchanges of developed countries and primarily issuers listed in the United States of America and Western Europe (including the United Kingdom). The Fund has a long term investment outlook as the Investment Manager seeks to invest in companies that it expects to perform well over a long period (including, for example, companies with a strong balance sheet, transparent and reliable reporting, and a thoughtful approach to resource management). The Investment Manager seeks to hold equities for as long as, in the Investment Manager’s opinion, the investment case based on the below characteristics for that equity remains positive and therefore turnover in the portfolio is expected to be comparatively low.

The Fund has a concentrated portfolio, generally comprising the equities of between 20-30 companies. The Investment Manager typically invests in companies with a market capitalization of at least USD 3 billion (as at the time of investment).

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

BACKGROUND TO THE COMPANY *(Continued)*

Investment Objective and Policy – Trium Sustainable Innovators Global Equity Fund (the “Fund”) (continued)

The Fund may purchase securities denominated in any major convertible currency. The Fund may also hold ancillary liquid assets, such as short term deposits. Further, the Fund may use forward foreign exchange contracts and currency swaps for Class hedging purposes and/or efficient portfolio management purposes.

The Fund is actively managed without reference to any benchmark, meaning that the Investment Manager has full discretion over the composition of the Fund’s portfolio, subject to the stated investment objectives and policies.

Investment Objective and Policy – Trium Alternative Growth Fund (the “Fund”)

The investment objective of the Fund is to generate capital growth whilst exhibiting low correlation to equity markets over a rolling three year period.

Trium Capital LLP is the Investment Manager in respect of the Fund.

The Fund intends to achieve its objective by actively managing direct and indirect exposure globally without limitation, to fixed income securities, collective investment schemes, cash and cash equivalents, equities and FX, as well as indirect exposure to commodities. For the avoidance of doubt, the Fund will not invest directly in commodities.

The Fund will not be subject to any geographic, sector or market capitalisation constraints.

Investment Objective and Policy – Trium Avala Dynamic Equity Fund (the “Fund”)

The Fund’s investment objective is to seek to achieve positive returns over the medium term, independent of market conditions.

Trium Capital LLP was the Investment Manager in respect of the Fund.

The Fund will not focus any specific industry sector. The equities and equity-related securities in which the Fund may invest will generally be listed on recognised exchanges globally. The Fund may also invest up to 10% of net assets in transferable securities and/or Money Market Instruments which are not admitted to or dealt in on a Regulated Market, in accordance with the UCITS Regulations, which may include unlisted equities and equity-related securities and/or Money Market Instruments. It is intended that the Fund will have a Developed Markets (European, North American and Asian) focus in relation to the equity and equity-related securities to which exposure may be taken.

The Fund may take long and synthetic short positions, through the use of FDI as detailed below.

The Fund may invest without limitation in FDI. The FDI which the Fund may use may be exchange-traded or over-the-counter. These FDI will include futures, contracts for difference, forwards (including FX forwards), on equity and equity-related securities.

The Fund may also invest up to 10% of its assets in other collective investment schemes, including exchange traded funds.

The Fund may, for cash management purposes, invest in short duration fixed-income instruments, including government and/or corporate bonds, which comprise of fixed and/or floating interest rate bearing securities in developed markets such as the United Kingdom, the United States and the European Union.

Investment Objective and Policy – Trium Epynt Macro Fund (the “Fund”)

The Fund’s investment objective is to seek to achieve positive returns over the medium term, in all market conditions.

Trium Capital LLP was the Investment Manager in respect of the Fund.

The Fund seeks to achieve its investment objective by investing in a diversified portfolio of global investments, as detailed below. It is intended that the Fund will have a global focus in relation to the assets in which it will invest, though it is anticipated that the Fund will have significant investments in Europe, North America and Asia.

It is intended that the Fund will invest primarily through derivatives. The Fund has flexibility to invest in a wide range of instruments and (subject to the limits set out below) may invest without limitation in a number of asset types, including equities; bonds; foreign exchange; depositary receipts and financial derivative instruments.

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

BACKGROUND TO THE COMPANY *(Continued)*

Investment Objective and Policy – Trium Climate Impact Fund (the “Fund”)

The Fund’s investment objective is to make sustainable investments with the aim of achieving positive returns over the long term, independent of market conditions.

Trium Capital LLP was the Investment Manager in respect of the Fund.

In order to seek to achieve its investment objective, the Fund will invest in “sustainable investments”, which are defined as those investments that contribute to an environmental objective (apart from a portion of investments used for liquidity and hedging purposes), provided that such investments do not significantly harm any such environmental objectives. The Fund seeks to achieve its investment objective by investing in a diversified portfolio of primarily equity and equity-related instruments (including contracts for difference, futures and options and total return swaps on equities and equity indices). There is no specific geographic focus for the Fund’s investments, however, it is expected that there will be significant European and North American exposure.

Investment Objective and Policy – Trium European Equity Market Neutral Fund (the “Fund”)

The investment objective of the Fund was to seek to achieve positive return over the medium term, independent of market conditions.

Trium Capital LLP was the Investment Manager in respect of the Fund.

The Fund sought to achieve its investment objective by investing in a diversified portfolio of European equity and equity-related securities (including warrants and convertible bonds). The Fund did not focus on any specific industry sector. The equities and equity-related securities in which the Fund may have invested in would generally have been listed on recognised exchanges globally (within the list of Regulated Markets in Schedule I of the Prospectus). The Fund may also have invested up to 10% of net assets in transferable securities and/or Money Market Instruments which were not admitted to or dealt in on a Regulated Market, in accordance with the UCITS Regulations, which may have included unlisted equities and equity-related securities (as outlined above) and/or Money Market Instruments.

It was intended that the Fund would have a European focus in relation to the equity and equity-related securities to which exposure may have been taken.

The Fund may have, for cash management purposes, invested in short duration fixed-income instruments (including sovereign, corporate or government bonds which may have been fixed or floating rate, investment grade bonds as rated by a recognised credit rating agency or, if unrated determined by the Investment Manager to be of comparable quality).

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

DIRECTORS' REPORT

The Directors of Trium UCITS Platform Plc (the "Company") have pleasure in submitting their annual report and audited financial statements to the shareholders for the financial year ended 31 December 2023.

The Company was incorporated on 14 October 2014 as an open-ended umbrella investment company with variable capital and segregated liability between its Funds and is organised under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 (as amended). The Company is authorised by the Central Bank of Ireland (the "Central Bank") pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

Principal Activities

The Company is an open-ended umbrella investment company with variable capital and segregated liability between its Funds and is organised under the laws of Ireland. The Company is structured as an umbrella fund which may consist of different funds, each comprising one or more classes of shares. As at the date of this Annual Report and Audited Financial Statements, the Company has eight active funds in operation, Trium Multi-Strategy UCITS Fund, Trium ESG Emissions Improvers Fund, Trium Sustainable Innovators North American Equity Fund, Trium Sustainable Innovators Global Equity Fund, Trium Alternative Growth Fund, Trium Avala Dynamic Equity Fund, Trium Epynt Macro Fund and Trium Climate Impact Fund (the "Funds"). Additional funds may be established by the Company with the prior approval of the Central Bank. The Company has one liquidated fund, Trium European Equity Market Neutral Fund (closed on 31 March 2021). All closed Funds will remain 'active' on the Central Bank Register until the revocation process has been completed.

Statement of Directors' Responsibilities

The Directors of the Company are responsible for preparing the annual report and the audited financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union.

Irish Company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company and of its profit or loss for that year.

In preparing those financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business. The following fund is prepared on a non-going concern basis: Trium European Equity Market Neutral.

The Directors confirm that they have complied with the above requirements in preparing the financial statements. The Directors are responsible for keeping adequate accounting records that disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that its financial statements comply with the Irish Companies Act 2014 (as amended), the UCITS Regulations and the Central Bank UCITS Regulations. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Under the UCITS Regulations, the Directors are required to entrust the assets of the Company to the Depositary, Northern Trust Fiduciary Services (Ireland) Limited (the "Depositary") for safekeeping. In carrying out this duty, the Directors have delegated custody of the Company's assets to the Depositary.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included in the Company's website. Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

DIRECTORS' REPORT *(Continued)*

Accounting Records

The Directors believe that they have complied with the requirements of Companies Act 2014 (as amended) with regard to adequate accounting records by employing Northern Trust International Fund Administration Services (Ireland) Limited (the "Administrator") to maintain the accounting records of the Company. The accounting records are maintained by the Administrator at its offices at George's Court, 54-62, Townsend Street, Dublin 2, D02 R156, Ireland.

Relevant Audit Information

The Directors believe that they have taken all steps necessary to make themselves aware of any relevant audit information and have established that the Company's statutory auditors are aware of that information. In so far as they are aware, there is no relevant audit information of which the Company's statutory auditors are unaware.

Directors' Compliance Statement

The Directors, in accordance with Section 225(2) of the Companies Act 2014 (as amended), acknowledge that they are responsible for securing the Company's compliance with certain obligations specified in that sector arising from the Companies Act 2014 (as amended), where applicable, the Market Abuse (Directive 2003/6/EC) Regulations 2005, the Prospectus (Directive 2003/71/EC) Regulations 2015, the Transparency (Directive 2004/109/EC) Regulations 2007 and Tax laws ('relevant obligations'). The Directors confirm that:

- a compliance policy statement has been drawn up setting out the Company's policies with regard to such compliance;
- appropriate arrangements and structures that, in their opinion, are designed to secure material compliance with the Company's relevant obligations, have been put in place; and
- a review has been conducted, during the financial year, of the arrangements and structures that have been put in place to secure the Company's compliance with its relevant obligations.

Audit Committee Statement

The Directors believe that it is not necessary to form an audit committee given that the Board is formed of the non-executive Directors, including two independent Directors and the Company complies with the provisions of the Corporate Governance Code. The Directors have delegated the day to day management and administration of the Company to Trium Ireland Limited and to Northern Trust International Fund Administration Services (Ireland) Limited respectively and has appointed Northern Trust Fiduciary Services (Ireland) Limited as depositary of the assets of the Company.

Results and Dividends

The results of operations for the year are set out in the Statement of Comprehensive Income. There were no dividends paid for the financial year ended 31 December 2023 (31 December 2022: Nil) for distributing Funds ESG Emissions Improvers Fund or Trium Climate Impact Fund. Trium Climate Impact Fund declared dividends for the year for a total of EUR 467,834 and paid on 31 January 2024.

Risk Management Objectives and Policies

The principal risks and uncertainties faced by the Company are the investment risks associated with the portfolio of investments held for the account of the Funds and the operational risks associated with their management and administration. A more detailed analysis of some of the risks facing the Company is included in note 11 to the financial statements.

Business Review

A comprehensive overview of the Company's investment performance is detailed in the Investment Managers report for each Fund.

Directors

Andrew Collins (Irish Resident)
Maurice Murphy* (Irish Resident)

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

DIRECTORS' REPORT *(Continued)*

Business Review (continued)

* Independent non-executive Directors.

Transactions Involving Directors

Other than that disclosed in note 8 to the financial statements, there were no contracts or agreements of any significance in relation to the business of the Company in which the Directors had any interest, as defined in the Companies Act 2014 (as amended), at any time during the year (31 December 2022: Nil).

Corporate Governance Statement

The Board of Directors note the issuance by the Irish Funds (“IF”) of the Corporate Governance Code for investment funds and management companies as published by the Irish Funds Industry Association in December 2011 (the “IFIA Code”).

Statement of Compliance

The Board of Directors have adhered to the IF Corporate Governance Code with effect from 14 October 2014. The Company has been in compliance with the Corporate Governance Code during the financial year ended 31 December 2023.

Internal Control and Risk Management

The Directors are responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company’s financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

Audit Information

The accounting information given in the annual report is required to be audited by one or more persons empowered to audit accounts in accordance with Irish statute, who as best practice also attend the board meeting of the Directors, at which the annual financial statements are considered, to report on the audit process and to answer any questions which may arise in connection with the audit. The auditors’ report, including any qualifications, is reproduced in full in the annual report of the Company.

Significant Accounting and Reporting Issues

The Directors of the Company evaluate and discuss significant accounting and reporting issues as the need arises. Northern Trust International Fund Administration Services (Ireland) Limited has been appointed as Administrator and as such is responsible for preparing the Company’s interim and annual financial statements and maintaining its accounting records.

Shareholders Meetings

The Directors may, in accordance with the Companies Act 2014 (as amended), convene extraordinary general meetings of the Company at any time. The Directors shall convene an annual general meeting within six months of the end of each accounting year.

Not less than 21 days’ notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to Shareholders and 14 days’ notice must be given in the case of any other general meeting.

Two Members present either in person or by proxy shall be a quorum for a general meeting provided that the quorum for a general meeting convened to consider any alteration to the rights of Shares in a Fund or Class shall be two Shareholders holding or representing by proxy Shares of the relevant Fund or Class. If within half an hour after the time appointed for a meeting a quorum is not present the meeting, if convened on the requisition of or by Shareholders, shall be dissolved. In any other case it shall stand adjourned to the same time, day and place in the next week or to such other day and at such other time and place as the Directors may determine and if at the adjourned meeting a quorum is not present within half an hour from the time appointed for the meeting, the Members present shall be a quorum and in the case of a meeting of a Fund or Class convened to consider the variation of rights of Shareholders in such Fund or Class the quorum shall be one Shareholder holding Shares of the Fund or Class in question or his proxy. All general meetings will be held in Ireland.

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

DIRECTORS' REPORT *(Continued)*

Corporate Governance Statement (continued)

The foregoing provisions with respect to the convening and conduct of meetings shall save as otherwise specified with respect to meetings of Funds or Classes and, subject to the Companies Act 2014 (as amended), have effect with respect to separate meetings of each Fund or Class at which a resolution varying the rights of Shareholders in such Class is tabled.

The Composition and Operation of the Board of Directors and other Committees

The composition of the Board is set out on page 8 under Directors. There were no other committees in place during the financial year.

Diversity

The Company believes in the importance of ensuring that its Board reflect diversity in its broadest sense. A combination of demographics, skills, experience, race, age, gender, educational and professional background and other relevant personal attributes on the Board is important in providing a range of perspectives, insights and challenges needed to support good decision making.

The objective of the diversity policy is to ensure that the Company's Board of Directors captures a diverse range of perspectives, insights and challenges so as to support good decision making. The board does not believe that it is appropriate to set specific targets with regard to issues such as age, gender or educational and professional backgrounds, given the nature scale and complexity of the Company and the regulatory overlay with which it must comply.

New appointments will be made on merit, taking account of the specific skills and experience, independence and knowledge needed to ensure a rounded Board and the diversity benefits each candidate can bring to the overall Board composition. Objectives for achieving Board diversity will be set and reviewed by the Board on a regular basis.

Transactions with Connected Persons

Any transactions carried out with a Company by a management company or depositary to the Company, the delegates or sub-delegates of the management company or depositary, and any associated or group of such a management company, depositary, delegate or sub-delegate ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the shareholders.

The Directors are satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and are satisfied that transactions with connected persons entered into during the year complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations.

Prospectus

The full Prospectus of the Company was issued on 1 December 2014 and was last updated on 30 June 2020. The Supplement to the Prospectus of Trium Climate Impact Fund was issued on 9 February 2023. The Supplement to the Prospectus of Trium ESG Emissions Improvers Fund was issued on 16 February 2023. The Supplement to the Prospectus of Trium Multi-Strategy UCITS Fund was issued on 22 February 2023. The Supplement to the Prospectus of Trium Alternative Growth Fund was issued on 27 April 2023. The Supplement to the Prospectus of Trium ESG Emissions Improvers Fund was issued on 24 May 2023. The Supplements for the Trium Climate Impact, Trium ESG Emissions Improvers and both Trium Sustainable Innovators Funds were updated on 29 June 2023 to include the latest SFDR pieces as Article 8 and Article 9 funds.

Significant Events During the Year

Trium ESG Emissions Impact Fund changed its name to Trium ESG Emissions Improvers Fund on 16 February 2023.

Trium Absolute Return Fund changed its name to Trium Multi-Strategy UCITS Fund on 22 February 2023.

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

DIRECTORS' REPORT *(Continued)*

Significant Events During the Year (continued)

In March 2023, the global banking sector experienced a series of shocks prompted by the collapse of California's Silicon Valley Bank ("SVB") and the emergency rescue of Credit Suisse by UBS in Switzerland. The Board of Directors, the Manager and Investment Manager are continuing to monitor developing events in the global banking system and will consider if action is required. Each of the Trium Avala Dynamic Equity Fund and Trium Multi-Strategy UCITS Fund held small short positions in both banks before their collapse.

Trium Multi-Strategy UCITS Fund launched Class E USD and Class N USD on 10 March 2023.

Trium Epynt Macro Fund launched Class X GBP on 20 March 2023.

Trium Climate Impact Fund launched Class D GBP on 31 March 2023.

Trium Climate Impact Fund launched Class F GBP and Class I GBP on 27 April 2023.

Trium Climate Impact Fund launched Class F USD on 5 May 2023.

Trium Climate Impact Fund launched Class DI USD on 24 May 2023.

Trium Sustainable Innovators Global Equity Fund launched Class I USD on 25 May 2023.

Trium Climate Impact Fund launched Class DI EUR and Class DI GBP on 31 May 2023.

Trium ESG Emissions Improvers Fund launched Class SI GBP on 21 June 2023.

Trium ESG Emissions Improvers Fund launched Class FD GBP and Class ID GBP on 27 June 2023.

The Supplements for the Trium Climate Impact, Trium ESG Emissions Improvers and both Trium Sustainable Innovators Funds were updated on 29 June 2023 to include the latest SFDR pieces as Article 8 and Article 9 funds.

Trium Alternative Growth Fund launched Class FP GBP on 1 August 2023.

Trium Climate Impact Fund launched Class X GBP on 6 September 2023.

Trium ESG Emissions Improvers Fund launched Class SI EUR on 3 October 2023.

On 7 October 2023, Palestinian militants launched an assault on Israel, leading to an Israeli invasion of Gaza. This conflict has created extensive uncertainty on the political and economic front. The long term impact on economies, markets, industries and individual issuers continue to evolve. The Directors are monitoring the situation and are continuing to review during this period of uncertainty to assess any impact the situation may have on any of the Funds.

There have been no other significant events during the year that require recognition or disclosure in these financial statements.

Subsequent Events

Trium Climate Impact Fund declared dividends for the year for a total of EUR 467,834 and paid on 31 January 2024.

There have been no other subsequent events affecting the Company since 31 December 2023 that require recognition or disclosure in these financial statements.

Independent Auditors

In accordance with Section 382 of the Companies Act 2014, PricewaterhouseCoopers, will continue as the Company's statutory auditors.

INVESTMENT MANAGER'S REPORT

Trium Multi-Strategy UCITS Fund*

The year marked a clear departure from 2022 with several asset classes outperforming expectations and better than they did the prior year. Bolstered by a combination of a solid economy, better-than-expected corporate earnings, and an apparent end to the Federal Reserve's interest rate hikes, the S&P rallied 25% in 2023. The performance of the S&P was extremely narrow, led by the seven stocks (Magnificent 7) recognized by investors as the largest beneficiaries of AI. An equal-weighted version of the S&P index underperformed by 12 percentage points. Bond investors, meanwhile, breathed a sigh of relief after avoiding an unprecedented third straight year of losses. Softer inflation data led to the Federal Reserve ("the Fed") announcing the completion of the rate hike cycle, triggering a euphoric everything rally in November and December. The Trium Multi-Strategy UCITS ("TMSU") Fund's returns over Q4 were positive, down in October, up in November, then rebounding in December for a small positive return over the three months.

For the year, the Fund finished up 4.6%. The Fund's volatility remains at the lower end of the 3-5% target range. Although a positive correlation developed between Discretionary Equity Market Neutral and Quantitative Equity Market Neutral through the course of the year, the portfolio remains well diversified with the addition of two Global Macro Portfolio Managers ("PM"). Both PMs made positive contributions for the year. The first is a Discretionary PM with a bias towards Emerging Market bonds but positioned for a hard landing in certain Developed Markets, whilst the second is a Systematic Macro PM who trades G10 FX, and profits from the carry, reversal, and momentum characteristics of the VIX and commodity curves in the Ags and Energy complex. The long volatility trades from these two Global Macro sub-strategies helped protect the Fund during periods of market stress.

Event Driven was the standout contributor for the year, with the Merger Arbitrage sub-strategy benefitting from deals consummated in Q4. Regulatory hurdles briefly subsided during the quarter, enabling several large deals to close by year end. The contribution from the strategy helped the Fund deliver a positive return in the fourth quarter, despite losses suffered from other strategies over the period. Global Macro was the next largest contributor. Its exposure to sovereign bonds in Latin America and quasi-sovereigns in Ukraine and Argentina helped the strategy at different points in the year while put protection on the S&P, short positions on the NASDAQ and Euro Stoxx, and the capture of VIX momentum made sure the Fund delivered a positive performance and withstand the market meltdown in Q3. Capital Structure Arbitrage suffered early losses in the year from Model Arbitrage trades because of a lack of single stock volatility. Q4 was a different story for the strategy. The PM managed to capitalize on short-duration Convertible Bonds pulling to par, with a put feature and trading at a discount. Systematic Equity Market Neutral suffered in November and December due to factor reversals precipitated by a "dash for trash" rally led by short covering in Growth stocks and amid rumours of Quant Equity portfolios being liquidated at large Multi Strategy firms. Discretionary Market Neutral managed to finish the quarter flat despite an unfriendly environment for the strategy.

Outlook

While 2023 provided an attractive yield on cash and proved to be a difficult hurdle for most hedge funds, the outlook for yields in 2024 is less certain. The Fed and ECB have promised a looser monetary policy with an eye on inflation data while the Bank of Japan is expected to hike rates for the first time since 2007. 2024 is also the year when more than 50 countries go to the polls. We expect multiple factors to contribute to a rise in market volatility. On the positive side of the ledger, there are the pending rate cuts and the inevitable electoral promises of loosening the fiscal belt, especially as the next democratic leader becomes apparent. However, the Mideast and Ukraine crises remain unresolved, and supply-side inflationary pressures resulting from these conflicts could force the Central Banks to maintain short term rates higher for longer. There is also the greater coupon bond issuance necessary to fund the wide deficits being run in the US and the EU. We witnessed a preview in Q3 2023 when higher issuance and a lack of appetite for bond inventory at primary dealers led to several weak treasury auctions and caused bond and equity markets to sell off in unison. With US equity markets trading at all-time highs, exogenous shocks, such as a hard landing for the US economy, seem to have been discounted by market participants. Against this uncertain backdrop, capital allocation, capital efficiency, and risk management will all play an important role to deliver the Fund's stated target return of Cash + 3%-5% in 2024.

INVESTMENT MANAGER'S REPORT *(Continued)*

Trium Multi-Strategy UCITS Fund* (continued)

Outlook (continued)

Unlike the systematic stop-loss methodologies utilised by pod shops as soon as a PM breaches a drawdown limit, where positions are sold and risk reduced and a cooling off period ensues, risk management is more nuanced in the Fund. We have the discretion to add capital to a strategy at the first stop-loss level. We seek to determine the reasons for the drawdown before any changes to the allocation are decided. This allows the Fund to capitalise on any potential mean reversion in performance by the strategy. Cash optimisation will be important once more as rates climb down from their peaks. Treasury management, with an ability to pledge collateral that earns an attractive yield while negotiating cheaper financing rates charged by Prime Brokers, is an important facet of managing a multi-strategy fund. Capital allocation will once more be at the forefront as the environment will be favourable to some strategies over others during the year. The idea is to tactically rotate capital when we see such signs.

- Capital Structure Arbitrage – New issuance is expected to increase in 2024, higher rates causing companies to issue convertibles, which generally carry a lower coupon than traditional bonds, and are cheaper forms of financing. The larger universe will present a fertile ground for the strategy and allow the PM to take advantage of mispricing in specific issues.
- Discretionary Equity Market Neutral – The return of volatility to equity markets should result in a wider dispersion between winners and losers and opportunities for the PM to deliver alpha from both long and short positions. The strategy's focus on energy transition stands to benefit from the investment programmes announced at COP28. However, the anti-ESG sentiment rising from political pressure in the US adds to an uncertain environment.
- Event Driven – Merger activity has already gotten off to a strong start in 2024 and is expected to continue through the year as firms use their stock as currency to acquire smaller companies, some of whom struggle with a mountain of debt and find refinancing challenging in a high-rate environment. Furthermore, regulatory hurdles have resurfaced again, and electoral politics have added further pressure to cross border activity causing merger spreads to widen. Our experienced PMs know how to navigate these treacherous waters by conducting in-depth research on the deals. The idiosyncratic nature of the deals has caused us to be constructive on the strategy and led to an increase in the allocation.
- Global Macro – Geopolitical events and anticipated changes to monetary policy are a boon for the strategy and last year proved no different. We expect more of the same in 2024 and expect the strategy to perform well, especially when markets react adversely to exogenous events such as supply-side shocks resulting in higher crude oil prices or a hard landing for the US economy. We increased our allocation to the strategy in 2023 and remain positive for 2024.
- Quantitative Equity Market Neutral – Q4 2023 proved to be a tumultuous period for the strategy. A factor rotation led to losses for the strategy as unfavoured stocks outperformed quality equities in a “dash for trash” rally. The bounce-back nature of these factors means it is always sensible to increase the allocation on the first sign the selloff has subsided. We increased the allocation at the end of December and the Fund has benefitted from Quality, Value, Momentum and Size performing well in January 2024.

The year will require us to be disciplined, sticking to our core strengths in capital allocation, capital efficiency, and risk management.

INVESTMENT MANAGER'S REPORT *(Continued)*

Trium ESG Emissions Improvers Fund*

The Trium ESG Emissions Improvers Fund is an equity market-neutral fund that aims to contribute to environmental improvement whilst generating absolute returns. The Fund focuses on traditionally high-emitting sectors, including Energy, Utilities, Mining, Transportation, Chemicals, Industrials, and Agriculture. The team is looking for companies in these sectors that have the potential to significantly improve their environmental footprint relative to both peers and the broader market where that is not being discounted in the stock and then use engagement to encourage and support this transformation.

The Fund AUM reached 367 million EUR as of the end of 2023. We appreciate the continued support and interest of existing and new investors. The Fund passed its 4-year anniversary in September, an achievement that only a few alternative funds in the ESG space can claim, supporting further engagements with prospects and asset-raising efforts.

It should be noted that the name of the Fund changed from the Trium ESG Emissions Impact Fund to the Trium ESG Emissions Improvers Fund to better reflect the Fund's focus on corporate transformation and environmental improvement. The name change took effect on the 17 February 2023. The Fund remains an Article 8 fund under SFDR, and the investment philosophy remains unchanged.

2023 was a challenging year for climate-focused companies. Broader economic concerns over banking issues in early 2023, combined with investor outflows and falling carbon prices in Europe throughout the year created a difficult environment for climate-focused companies. The Fund's market-neutral and stock-specific focus was helpful in navigating this landscape, delivering a risk-adjusted return of +4.9% for the year whilst also contributing to environmental improvements.

A significant event for the strategy occurred in December with the release of the COP28 communique, which stated that countries should "transition away from fossil fuels in energy systems, in a just, orderly and equitable manner..." This is a big step forward as it is the first COP communique to mention reducing fossil fuel use. However, fossil fuel demand and emissions continue to grow on a global basis and have reached all-time highs in 2023. Our view is that reducing fossil fuel use will require enormous investment, innovation, and behavioural change. Capital expenditure in decarbonisation, waste, and water must significantly increase in the next 7 years in order for governments to reach their 2030 targets.

We continue to believe that companies exposed to this increasing capex will have a structural advantage over peers for decades. On top of this overarching theme of capital expenditure on decarbonisation and environmental improvement, we have identified eight long and four short themes for 2024. The eight long themes for 2024 are:

- **Pricing Power in Economic Slowdown:** We expect weak revenues in periods of economic slowdown. As such, we look for companies with margin and balance sheet strength, and superior pricing power.
- **EU Green Deal Winners:** This remains an area of structural growth driven by regulation.
- **Electrification Infrastructure:** Decarbonisation in hard-to-abate sectors frequently involves electrification, making electrification infrastructure a key investment theme for 2024.
- **Energy Transition Metals:** This remains a consistent theme going into 2024 as the energy transition requires a significant increase in supply of transition metals such as lithium, nickel, and copper.
- **Wood-based Products:** We believe wood-based solutions such as paper and cardboard will continue to take market share from plastic packaging.
- **Decarbonising Agriculture:** While commodity prices fluctuate, we see an attractive outlook and a structural growth story for companies with decarbonisation products for agriculture.
- **Location Drives Green Success:** Companies with access to low-cost green electricity or carbon capture infrastructure have a competitive advantage regardless of commodity prices.
- **Fallen Angels in Renewables and Clean Tech:** Although many clean tech and renewables stocks have been decimated in 2023, we have recently added some of these stocks that have been sold off, but we believe have good business models and can emerge stronger from this downturn.

INVESTMENT MANAGER'S REPORT *(Continued)*

Trium ESG Emissions Improvers Fund* (continued)

The Fund is run under a market-neutral approach. As such our short book includes single-name shorts, short baskets, and indices. We have four broad shorting themes for 2024, which are:

- **Governance:** We look for mismatches between management motivation and shareholders, or governments, families, or private equity firms which drive corporate behaviour against the best interest of shareholders and the overall company.
- **Political Risk:** Considering the combination of inflation, slowing economic growth, and significant government debt, we expect fiscal challenges to become an issue again in 2024 as tax revenues drop, once again encouraging governments to look for profitable companies for taxation or to force prices down through regulation.
- **Stranded Assets:** We believe slowing economic growth and higher costs of capital are going to refocus attention on companies with assets on the wrong part of the cost curve, especially those companies with high emissions and high abatement costs.
- **Funding Challenges:** We believe any stock with funding challenges is likely going to continue experiencing those challenges in 2024. The stock market is unfortunately very effective at providing money to companies who do not need it, and terrible at helping companies in trouble.

In summary, while macroeconomic challenges may continue to arise in 2024, we remain focused on dispersion among stocks in hard-to-abate sectors, pricing power, and regulatory-driven demand. We believe that environmental spending must increase, regulations will strengthen, and the market for green products will grow faster than the broader economy. In our view, if we can capture that growth at discounted valuations whilst running tight net exposure and low gross, we can generate attractive returns over time.

INVESTMENT MANAGER'S REPORT *(Continued)*

Trium Sustainable Innovators Funds

Trium Sustainable Innovators Global Equity and Trium Sustainable Innovators North American Equity were up respectively 20.75% and 21.32% respectively for the full year. Their respective benchmark, for example, the MSCI World TR expressed in USD and the S&P 500 TR, were up 23.79% and 26.29%. The period was marked by a significant rally in the equity market due to falling inflation expectations across developed markets and, also, euphoria around a new technology cycle mainly based on artificial intelligence. The progression in the indices was overwhelmingly driven by a very small number of stocks in the information technology space, the Magnificent 7 while the two funds had a very low exposure to these shares in the period under review (and nil at the end of it).

In terms of stock performance, please find the top 5 contributors and detractors of the portfolios for the period:

- Ansys: Despite some macro headwinds the company managed to increase its guidance for the full year. In December, some press reports mentioned that the company may be the subject of a takeover bid. The share price reacted positively to this. An offer from an industrial competitor or a private equity specialist would make sense. The company has an unparalleled franchise and record in simulation software.
- Adobe: AI was a key driver of the shares during the period and the sentiment on this progressively shifted positively over the period. At the start, investors were nervous about the risks posed by AI to the customers of Adobe, mainly designers and content creators. Then, Adobe announced the launch of AI functionalities for some of its key products and managed to convince investors that AI may benefit both pricing and volumes down the road.
- Straumann (Global fund): Investors become increasingly convinced by the development of new products beyond the core business of dental implants. This should ultimately reinforce the company's moat and makes the business more recurring and profitable. In parallel, fears regarding price pressure in China, due to a new regulation being implemented, have receded.
- Graco: through innovation and pricing the company managed to offset headwinds in its contractor division. In parallel cost pressure linked to raw materials and wage inflation started to ease from the middle of the year. The company's market capitalisation which is now above USD10B enables a larger pool of investors to get into the name.
- Accenture: the company's business has been resilient and bookings, including in the more cyclical consulting division, were up year on year. The stock is increasingly seen as a play on artificial intelligence.
- Estee Lauder: The shares suffered from a profit warning on 2 May 2023. The company explained that the recovery in China is not as strong as expected, particularly in Hainan where flows of tourists have not recovered. There are also legitimate doubts about the market share dynamics in the United States where certain brands seem to lose steam.
- SIG Combibloc (Global fund only): We are slowly building a holding into this new name added to our investible universe. The company suffered from declining volumes sold in supermarkets due to the inflation bust.
- Nike: Nike's business suffered from the slowdown in North America wholesale where the company decided to re-enter into certain doors as well as the slow recovery in China. It remains to be seen whether Nike has been also losing some brand momentum, which we do not think is the case. Key indicator to monitor as well will be the level of inventories in the value chain.
- Zalando (Global fund only): The slowdown in the European economy due to inflation-driven weaker consumption as well as a high level of inventory has led Zalando to revise its expectations. There is increasing competition from low cost platforms as well which do not help when clients are budget conscious.
- Xylem: The main event for the company was the acquisition of its US competitor Evoqua. The deal makes strategic sense and strengthens Xylem's position with local utilities. It comes at a high price though and was partly financed with shares, which does not help. The underlying secular driver, water, remains relevant and a big investment focus for many companies.

We maintained the strategy's turnover in line with the long-term average of around 25%.

INVESTMENT MANAGER'S REPORT *(Continued)*

Trium Alternative Growth Fund

Asset under management review

We have seen gentle inflows over the first 6 months of 2023 with larger inflows in the final 6 months which has increased AUM from £50.49M to £83M over the course of 2023. This has included 3 new underlying DFM investors. We're in the final round of due diligence for 3 other DFMs and expect potential pipeline over H1 2024 of between £10-25M.

Market review

The 2023 provided more of a risk-on year for traditional asset class returns. Stocks and bonds surged towards the end of the year following indications from the Federal Reserve signalling the end of rate hikes and potential cuts. By Christmas 2023, the S&P 500 was within a mere 2% of its previous all-time high set in January 2022, with the market rally extending beyond just major tech companies. Meanwhile, ten-year Treasury yields retreated below 4% for the first time since July, dropping more than 100 basis points from their decade-high levels just two months earlier.

Presently, inflation rates across developed nations have more than halved, while economic growth has shown resilience. Though the robust pace of growth is expected to slow, fears of a looming recession have not materialized. Against this backdrop, the Federal Reserve hinted at a policy pivot in its final meeting of 2023. Following this week's expected decision to hold rates steady, policymakers disclosed plans for more rate cuts than previously anticipated — a total of 75 basis points over the next year, aiming for a policy rate of 4.6%, down from the current 5.1%. While this still exceeds the roughly 3.8% forecasted by markets, it signifies a significant reduction, suggesting the Fed anticipates three rate cuts in the coming year.

Performance review

The Fund is designed to be market neutral selects systematic strategies that can show positive returns in either an inflationary or deflationary environment as well as returns above cash returns.

2023 was a moderate year for returns, up around 2.7% going into year end. With the dichotomy between inflation and deflation being played out throughout the year, meaning although the portfolio transitioned into more of a disinflationary mode, as the situation was murky, risk was taken down to below target levels to maintain a positive return. This also coincided with the development of shorter-term Alpha Strategies that are codified internally and are less 'inflation/deflation regime' sensitive. These Alpha Strategies and internal strategies have been gently incorporated into the portfolio from the summer of 2023 onwards so that we are now up to the targeted portfolio risk going into 2024.

We successfully launched several custom commodity strategies within the Fund using internal sta and proprietary spread models that are market neutral to the price. The biggest contributor to returns was Nat Gas, followed by agricultural commodities then energy.

Biggest detractors from performance were the long volatility strategies (both rates and equity) that underperformed as volatility across all asset classes came lower.

Likewise, our strong balance sheet equity strategy which is designed to replicate a short credit position underperformed as credit spreads tightened to very low levels.

Outlook

Inflation appears poised to stabilize as price pressures ease, aligning with the Federal Reserve's forecasts indicating a steady trajectory towards its 2% inflation target.

As central banks, including the Fed, teeter on the brink of potential rate cuts, the attractiveness of cash reserves, once yielding lucrative returns, stands to diminish rapidly.

This shift prompts a reconsideration of investing in bonds, as their yields remain relatively elevated compared to the anticipated decline in cash yields. The comparison becomes even more favourable after recent central bank meetings, particularly if rate cuts exceed expectations.

INVESTMENT MANAGER'S REPORT *(Continued)*

Trium Alternative Growth Fund (continued)

Outlook (continued)

Stock markets are anticipated to surge to new heights, buoyed by the prospect of a smooth economic transition characterized by moderate inflation, robust growth, and accommodative monetary policy. Should economic data surpass expectations, valuations may further expand, and earnings could exceed the anticipated trend-like pace.

The risk of credit stress is expected to be contained, barring a recession, with potential impacts primarily concentrated in commercial real estate and select segments of corporate debt. Agile and seasoned active managers may seize opportunities arising from these conditions.

Overall, there is a palpable momentum towards reallocating assets from money market funds into stocks and bonds, fuelled by record-high levels of assets. Although markets are evolving swiftly, there may still be room for further gains. Historical data indicates that previous instances of pre-emptive rate cuts by the Fed have been followed by significant market rallies, underscoring the potential for substantial returns in both equity and bond markets.

INVESTMENT MANAGER’S REPORT *(Continued)*

Trium Avala Dynamic Equity Fund

Commentary and Attribution

In its second year, the Fund was up +2.5% (F USD) bringing the overall performance since inception to +4.7%.

The main source of return in 2023 was our market-neutral ‘Stock Selection’ component. The Fund’s systematic management of its beta has maintained its beta very close to zero since launch.

Attribution amongst the main return drivers in 2023

Majority of our models were up on the year. Our Growth model fared the best, contributing over +1.5% to the overall performance. This was followed by our Statistical Arbitrage, Momentum and Value models contributing over 0.5% each. Analyst Expectations and Information Advantage were also positive. Quality was the worst detractor, losing just over 1%. Size and Beta Arbitrage were also negative, but they lost less than -0.5% in total between them.

We made money in all our regional books, with the best relative performance coming from the UK book.

We were successful in over 60% of the sectors and the countries.

Three of our best stock contributions came from our long position in a European car company, which rallied following positive earnings surprises, our long in a Scandi media company which rallied following a takeover and our short in a Swiss bank which fell 70% when its rival took it over in a last-ditch effort to save them from bankruptcy.

Two of our worst contributions came from our shorts in a UK online delivery stock and a European semiconductor company, which rallied on the back of positive sentiment towards non-profitable /expensive stocks in the last quarter of the year.

Outlook

Despite projected interest rate cuts for 2024, rates are likely to stay elevated for a while. Liquid alternatives, particularly “Cash plus Alpha” strategies, are direct beneficiaries of this. We therefore expect positive flows towards our type of strategies, which should benefit factor performances.

In this environment, a tried and tested strategy like ours should be even more desirable as we have proven to be a strong performer over many years, including multiple economic cycles.

INVESTMENT MANAGER'S REPORT *(Continued)*

Trium Avala Dynamic Equity Fund (continued)

Outlook (continued)

Whilst positive flows have affected the US and Asia factor behaviour (factors there were more positive last year), they are yet to materialise in Europe / UK. Europe and the UK appear somewhat unloved, and these markets currently present even better alpha opportunities – this should benefit us as we have ~ 80% exposure to these markets. European factors have started 2024 strongly.

INVESTMENT MANAGER'S REPORT *(Continued)*

Trium Epynt Macro Fund

2023 Performance Summary

The Fund's key macro call for 2023 was to push back on widespread predictions for a US recession, while maintaining a more cautious stance towards China despite the excitement around reopening going into the year.

The China theme was the key driver of returns, with the Fund positioning for a weaker currency on the basis that the CCP could (or would) not do enough to revive the nation's flagging economy.

Commodity-related expressions within the Decarbonisation theme made a positive contribution, even as broader indices moved meaningfully lower over the year.

DM Rates/FX, typically the bread and butter for global macro trading, proved perilous and difficult to monetise, with the Fund eking out a relatively modest gain through a more tactical approach. Meanwhile, DM Equity shorts were a drag on performance, as losses on index shorts outweighed profits from the long book.

The Fund gave back P&L in Emerging Markets, where we were seeking opportunities on the other side of our short fixed income bias in DMs.

DM Rates/FX

The Fund positioned for higher DM yields and a stronger US Dollar for much of the year – particularly during Q2 and Q3. While our calls were generally in right direction, overall moves were small relative to the trading range.

In the US, the Fund profited from tactical trading in short-term rates, with gains helpful in keeping performance respectable in H1 as the market aggressively repriced on the back of the SVB crisis. We maintained more of a paid bias in 10 year Treasuries from the post SVB lows (the “crisis” ultimately proving to be a fade), before lightening up as the trend sharply reversed during Q4.

Short exposure to French 10yr OATs also made a positive contribution, as did UK short-term receivers where the Fund took the other side with the market having gone too far in pricing extremely elevated inflation/rates.

The Fund expected Japanese yields to move higher and closer to DM peers, but incurred losses in Q4 as local idiosyncrasies were overwhelmed by the move lower in US Treasury yields.

Going into Q4 we were braced for a potential pivot, but with hindsight should have acted even more aggressively in eliminating short fixed income/long Dollar exposure (most notably in Japan where we were overly focused on a material change in policy which did not arise during the year).

China

The biggest single contributor to P&L in 2023 was the Fund's short against the Chinese Renminbi, reflecting our view that the country needs to accept a significant currency depreciation to boost its lackluster economy. The trade was expressed via USDCNH call options, which remain very attractively priced due to the managed nature of the currency and the impact of structured product flows in suppressing volatility.

The Fund added positioning for higher CNH interest rates when we perceived that currency weakness was not being welcomed by the PBoC. As the Renminbi pushed against the weaker end of the permitted trading band, the PBoC intervened to disincentivise shorting, and prevent the currency falling too far, too quickly.

In equities, the Fund incurred some offsetting losses on long exposure to the tech sector, which was overwhelmed by broader negative sentiment around China, and long-dated index call options where we have around one year of life for the view to play out.

INVESTMENT MANAGER'S REPORT *(Continued)*

Trium Epynt Macro Fund (continued)

Decarbonisation

Uranium was the standout commodity of 2023, rallying 90%. A longstanding back book position, our thesis boils down to a supply and demand imbalance that will be difficult and slow to solve. Out of fashion post the Fukushima disaster, demand for uranium is increasing as nuclear is firmly back on the global policy agenda. Nuclear power is becoming a rare area of policy agreement across the political spectrum. New reactors bring demand from utilities, while increasing financial participation accelerates the moping up of historical excess inventory in a market which now has a severe supply shortage. New production will take time to get going with only previously mothballed production online and new projects still stuck in early stages.

We think the theme still has legs but hedge out any market beta exposure as our view on equities in general is neutral. Although less correlated to stocks in “normal” market environments (defined as VIX below 30), crash correlation analysis shows uranium plays become notably more correlated during periods of heightened volatility (i.e. when stocks sell off).

The Fund's tactical short in EU carbon proved timely. We had previously been bullish on carbon markets as a means of aligning ourselves with the ambitions of policy makers seeking a higher carbon price to incentivise spending on decarbonization. However, the Fund went tactically short EU carbon in 2023 as shifting supply/demand dynamics (cheaper gas, improved nuclear availability, and acceleration of decarbonisation tech post-Ukraine invasion) all pointed to a lower price.

DM Equity

Going into the year we had reasoned that higher inflation/rates would likely have negative a negative impact on stock prices in aggregate.

Having failed to foresee the AI inspired bottom-up rally, we ran a smaller index short during H2, beyond a hedge against residual beta creeping through from elsewhere in the portfolio. We remain reluctant to fight against the trend, with no sign of a sustained reversal so long as abundant liquidity persists.

There was a positive contribution from our long European vs US Banks RV in H1, most notably during the SVB crisis in March. Losses on builders RV and Japanese banks were sustained in H1, and subsequently closed.

Emerging Markets

EM strategies were the biggest drag on Fund performance in 2023 as our view of a convergence with DM rates did not play out as strongly as we expected.

Mexican and South African rates both saw a lot of volatility, but very little movement, (-0.02% and -0.05% on a yearly range 1.83% and 2.00% wide!). Brazilian rates did converge, with 10yr rates down 2.71%, and we saw some offsetting gains - but our timing and sizing was suboptimal.

The bigger, more liquid, EMs have been a strong area for the strategy in the past (Latam in particular) and we feel it will be again in the future, especially with the hard lessons we have learnt in 2023.

Reflections on 2023

Risk-seeking investors were rewarded in 2023. As it turned out, nothing else “broke” post SVB, despite widespread fears over the impact of elevated interest rates. Now the pressure is off somewhat as financial conditions have eased on the view that inflation is firmly back in its box. Meanwhile, an increasing number of market participants have become sympathetic to the notion that recession will now be completely avoided. As a result, we entered the new year with stock indices at all-time highs in both US and Europe.

The Fund contemplates whether the 60/40 recovery will persist or if diversifiers will play a more crucial role in 2024. The current macro landscape offers ample opportunities to deliver returns at the upper end of the target range. The Fund's broad remit, extending beyond the traditional focus on DM rates and FX, ensures the Fund remains opportunistic amid huge dispersion across asset classes and economies.

INVESTMENT MANAGER'S REPORT *(Continued)*

Trium Climate Impact Fund

The Trium Climate Impact Fund was created with the objective of generating attractive long-term returns whilst driving positive environmental outcomes, addressing challenges such as climate change, waste management, and water access. The portfolio will create significantly more avoided emissions than direct emissions, will treat significantly more water than water consumed, and will collect/recycle significantly more waste than waste generated.

After launching in October 2022, the Fund reached €45M million as of the end of 2023. We appreciate the continued support and interest of existing and new investors.

2023 was a difficult year for climate-focused companies, with environmental solutions stocks significantly underperforming throughout the year in comparison to the broader market. This underperformance within the 'green' industries was driven by a combination of higher interest rates, lower power prices, and market participants rotating to other sectors. Unfortunately, these market dynamics led to the Fund ending 2023 down -7.8%.

There were a few events and trends of note during 2023 that the Portfolio Managers feel could be impactful on the strategy:

- **EU amendments to the Energy Efficiency Directive and Energy Performance in Buildings Directive**, both of which encourage growth in insulation and green buildings.
- **Release of the sixth integrated assessment report on climate change from the Intergovernmental Panel on Climate Change (IPCC)**, alongside the International Energy Agency's preliminary estimates of 2022 GHG emissions. Both reports highlight the need for large-scale investment in decarbonisation.
- **Volatility and variability of the solar sector** over the last decade continued in 2023. Solar stocks struggled throughout the year due to higher interest rates, import restrictions, and regulatory changes. Overcapacity in the solar equipment sector has impacted many solar manufacturers, however, lower equipment costs is beginning to benefit developers' future returns. The Fund has not had significant exposure to solar throughout 2023, but we are finding pockets of opportunity in solar equipment.
- **The offshore wind industry struggled** amid rising interest rates, rising commodity prices, and a limited supply chain increasing costs for developers. Late 2023 saw considerable improvement in both the UK and USA's support for offshore wind, with the UK offering significantly higher prices for offshore wind auctions, and the USA improving tax breaks for offshore wind. We believe that offshore wind will remain a building block of low-carbon electricity as many countries in the northern hemisphere with limited solar power access and high population density will rely on offshore wind.
- **Release of the COP28 communique** which stated that countries should "transition away from fossil fuels in energy systems in a just, orderly and equitable manner...so as to achieve net zero by 2050 in keeping with the science". This is a significant step as it is the first COP communique to mention reducing fossil fuel use. Fossil fuels provide roughly 80% of the world's primary energy. Our view is that reducing dependency on fossil fuels will require enormous investment, innovation, and behavioural change. The investment cycle to replace 80% of the world's energy sources is just beginning and should continue to benefit companies in our investment universe.
- **Long-awaited clarification and implementation of the US Inflation Reduction Act** was delayed throughout the year with some additional detail on domestic content requirements announced mid-year with final clarification on Internal Revenue Code section 45X and 45V relating to tax credits for domestic content and hydrogen only coming out in December. This slowed some planning and investment decisions. 2024 may bring about more uncertainty in IRA implementation as we enter the next US election cycle.
- **UK Prime Minister Rishi Sunak's delay in banning new petrol and diesel car sales in the UK** in addition to scrapping the ban on the sale of gas boilers. Germany also delayed the ban on new natural gas boiler sales for home refurbishments to 2028. While this news was disappointing, it is important to consider that these policy changes affect a relatively small portion of the fast-growing global 'green' market, and do not affect the US Inflation Reduction Act which is estimated at >\$500B worth of tax credits for solar, wind, biofuels, hydrogen, energy storage, and carbon capture.

INVESTMENT MANAGER'S REPORT *(Continued)*

Trium Climate Impact Fund (continued)

Outlook

While environmental stocks struggled in 2023, we believe this dynamic has begun to change and will continue to improve in 2024 as mandated climate goals for emissions, waste, water, and circular economy will require significant increases in climate-focused spending in the coming decade. We continue to believe that environmental solutions companies have a supportive regulatory backdrop and revenue growth opportunities going forward.

The supportive macroeconomic environment of lower interest rates and more attractive valuations relative to the broader market lead us to be optimistic about generating strong risk-adjusted returns in the coming year.

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

REPORT OF THE DEPOSITARY TO THE SHAREHOLDERS

We, Northern Trust Fiduciary Services (Ireland) Limited, appointed Depositary to Trium UCITS Platform Plc (the “Company”) provide this report solely in favour of the shareholders of the Company for the year from 1 January 2023 to 31 December 2023 (the “Annual Accounting Period”).

This report is provided in accordance with the UCITS Regulations – European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (SI No 352 of 2011), as amended, which implemented Directive 2009/65/EU into Irish Law (the “Regulations”). We do not, in the provision of this report, accept nor assume responsibility for any other purpose or person to whom this report is shown.

In accordance with our Depositary obligation as provided for under the Regulations, we have enquired into the conduct of the Company for this Annual Accounting Period and we hereby report thereon to the shareholders of the Company as follows;

We are of the opinion that the Company has been managed during the year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the constitutional documents and by the Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional document and the Regulations.

For and on behalf of:
Northern Trust Fiduciary Services (Ireland) Limited

22 April 2024

Independent auditors' report to the members of Trium UCITS Platform Plc

Report on the audit of the financial statements

Opinion

In our opinion, Trium UCITS Platform Plc's financial statements:

- give a true and fair view of the Company's and Funds' assets, liabilities and financial position as at 31 December 2023 and of their results and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Statement of Financial Position as at 31 December 2023;
 - the Statement of Comprehensive Income for the year then ended;
 - the Statement of Cash Flows for the year then ended;
 - the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
 - the Schedule of Investments for each of the Funds as at 31 December 2023; and
 - the notes to the financial statements for the Company and for each of its Funds, which include a description of the accounting policies.
-

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Emphasis of matter - financial statements prepared on a basis other than going concern

In forming our opinion on the financial statements, which is not modified, we draw attention to note 2.1 to the financial statements which describes the reasons why the financial statements of Trium European Equity Market Neutral Fund have been prepared on a basis other than going concern.

Conclusions relating to going concern

With the exception of Trium European Equity Market Neutral Fund where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's and Funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

With the exception of Trium European Equity Market Neutral Fund where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, in auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's and Funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 31 December 2023 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities set out on page 7, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

1. Organisation and Nature of Business

Trium UCITS Platform Plc (the “Company”) is organised in the form of an umbrella fund with segregated liability between its funds. The Articles of Association provide that the Company may offer separate classes of shares each representing interests in Trium European Equity Market Neutral Fund up to closure date on 31 March 2021, Trium Multi-Strategy UCITS Fund*, Trium ESG Emissions Improvers Fund**, Trium Sustainable Innovators North American Equity Fund, Trium Sustainable Innovators Global Equity Fund, Trium Alternative Growth Fund, Trium Avala Dynamic Equity Fund, Trium Epynt Macro Fund and Trium Climate Impact Fund (the “Funds”), with each Fund comprising a separate and distinct portfolio of investments. More than one class of shares may be issued in respect of each Fund with the prior approval of the Central Bank of Ireland (the “Central Bank”). The Company may from time to time create additional classes of shares within the Funds in accordance with the requirements of the Central Bank.

At the date of this Annual Report and Audited Financial Statements, the Company has eight Funds in operation. Trium European Equity Market Neutral Fund closed on 31 March 2021 and is therefore is no longer in operation. All closed Funds will remain ‘active’ on the Central Bank Register until the revocation process has been completed.

The Company may from time to time create such additional Funds as the Directors may deem appropriate and with the prior approval of the Central Bank. Details of any Funds created in the future shall be as set out in the applicable Supplement to Prospectus in accordance with the requirements of the Central Bank of Ireland. The applicable Supplement shall form part of, and should be read in conjunction with the Company’s Prospectus.

* Trium Absolute Return Fund changed its name to Trium Multi-Strategy UCITS Fund on 22 February 2023.

** Trium ESG Emissions Impact Fund changed its name to Trium ESG Emissions Improvers Fund on 16 February 2023.

2. Principal Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are set out below.

2.1 Basis of Preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union (“IFRS”), and International Financial Reporting Interpretations Committee (“IFRIC”) interpretations issued and effective for accounting year ending on or before 31 December 2023, with Irish Statute comprising the Companies Act 2014 (as amended), and with the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the “UCITS Regulations”) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the “Central Bank UCITS Regulations”). The financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss.

The financial statements have been prepared on a going concern basis. Trium European Equity Market Neutral Fund closed on 31 March 2021. Accordingly, the financial statements have been prepared on a non-going concern basis in relation to above mentioned closed Fund.

2.2 Critical Accounting Estimates and Judgments

The preparation of financial statements in conformity with IFRS as adopted by the European Union requires management to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about fair values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised if the revision affects only that year, or in the year of the revision and future years if the revision affects both current and future years.

NOTES TO THE FINANCIAL STATEMENTS *(Continued)*

For the financial year ended 31 December 2023

2. Principal Accounting Policies *(Continued)*

2.3 New and Amended Accounting Pronouncements

There are no standards, amendments to standards or interpretations that are issued but not yet effective for annual periods beginning 1 January 2023 that have a material effect on the Financial Statements of the Company.

2.4 Foreign Currency Translation

(i) Functional and Presentation Currency

Items included in the Company's financial statements are presented using the currency of the primary economic environment in which it operates (the "Presentation Currency"). The functional currency of Trium European Equity Market Neutral Fund, Trium ESG Emissions Improvers Fund, Trium Avala Dynamic Equity Fund and Trium Climate Impact Fund is Euro ("EUR"), the functional currency of Trium Multi-Strategy UCITS Fund, Trium Sustainable Innovators North American Equity Fund, Trium Sustainable Innovators Global Equity Fund and Trium Epynt Macro Fund is United States Dollar ("USD"), and the functional currency of Trium Alternative Growth Fund is British Sterling Pound ("GBP"). The Presentation Currency for the Company is EUR as the Directors have determined that this reflects the Company's primary economic environment, being the Functional Currency of the majority of shareholders.

(ii) Transactions and Balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the Statement of Financial Position date. Foreign exchange gains and losses arising from translation are included in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within net realised and change in unrealised gain/(loss) on financial assets and liabilities at fair value through profit or loss.

A notional currency adjustment arises as disclosed in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares from the re-translation of the opening net assets of the Trium Multi-Strategy UCITS Fund, Trium Sustainable Innovators North American Equity Fund, Trium Sustainable Innovators Global Equity Fund, Trium Alternative Growth Fund and Trium Epynt Macro Fund at the year-end exchange rate for the purpose of reporting total net assets in EUR of the Company. The method of translation has no effect on the value of the net assets allocated to the individual Funds.

2.5 Investments at Fair Value Through Profit or Loss

(i) Classification

The Company classifies its investments based on both the Company's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Company is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Company has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. The contractual cash flows of the Company's debt securities are solely principal and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collecting of contractual cash flows is only incidental to achieving the Company's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

The Company makes short sales synthetically in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use synthetic short sales for various arbitrage transactions. Synthetic short sales are held for trading and are consequently classified as financial liabilities at fair value through profit or loss.

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

NOTES TO THE FINANCIAL STATEMENTS *(Continued)*

For the financial year ended 31 December 2023

2. Principal Accounting Policies *(Continued)*

2.5 Investments at Fair Value Through Profit or Loss *(Continued)*

(i) Classification (continued)

The Company invests in derivative instruments for investment, hedging and efficient portfolio management purposes. All derivative instruments are measured at fair value through profit or loss. Derivative contracts that have positive fair value are presented as assets at fair value through profit or loss and derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, the Company classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

Financial assets that are classified as loans and receivables include interest, dividends and other receivables.

(ii) Recognition and Derecognition

Regular purchases and sales of investments are recognised on the trade date, the date on which the Company commits to purchase or sell the investment. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership and a realised gain or loss is recognised. Realised gains and losses are presented in the Statement of Comprehensive Income as net gain/(loss) on financial assets and liabilities at fair value through profit or loss.

(iii) Measurement

Financial assets and liabilities at fair value through profit and loss are valued at fair value at the Statement of Financial Position date. Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statement of Comprehensive Income within 'Net gain/loss on financial assets and liabilities at fair value through profit or loss' in the year in which they arise. Fair value is the price that would be received to sell the asset or transfer the liability in an orderly transaction between market participants.

In determining fair value, investment which is quoted, listed or normally dealt in on a Regulated Market shall be the last traded price (or if no last traded price is available the latest mid-market price). If an investment is quoted, listed or normally dealt in on more than one Regulated Market, the Directors may, in their absolute discretion, select any one of such markets for the foregoing purposes (provided that the Directors have determined that such market constitutes the main market for such investment) and once selected a market shall be used for future calculations of the Net Asset Value with respect to that investment unless the Directors determine otherwise.

In the case of any investment which is quoted, listed or normally dealt in on a Regulated Market but in respect of which for any reason, prices on that market may not be available at any relevant time, or, in the opinion of the Directors, may not be representative, the value thereof shall be the probable realisation value thereof estimated with care and in good faith by a competent person, firm or association (including the "Investment Manager") appointed by the Directors and approved for the purpose by Northern Trust Fiduciary Services (Ireland) Limited (the "Depositary"); and in the case of any investment which is quoted, listed or normally dealt in on a Regulated Market but which was acquired at a premium or at a discount outside or off the relevant market, the level of premium or discount at the date of valuation may be taken into account when valuing such investment provided the Depositary ensures that the adoption of such procedure is justifiable in the context of establishing the probable realisation value thereof.

The value of any investment which is not quoted, listed or normally dealt in on a Regulated Market shall be the probable realisable value estimated with care and in good faith by a competent person, firm or association (including the Investment Manager) appointed by the Management Company and approved for the purpose by the Depositary. As at 31 December 2023 the Investment Manager was not involved in the valuation of any investments.

2.5 Investments at Fair Value Through Profit or Loss *(Continued)*

(iii) Measurement (continued)

Contracts for Difference

Contracts for difference (“CFD’s”) are agreements between the Company and third parties, which allow the Company to acquire an exposure to the price movement of specific securities without actually purchasing the securities. The changes in contract values are recorded as unrealised gains or losses and the Company recognises a realised gain or loss when the contract is closed or reset. Unrealised gains and losses on CFDs are recognised in the Statement of Comprehensive Income.

Forwards

A forward currency contract involves an obligation to purchase or sell a specific currency at a future date at a price set at the time the contract is made. Forward foreign exchange contracts will be valued by reference to the forward price at which a new forward contract of the same size and maturity could be undertaken at the valuation date. The unrealised gain or loss on open forward currency contracts calculated as the difference between the contract rate and this forward price and recognised in the Statement of Comprehensive Income. Where a forward contract is purchased to hedge the currency risk of a specific class which is issued in a currency other than the measurement currency of the Company, all gains or losses on that contract are allocated to that class.

Options Purchased

The premium on purchased put options exercised is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on purchased call options exercised is added to the cost of the securities or foreign currency purchased. Premiums paid from the purchase of the options which expire unexercised are treated as realised losses in the Statement of Comprehensive Income. Options purchased outstanding at year end are listed in each Fund’s Schedule of Investments.

Futures contracts

Initial margin deposits are made upon entering into futures contracts and are made in the form of cash or cash equivalents. The fair value of futures contracts is based upon daily quoted settlement prices. Changes in the value of the contract are recognised as unrealised gains or losses by marking to market the value of the contracts at the Statement of Financial Position date. When a contract is closed, the difference between the proceeds from the closing transactions and the original transaction is recorded as a realised gain or loss.

Collective Investment Scheme (“CIS”)

Through its investments in other UCITS or other eligible CIS, including exchange traded funds, a Fund is exposed to not only to the risks of the underlying CIS’ investments but also to certain additional risks. Assets invested in other CIS incur a layering of expenses, including operating costs, advisory fees and administrative fees that Shareholders in the relevant Fund indirectly bear. Such fees and expenses may exceed the fees and expenses the Fund would have incurred if it invested in the underlying fund’s assets directly. To the extent that the expense ratio of an underlying CIS changes, the weighted average operating expenses borne by the relevant Fund may increase or decrease. An underlying CIS may change its investment objective or policies without the approval of the relevant Fund, and the relevant Fund might be forced to withdraw its investment from the underlying fund at a time that is unfavourable to the relevant Fund.

Fixed income securities

The Funds may invest in short duration fixed-income instruments (including sovereign, corporate or government bonds which may be fixed or floating rate, investment grade bonds as rated by a recognised credit rating agency) for cash management purposes. Changes in the value of fixed income instruments are recognised as unrealised gains or losses by marking to market the value of the fixed income securities at the Statement of Financial Position date. The profit or loss on the sale of fixed income instruments is calculated by deducting the cost of sales from the net sale consideration and is recorded as a realised gain or loss.

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

NOTES TO THE FINANCIAL STATEMENTS *(Continued)*
For the financial year ended 31 December 2023

2. Principal Accounting Policies *(Continued)*

2.6 Cash, Cash Equivalents and Bank Overdraft

Cash and cash equivalents includes cash in hand, deposits held at call with banks and other short-term investments in an active market with original maturities of three months or less and bank overdrafts. Bank overdrafts are shown in current liabilities in the Statement of Financial Position.

Cash assets and liabilities are held with The Northern Trust Company (“TNTC”) as well as Broker accounts as listed under 2.7.

2.7 Due From and Due To Brokers

Amounts due from and to brokers include deposits held with banks, margin cash, government bonds and cash pledged as collateral.

Amounts due from and to brokers are held with Societe Generale, Morgan Stanley & Co. LLC, Goldman Sachs International, SEB and Barclays.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganization, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as a contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired. Management considers the probability of default to be close to zero as the brokers have a strong capacity to meet their contractual obligations in the near term.

2.8 Receivables

Receivables are assets with fixed or determinable payments that are not quoted in an active market. Receivables are recognised initially at amortised cost plus transaction costs that are directly attributable to their acquisition. Receivables include amounts due from brokers for securities sold that have been contracted but which settled after the year-end. These receivables are short-term in nature and are due from brokers with an investment grade credit rating. Management considers the probability of default to be close to zero as the brokers have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Funds.

2.9 Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

TRIUM UCITS PLATFORM PLC

For the financial year ended 31 December 2023

NOTES TO THE FINANCIAL STATEMENTS *(Continued)*

For the financial year ended 31 December 2023

2. Principal Accounting Policies *(Continued)*

2.10 Redeemable Shares

Trium European Equity Market Neutral Fund had eight classes of redeemable shares in issue (Fund closed on 31 March 2021), Trium Multi-Strategy UCITS Fund has three classes of redeemable shares in issue (Class E USD and Class N USD launched on 10 March 2023), Trium ESG Emissions Improvers Fund has sixteen classes of redeemable shares in issue (Class SI GBP launched on 21 June 2023, Class FD GBP and Class ID GBP launched on 27 June 2023 and Class SI EUR launched on 3 October 2023), Trium Sustainable Innovators North American Equity Fund has eight classes of redeemable shares in issue, Trium Sustainable Innovators Global Equity Fund has ten classes of redeemable shares in issue (Class I USD launched on 25 May 2023), Trium Alternative Growth Fund has seven classes of redeemable shares in issue (Class FP GBP launched on 1 August 2023), Trium Avala Dynamic Equity Fund has six classes of redeemable shares in issue, Trium Epynt Macro Fund has nine class of redeemable shares in issue (Class X GBP launched on 20 March 2023), Trium Climate Impact Fund has twelve classes of redeemable shares in issue (Class D GBP launched on 31 March 2023, Class F GBP and Class I GBP launched on 27 April 2023, Class F USD launched on 5 May 2023, Class DI USD launched on 24 May 2023, Class DI EUR and Class DI GBP launched on 31 May 2023, Class X GBP launched on 6 September 2023), which are redeemable at the holder's option and do not have identical features. Such shares are classified as financial liabilities. Redeemable shares can be put back into the Funds at any dealing date for cash equal to a proportionate share of the Fund's net asset value attributable to the share class.

The redeemable shares are carried at the redemption amount that is payable at the Statement of Financial Position date if the holder exercises the right to put the share back to the Funds. Redeemable shares are issued and redeemed at the holder's option at prices based on the Fund's net asset value per share at the time of issue or redemption. The Fund's net asset value per share is calculated by dividing the net assets attributable to the holders of each class of redeemable shares with the total number of outstanding redeemable shares for each respective class.

2.11 Dividend Income, Interest Income and Interest Expense

Interest income and expense is recognised on a time-proportionate basis using the effective interest method. It includes interest income and expense from cash, cash equivalents, deposits and bank overdrafts. Interest from financial assets at fair value through profit or loss includes interest from debt securities.

Dividend income from financial assets at fair value through profit or loss is recognised in the Statement of Comprehensive Income within dividend income when the Fund's right to receive payments is established.

2.12 Transaction Costs

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs, when incurred, are immediately recognised in the Statement of Comprehensive Income as an expense.

2.13 Distributions

The Classes of the Fund will not declare a distribution and any net income and realised and unrealised gains net of realised and unrealised losses attributable to such Classes will be accumulated in the Net Asset Value per Share of the relevant Class. There were no distributions during the year to 31 December 2023 (31 December 2022: Nil). Trium Climate Impact Fund declared dividends for the year on 2 January 2024 for a total of EUR 467,834 and paid on 31 January 2024.

2.14 Taxation

The Company may incur withholding taxes imposed by certain countries on investment income and capital gains. Such income or gains are recorded gross of withholding taxes in the Statement of Comprehensive Income.

2.15 Operating Expenses

The Company is responsible for all normal operating expenses including audit fees, stamp and other duties and charges incurred on the acquisition and realisation of investments. The Management Company meets all other operating expenses incurred by it in connection with its services.

2.16 Establishment Expenses

Fees and expenses relating to the establishment and organisation of the Funds, including the fees of the Funds' professional advisers and registering the Shares for sale in various markets are treated as set out in the Prospectus of the Company, which is to amortise the establishment expenses over the first five accounting years of the Funds.

2.17 Expense Cap *(including management fees)*

As at 31 December 2023 there were Nil% expense cap in place for Trium European Equity Market Neutral Fund (31 December 2022: Nil%), 0.75%, 1.25% and 1.25% for Class E and Class N, respectively was in place for Trium Multi-Strategy UCITS Fund (31 December 2022: 1.25% for Class F), 2.00%, 1.00%, 1.00%, 1.50%, 1.50% and 1.20% for Class A, Class F, Class FD, Class I, Class ID and Class SI, respectively was in place for Trium ESG Emissions Improvers Fund (31 December 2022: 2.00%, 1.00% and 1.50% for Class A, Class F and Class I, respectively), 1.75%, 0.60% and 1.00% for Class A, Class F and Class I, respectively was in place for Trium Sustainable Innovators North American Equity Fund (31 December 2022: 1.75%, 0.60% and 1.00% for Class A, Class F and Class I, respectively), 0.60% and 1.00% for Class F and Class I, respectively was in place for Trium Sustainable Innovators Global Equity Fund (31 December 2022: 0.60% and 1.00% for Class F and Class I, respectively), 1.50%, 0.85%, 0.60% and 1.00% for Class A, Class F, Class FP and Class I, respectively was in place Trium Alternative Growth Fund (31 December 2022: 1.50%, 0.85% and 1.00% for Class A, Class F and Class I, respectively), 1.75% and 2.00% for Class F and Class I, respectively was in place Trium Avala Dynamic Equity Fund (31 December 2022: 1.75% and 2.00% for Class F and Class I, respectively), and 0.75%, 0.75%, 1.00% and 1.20% for Class D, Class DI, Class F and Class I, respectively was in place Trium Climate Impact Fund (31 December 2022: 0.75%, 1.00% and 1.20% for Class D, Class F and Class I, respectively).

3. Fees and Expenses

Management Company and Investment Manager Fees and Expenses

The Company has appointed Trium Ireland Limited as the Management Company pursuant to the Management Agreement dated 1 October 2019. The Management Company was established in 2018 and is authorised by the Central Bank as both a UCITS management company pursuant to the Regulations and a UCITS manager pursuant to the European Communities (Alternative Investment Fund Managers) Regulations, 2013 (as amended). The principal business of the Management Company is acting as Manager to the Funds. The Manager is responsible, on a day-to-day basis, for the management and administration of the Company and the Funds as well as the distribution of the Shares. Trium Ireland is entitled to both Management Fees (the "Management Fee") and Investment Management fees and pays the Investment Management fees to Trium Capital.

The Manager has appointed Trium Capital LLP as a discretionary Investment Manager for Trium European Equity Market Neutral Fund, Trium ESG Emissions Improvers Fund, Trium Multi-Strategy UCITS Fund, Trium Sustainable Innovators North American Equity Fund, Trium Sustainable Innovators Global Equity Fund, Trium Alternative Growth Fund, Trium Avala Dynamic Equity Fund, Trium Epynt Macro Fund and Trium Climate Impact Fund pursuant to an Investment Management Agreement dated 1 October 2019.

Under the Investment Management Agreement, Trium Capital LLP is entitled to a fee in respect of its distribution and investment management services to each Fund (the "Investment Management Fee").

The Management Fee for Trium European Equity Market Neutral Fund was 0.10% per annum of the Net Asset Value of the Fund. In addition, an Investment Management Fee at a rate of 0.50% was charged on Class F EUR, Class F USD and Class F GBP, and a rate of 1% for Class I USD against the NAV of that share class (closed 31 March 2021).

The Management Fee for Trium Multi-Strategy UCITS Fund is 0.15% per annum of the Net Asset Value of the Fund. The Investment Management Fee rates are 0.50% of the Class E Shares, 1.25% being charged on Class M Shares and 1.00% of the Class N Shares against the daily Net Asset Value of the share class.

3. Fees and Expenses *(Continued)*

Management Company and Investment Manager Fees and Expenses *(continued)*

The Management Fee for Trium ESG Emissions Improvers Fund is 0.15% per annum of the first €100 million Net Asset Value of the Fund, 0.10% of the next €150 million Net Asset Value of the Fund and 0.07% on all amounts above €250 million Net Asset Value of the Fund. The Investment Management Fee rates are 1.50% being charged on Class A Shares, 0.50% being charged on Class F Shares, 0.50% being charged on Class FD Shares, 1.00% being charged on Class I Shares, 1.00% being charged on Class ID Shares, 1.50% being charged on Class S Shares and 0.70% being charged on Class SI Shares against the daily Net Asset Value of each share class.

The Management Fee for Trium Sustainable Innovators Global Equity Fund and Trium Sustainable Innovators North American Equity Fund is 0.05% per annum of the Net Asset Value of the Fund. The Investment Management Fee rates are 0.35% being charged on Class F Shares, 1.50% being charged on Class A Shares, 0.75% being charged on Class I Shares and 0.50% being charged on Class S Shares against the daily Net Asset Value of each share class.

The Management Fee for Trium Alternative Growth Fund is 0.07% per annum of the Net Asset Value of the Fund with a minimum annual fee of €35,000. The Investment Management Fee rates are 0.60% being charged on Class F Shares, 0.35% being charged on Class FP Shares, 0.80% being charged on Class I Shares, 0.80% being charged on Class ID Shares, 0.50% being charged on Class IP Shares, 1.30% being charged on Class A Shares and 1.30% being charged on Class AD Shares against the daily Net Asset Value of each share class.

The Management Fee for Trium Avala Dynamic Equity Fund will be 0.10% per annum of the Net Asset Value of the Fund with a minimum annual fee of €35,000. The Investment Management Fee rates are 1.25% being charged on Class A Shares, 0.75% being charged on Class F Shares and 1.00% being charged on Class I Shares against the daily Net Asset Value of each share class.

The Management Fee for Trium Epynt Macro Fund is 0.10% per annum of the Net Asset Value of the Fund with a minimum annual fee of €40,000. The Investment Management Fee rates are 0.50% being charged on Class F Shares, 0.75% on Class I Shares, 1.25% on Class S Shares and 1.00% being charged on Class P Shares against the daily Net Asset Value of the share class.

The Management Fee for Trium Climate Impact Fund is 0.10% per annum of the Net Asset Value of the Fund with a minimum annual fee of €40,000. The Investment Management Fee rates are 0.50% being charged on Class D Shares, 0.50% being charged on Class DI Shares, 0.50% being charged on Class F Shares and 0.70% being charged on Class I Shares against the daily Net Asset Value of the share class.

The Management Fee shall accrue and be calculated daily and shall be payable monthly in arrears. All fees payable to the Investment Manager are disclosed separately in the Statement of Comprehensive Income. The Management Fee charged to the Funds for the year are €3,726,921 (31 December 2022: €1,969,319). €397,723 was due to the Investment Manager as at 31 December 2023 (31 December 2022: €308,855) as classified in accrued expenses in the Statement of Financial Position.

Performance Fees

The Performance Fee shall be calculated and accrue at each Valuation Point (the day and time the NAV and NAV per share is calculated). For the purposes of the Performance Fee calculation, the Net Asset Value shall be calculated before the deduction of any accrual for Performance Fee for that Performance Period, other than Performance Fee accrued in relation to the relevant Class in respect of redemptions during the Performance Period but not yet paid.

The relevant Classes will be charged a Performance Fee which is proportionate to the performance of the relevant Class as a whole. The Performance Fee is calculated based on the Net Asset Value of the relevant Class and no Shareholder level equalisation is undertaken. This may result in inequalities between Shareholders in a Class in relation to the payment of Performance Fees (with some Shareholders in the Class paying disproportionately higher performance fees in certain circumstances) and may also result in certain Shareholders having more of their capital at risk at any time than others.

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

NOTES TO THE FINANCIAL STATEMENTS *(Continued)*

For the financial year ended 31 December 2023

3. Fees and Expenses *(Continued)*

Performance Fees *(continued)*

For the avoidance of doubt, no Performance Fee is accrued or will be paid until any losses in a Performance Period (the first Business Day through 31 December in each year, with the exception of the first Performance Period, which shall be the day of the close of the initial offer period of the relevant Class through 31 December in that year) are recouped. The Performance Fee is payable only on the amount in excess of the Adjusted Net Asset Value achieved after recoupment of any losses in previous Performance Periods.

The Performance Fee is subject to adjustment upon completion of the relevant audit for the Performance Period. If the relevant class is terminated before the end of a Performance Period, the Dealing Day on which the final redemption of Shares takes place shall serve as the end of that Performance Period.

The payment of a Performance Fee, if any, shall be made within 14 calendar days of the end of each Performance Period.

The Performance Fee is based on net realised and net unrealised gains and losses and as a result, incentive fees may be paid on unrealised gains which may subsequently never be realised.

Calculation of the performance fee must be verified by the Depositary. The amount of the Performance Fee will be calculated by the Administrator and verified by the Depositary. Investors may request additional information on the way in which the Performance Fee calculation works from the Company.

The Performance Fees for Trium European Equity Market Neutral Fund (closed 31 March 2021) are listed below.

Performance Fee for Class F, I, S and SI Shares

The Investment Manager was entitled to a performance fee in respect of the Class F and Class I Shares equal to 20% and S Shares equal to 15% of the amount by which the Net Asset Value of the relevant Class exceeds the Hurdle Adjusted Net Asset Value of the relevant class as at the last business day of the Performance Period plus any performance fee accrued in relation to the relevant Class in respect of redemptions during the Performance Period.

Trium European Equity Market Neutral Fund closed on 31 March 2021 and therefore has no share classes in existence as at 31 December 2023.

The Performance Fees for Trium Multi-Strategy UCITS Fund are listed below.

Performance Fee for Class E, M and N Shares

The Investment Manager is entitled to a performance fee in respect of the Class M Shares equal to 20% of the amount by which the Net Asset Value of the relevant Class exceeds the Hurdle Adjusted Net Asset Value of the relevant Class as at the last business day of the Performance Period plus any performance fee accrued in relation to the relevant Class in respect of redemptions during the Performance Period. The Investment Manager is entitled to a performance fee in respect of the Class E Shares equal to 15% and Class N Shares equal to 20% of the amount by which the Net Asset Value of the relevant Class exceeds the Adjusted Net Asset Value of the relevant Class as at the last business day of the Performance Period plus any performance fee accrued in relation to the relevant Class in respect of redemptions during the Performance Period.

Trium Multi-Strategy UCITS Fund has Class E, N and X in existence as at financial year end 31 December 2023. Class M has yet to launch.

The Performance Fees charged to the Trium Multi-Strategy UCITS Fund for the year end are \$583 (31 December 2022: \$168). Performance fee of \$583 was due to the Investment Manager as at 31 December 2023 (31 December 2022: \$168).

Administrator's Fees and Expenses *(continued)*

Administrator's Fee	Net Asset Value of the Fund
0.06%	First US\$100 million
0.05%	Next US\$100 million
0.04%	On all amounts above US\$200 million +

The Administrator shall also be entitled to reimbursement of all reasonable and vouched out-of-pocket expenses (plus any applicable taxes) it incurs out of the assets of the Fund.

The Administrator fees charged to the Funds for the year are €736,386 (31 December 2022: €484,240). €89,900 was due to the Administrator as at 31 December 2023 (31 December 2022: €179,203) as classified in accrued expenses in the Statement of Financial Position.

Depository's Fees and Expenses

The Depository is entitled to receive out of the assets of the Funds, the greater of an annual fee which will not exceed 0.03% of the net assets of the Fund, or a minimum fee of USD 18,000 per year (plus any applicable taxes). This fee accrues and is calculated on each Dealing Day and payable monthly in arrears. The Depository shall also be entitled to receive out of the assets of the Funds all agreed sub-depository fees, transaction charges (which will be charged at normal commercial rates) together with reasonable out-of-pocket expenses incurred by the Depository in the performance of its duties under the Depository Agreement. This agreement is applicable to all Funds.

Depository Fee	Net Asset Value of the Fund
0.0225%	First US\$100 million
0.0175%	Next US\$100 million
0.0125%	On all amounts above US\$200 million +

The Depository shall also be entitled to be repaid out of the assets of the Fund for all of its reasonable disbursements incurred on behalf of the Fund, including the safe-keeping fees and expenses of any sub-depository (which shall be at normal commercial rates) and transaction charges (which shall also be at normal commercial rates) levied by the Depository or any sub-depository and any applicable taxes it incurs on behalf of the Fund. Such custody fees shall accrue and be payable monthly in arrears.

The Depository shall also be entitled to reimbursement of all reasonable and vouched out-of-pocket expenses (plus any applicable taxes) it incurs out of the assets of the Fund.

The Depository fees charged to the Funds for the year are €290,209 (31 December 2022: €211,175). €29,755 was due to the Depository as at 31 December 2023 (31 December 2022: €78,979) as classified in accrued expenses in the Statement of Financial Position.

Directors' Remuneration

The Company's articles of association provide that the Directors shall be entitled to a fee by way of remuneration for their services at a rate to be determined from time to time by the Directors. However, Directors affiliated with the Investment Manager are not entitled to a fee. The aggregate amount of Directors' remuneration in any one year shall not exceed €100,000 without the approval of the Directors. All Directors will be entitled to reimbursement by the Company of expenses properly incurred in connection with the business of the Company or the discharge of their duties.

The Directors fees charged to the Funds for the year are €103,440 (31 December 2022: €82,289). €60 was due to the Directors as at 31 December 2023 (31 December 2022: €327).

Transaction Costs

The Funds incurred Transaction costs of €144,799 (31 December 2022: €207,507) and are included in the net realised and change in unrealised gain/loss on financial assets and liabilities at fair value through profit and loss under the Statement of Comprehensive Income.

7. Taxation

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On this basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a “chargeable event”. A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares.

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

NOTES TO THE FINANCIAL STATEMENTS *(Continued)*
For the financial year ended 31 December 2023

7. Taxation *(Continued)*

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- (a) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended are held by the Company; and
- (b) Certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

Where the Company has a concession from the Revenue Commissioners it may be possible to obtain an exemption from the requirement to have a valid non-resident declaration in place.

Interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

8. Related Party Transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

The Company has appointed Trium Ireland Limited as the Management Company pursuant to the Management Agreement dated 1 October 2019. The Management Company was established in 2018 and is authorised by the Central Bank as both a UCITS management company pursuant to the Regulations and a UCITS manager pursuant to the European Communities (Alternative Investment Fund Managers) Regulations, 2013 (as amended). The principal business of the Management Company is acting as Manager to the Funds. The Manager is responsible, on a day-to-day basis, for the management and administration of the Company and the Funds as well as the distribution of the Shares. Andrew Collins is both a Director of the Company and a senior employee of the Management Company.

The Manager has appointed Trium Capital LLP as a discretionary Investment Manager for Trium European Equity Market Neutral Fund, Trium ESG Emissions Improvers Fund, Trium Multi-Strategy UCITS Fund, Trium Sustainable Innovators Equity Fund, Trium Sustainable Innovators Global Equity Fund, Trium Alternative Growth Fund, Trium Avala Dynamic Equity Fund, Trium Epynt Macro Fund and Trium Climate Impact Fund pursuant to an Investment Management Agreement dated 1 October 2019.

The Investment Manager may voluntarily undertake to reduce or waive their investment management fee or to make other arrangements to reduce the expenses of the Funds to the extent that such expenses exceed such lower expense limitation as set out in the Prospectus. There were no waived Management fees in 2023.

In addition, the Investment Manager shall be entitled to be reimbursed its reasonable out-of-pocket expenses. Where the Manager's expenses are attributable to the Company as a whole, they will be borne on a pro rata basis by the Funds.

The Company operates under an investment management agreement with Trium Capital LLP. The Investment Manager fees charged to the Funds for the year are €3,726,921 (31 December 2022: €1,969,319). €397,723 was due to the Investment Managers at 31 December 2023 (31 December 2022: €308,855).

Trium Capital LLP acts as Distributor and Investment Manager for the Funds.

Directors' and Company Secretary's Interests in Shares and Contracts

All Directors and the Company Secretary who held office at 31 December 2023 and 31 December 2022 had no interest in the share capital of the Company, the Funds or associated group companies.

8. Related Party Transactions *(Continued)*

Transactions Involving Directors

Directors' fees for the year for Bronwyn Wright are €54,000 (31 December 2022: €41,737). €Nil remains payable at year-end (31 December 2022: €327). Directors' fees for the year for Maurice Murphy are €47,000 (31 December 2022: €36,768). This fee of €Nil remains payable at year-end (31 December 2022: €Nil). Andrew Collins did not receive Directors fees during the year.

The Board of Directors are not aware of any contracts or arrangements of any significance in relation to the business of the Company in which the Directors had any interest as defined in Section 329 of the Companies Act 2014 (as amended) at any time during the financial year ended 31 December 2023 and 31 December 2022.

9. Share Capital

The authorised share capital of the Company is 500 billion redeemable Shares of no par value and 300,002 redeemable Non-Participating Shares of no par value issued at €1 each. Non-Participating Shares do not entitle the holders thereof to any dividend and on a winding up entitle the holders thereof to receive the amount paid up thereon but do not otherwise entitle them to participate in the assets of the Company. The Directors have the power to allot Shares in the capital of the Company on such terms and in such manner as they may think fit.

The non-participating shares do not form part of the net assets of the Company and are disclosed by way of this note only. Holders are entitled to one vote per share held at meetings of shareholders and are not entitled to receive dividends. Trium Capital LLP holds the redeemable Non-Participating Shares.

Each redeemable participating share gives the holder one vote in relation to any matters relating to the Company which are submitted to shareholders for a vote by poll. Fractions of shares do not carry voting rights.

11. Financial Risk Management

The investment objective of Trium European Equity Market Neutral Fund was to seek and to achieve positive returns over the medium term, independent of market conditions. The Fund sought to achieve its investment objective by investing in a diversified portfolio of European equity and equity-related securities (including warrants and convertible bonds).

The investment objective of Trium Multi-Strategy UCITS Fund is to seek to achieve long-term capital growth (independent of market conditions) by adopting a multi-strategy approach to investing.

The investment objective of Trium ESG Emissions Improvers Fund is to seek to achieve positive returns over the medium term, independent of market conditions.

The investment objective of Trium Sustainable Innovators North American Equity Fund is to seek to achieve capital appreciation over the long term.

The investment objective of Trium Sustainable Innovators Global Equity Fund is to seek to achieve risk adjusted returns and capital appreciation over the long term.

The investment objective of Trium Alternative Growth Fund is to generate capital growth whilst exhibiting low correlation to equity markets over a rolling three year period.

The investment objective of Trium Avala Dynamic Equity Fund is to seek to achieve positive returns over the medium term, independent of market conditions.

The investment objective of Trium Epynt Macro Fund is to seek to achieve positive returns over the medium term, in all market conditions.

The Fund's investment objective of Trium Climate Impact Fund is to make sustainable investments with the aim of achieving positive returns over the long term, independent of market conditions.

The Funds are exposed to a variety of financial risks in pursuing its stated investment objective and policy. These risks are defined in IFRS 7 as including credit risk, liquidity risk and market risk (which in turn includes currency risk, interest rate risk and price risk).

The Funds take exposure to certain of these risks to generate investment returns on its portfolio, although it's these risks that can also potentially result in a reduction in the Funds' net assets. The Investment Manager will use its best endeavors to minimise the potentially adverse effects of these risks on each Fund's performance where it can do so while still managing the investments of the Funds in a way that is consistent with each Fund's investment objective and policy. Please refer to each Fund's Prospectus/ Supplement for further discussion on the Company's Risk Management policies.

Each Fund's financial instruments consist of transferable securities, cash and cash equivalents and bank overdrafts.

The nature and extent of the financial instruments outstanding at the Statement of Financial Position date and the risk management policies employed by the Company are discussed further below.

11. Financial Risk Management *(Continued)*

Market Risk

Market Price Risk

IFRS 7 defines market price risk as the risk that the fair value or cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk reflects interest rate risk, currency risk and other price risks. The maximum risk resulting from financial instruments the Fund holds is equal to their fair value.

Each Fund's equity securities are susceptible to market price risk arising from uncertainties about future prices of the instruments. The Investment Manager moderates this risk through a careful selection of securities within specified limits. In addition, the Investment Manager manages the exposure of the portfolio to the risk of adverse changes in the general level of market prices through adhering to its formal risk management process, which includes the use of systems and technology to monitor overall market and position risk on a daily basis. The maximum risk resulting from financial instruments will be the fair value of such financial instruments. The Board of the Directors set limits and give mandate to the Investment Manager, who manages this risk in line with the Prospectus and its Supplements. The Board of the Directors monitors the market price risks inherent in the investment portfolio by ensuring full and timely access to relevant information from the Investment Manager. The Board of Directors meets regularly and at each meeting reviews investment performance and overall market positions. They monitor the Investment Manager's compliance with the Company and Funds' objectives.

Global Exposure

Trium European Equity Market Neutral Fund, Trium Multi-Strategy UCITS Fund, and Trium ESG Emissions Improvers Fund use/used the Value at Risk method ("VaR") to determine the global exposure.

The VaR methodology is an advanced risk measurement methodology which attempts to predict, using historical data, the likely scale of losses that might be expected to occur over a given period of time. As a result of the Fund's use of financial derivative instruments, the Fund may leverage its positions to generate a notional exposure in excess of the Net Asset Value of the Fund. The Fund intends to apply a limit on the VaR of the Fund (Absolute VaR limit) which will not exceed 20% of the Net Asset Value of each of the Funds. The VaR for the Fund will be calculated daily using a one-tailed confidence level of 99%, one month (20 Business Days) holding period and calculated on an historic basis using at least 1 year (250 Business Days) of daily returns, which means that statistically there is a 1% chance that the losses actually incurred over any one month period could exceed 20% of the Fund's Net Asset Value. The holding period, the historical observation period or the confidence level may be changed, provided always that they are in accordance with the requirements of the Central Bank.

Fund Name	Fund Absolute VaR over the past financial year		
	Utilisation min	Utilisation max	Utilisation mean
Trium Multi-Strategy UCITS Fund	0.00%	43.55%	25.45%
Trium ESG Emissions Improvers Fund	22.18%	33.01%	27.57%
Trium Alternative Growth Fund	5.39%	22.44%	8.18%
Trium Avala Dynamic Equity Fund	1.84%	2.67%	2.24%
Trium Epynt Maco Fund	14.24%	41.04%	25.19%
Trium Climate Impact Fund	9.70%	21.07%	14.99%

- Trium ESG Emissions Impact Fund changed its name to Trium ESG Emissions Improvers Fund on 16 February 2023.
- Trium Absolute Return Fund changed its name to Trium Multi-Strategy UCITS Fund on 22 February 2023.

NOTES TO THE FINANCIAL STATEMENTS *(Continued)*
For the financial year ended 31 December 2023

11. Financial Risk Management *(Continued)*

Global Exposure *(Continued)*

Limitations of VaR Analysis are:

VaR methods rely on a number of assumptions about the forecasting of investment markets and the ability to draw inferences about the future behaviour of market prices from historical movements. If those assumptions are incorrect by any significant degree, the size and frequency of losses actually incurred in the investment portfolio may considerably exceed those predicted by a VaR model (and even a small degree of inaccuracy in the forecasting models used can produce large deviations in the forecast produced).

Issuer Concentration Risk

The Funds may concentrate their investments, which means that they may invest in the securities of fewer issuers than more diversified funds. As a result, the Funds may be more susceptible to a single adverse economic or regulatory occurrence affecting one or more of these issuers and may experience increased risk of loss and increased volatility.

Geographic Concentration Risk

The value of the investments of the Funds that focuses its investments in a particular geographic location will be highly sensitive to financial, economic, political and other developments affecting the fiscal stability of that location, and conditions that negatively impact that location will have a greater impact on the Funds as compared with a fund that does not have its holdings similarly concentrated. Events negatively affecting such location are therefore likely to cause the value of the Fund's Shares to decrease, perhaps significantly.

Interest Rate Risk

Interest rate risk arises from the effects of fluctuations on the prevailing levels of market interest rates on the fair value of future cash flows of financial assets and liabilities.

The Funds hold cash and fixed income securities that expose them to interest rate risk. At 31 December 2023, the Company held 6.18% of its net assets in cash (31 December 2022: 6.10%), the majority of which is held on demand or on short term deposits. As these interest rates are floating, the interest rates will increase/decrease as interest rates change.

The following table shows fixed income securities at financial year ended 31 December 2023 and 31 December 2022 by region:

Trium Multi-Strategy UCITS Fund

Trium Climate Impact Fund

31 December 2022

Geographical Region	EUR	% of net assets	Impact of 1% move
Europe	998,604	17.11	9,986

- Trium Avala Dynamic Equity Fund launched on 24 June 2022.
- Trium Epynt Macro Fund launched on 3 October 2022.
- Trium Climate Impact Fund launched on 26 October 2022.

Trium Sustainable Innovators North American Equity Fund and Trium Sustainable Innovators Global Equity Fund does not have fixed income securities at financial year ended 31 December 2023. Trium Multi Strategy UCITS Fund, Trium ESG Emissions Improvers Fund, Trium Alternative Growth Fund, Avala Dynamic Equity Fund, Trium Epynt Macro Fund and Trium Climate Impact Fund have fixed income securities at financial year ended 31 December 2023 (31 December 2022: same).

In accordance with each Fund's policy, the Investment Manager monitors each of the Fund's interest rate risk on a daily basis and the risk is also reviewed by the Directors.

The fixed and/or floating rate securities in which each Fund invests are sensitive and may be subject to price volatility due to various factors. The Investment Manager hedges any significant exposure to movements in interest rates. Specifically, fixed rate instruments generate exposure to long term interest rates and any significant exposures are typically hedged by using government bonds.

In the case of floating rate instruments, being the financing provided by the sub-custodians based on overnight (or weekly) Libor rates, no substantial exposure to short term interest rate movements was ever reported. The Investment Manager monitors the portfolio sensitivity to interest rate movements on a daily basis.

Currency Risk

Currency risk is defined in IFRS 7 as the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Each Fund is exposed to currency risk as the assets and liabilities of each Fund may be denominated in a currency other than the functional currency of the Fund, which is EUR for Trium European Equity Market Neutral Fund, Trium ESG Emissions Improvers Fund, Trium Climate Impact Fund and Trium Avala Dynamic Equity Fund, USD for Trium Multi-Strategy UCITS Fund, Trium Sustainable Innovators North American Equity Fund, Trium Sustainable Innovators Global Equity Fund and Trium Epynt Macro Fund and GBP for Trium Alternative Growth Fund.

Foreign currency risk arises as the value of future transactions, recognised monetary assets and monetary liabilities denominated in other currencies fluctuate due to changes in foreign exchange rates. The tables overleaf summarise the sensitivity of the Funds' assets to changes in foreign exchange rates at 31 December 2023. A change of 5% represents management's best estimate of a reasonable possible shift in the foreign exchange rates.

Trium European Equity Market Neutral Fund

At 31 December 2023, the majority of monetary assets of Trium European Equity Market Neutral Fund are denominated in EUR, the functional currency.

NOTES TO THE FINANCIAL STATEMENTS *(Continued)*
For the financial year ended 31 December 2023

11. Financial Risk Management *(Continued)*

Liquidity Risk

IFRS 7 defines liquidity risk as the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

Each Fund is exposed to daily cash redemptions of redeemable participating shares. The Funds invests primarily in securities that are traded on an active market and which are deemed to be liquid as under normal market conditions, they can be readily disposed of in the event that cash needs to be raised to meet redemptions or to pay expenses. As at 31 December 2023, all assets and liabilities were deemed to be liquid within three months (31 December 2022: all assets and liabilities deemed were deemed to be liquid within three months).

Credit Risk

Credit risk is defined in IFRS 7 as the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The Funds will be exposed to credit risk on parties with whom they trade, which will include counterparties, and may also bear the risk of settlement default. The carrying amounts of financial assets best represent the maximum credit risk exposure at the Statement of Financial Position date.

The Company measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. At 31 December 2023 and 31 December 2022, all other receivables, amounts due from brokers, cash and short-term deposits are held with counterparties with investment grade credit ratings. Management considers the probability of default to be close to zero as the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12-month expected credit losses as such impairment would be wholly insignificant to the Company.

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

Northern Trust Fiduciary Services (Ireland) Limited (“NTFSIL”) is the appointed Depository of the Funds, responsible for the safe-keeping of assets. NTFSIL has appointed The Northern Trust Company (“TNTC”) as its global sub-custodian. Both NTFSIL and TNTC are wholly owned subsidiaries of Northern Trust Corporation (“NTC”). As at year-end date 31 December 2023, NTC had a long term credit rating from Standard & Poor’s of A+ (31 December 2022: A+).

TNTC (as global sub-custodian of NTFSIL) does not appoint external sub-custodians within the U.S., the U.K., Ireland, Canada, Belgium, France, Germany, Netherlands and Saudi Arabia. However, in all other markets, TNTC appoints local external sub-custodians.

NTFSIL, in the discharge of its depository duties, verifies the Funds’ ownership of Other Assets (as defined under Other Assets, Art 22 (5) of UCITS V Directive 2014/91/EU) by assessing whether the Funds hold the ownership based on information or documents provided by the Funds or, where available, on external evidence.

TNTC, in the discharge of its delegated depository duties, holds in custody (i) all financial instruments that may be registered in a financial instrument’s account opened on the books of TNTC and (ii) all financial instrument that can be physically delivered to TNTC. TNTC ensures all financial instruments (held in a financial instrument’s account on the books of TNTC) are held in segregated accounts in the name of the Funds, clearly identifiable as belonging to the Funds, and distinct and separately from the proprietary assets of TNTC, NTFSIL and NTC.

In addition TNTC, as banker, holds cash of the Funds on deposit. Such cash is held on the Statement of Financial Position of TNTC. In the event of insolvency of TNTC, in accordance with standard banking practice, the Funds will rank as an unsecured creditor of TNTC in respect of cash and cash equivalents.

TRIUM UCITS PLATFORM PLC

11. Financial Risk Management *(Continued)*

Credit Risk *(Continued)*

Insolvency of NTFSIL and or one of its agents or affiliates may cause the Funds' rights with respect to its assets to be delayed.

The Board of Directors or its delegate(s) (the "Responsible Party") manages risk by monitoring the credit quality and financial position of the Depository and such risk is further managed by the Depository monitoring the credit quality and financial positions of sub-custodian appointments.

As at 31 December 2023, the Funds hold 12.35% (31 December 2022: 63.44%) of its total cash with the sub-custodians.

Trium European Equity Market Neutral Fund investment in debt securities at 31 December 2023 is Nil% investment grade (31 December 2022: Nil%).

Trium Multi-Strategy UCITS Fund investment in debt securities at 31 December 2023 is 71.15% investment grade (31 December 2022: 79.50%).

Trium ESG Emissions Improvers Fund investment in debt securities at 31 December 2023 is 100% investment grade (31 December 2022: 100%).

Trium Sustainable Innovators North American Equity Fund in debt securities at 31 December 2023 is Nil% investment grade (31 December 2022: Nil%).

Trium Sustainable Innovators Global Equity Fund in debt securities at 31 December 2023 is Nil% investment grade (31 December 2022: Nil%).

Trium Alternative Growth Fund in debt securities at 31 December 2023 is 100% investment grade (31 December 2022: 100%).

Trium Avala Dynamic Equity Fund in debt securities at 31 December 2023 is 100% investment grade (31 December 2022: 100%).

Trium Epynt Macro Fund in debt securities at 31 December 2023 is 100% investment grade (31 December 2022: 100%).

Trium Climate Impact Fund in debt securities at 31 December 2023 is 100% investment grade (31 December 2022: 100%).

In order to monitor the credit quality of the "Unrated" underlying debt securities, the Investment Manager, on the basis of internal research, prepares its own shadow ratings for the various instruments for which publically available credit ratings are not available. The Investment Manager reviews the key financial metrics of the issue and structural features of the instruments in order to calculate the implied ratings for each of these investments. The majority of unrated securities have been assessed by the Investment Manager to have credit quality consistent with BBB/Baa rated securities. A BBB/Baa rating is the lowest rating a bond can have and still be considered investment-grade. An investment grade bond is a bond considered to have a relatively low risk of default.

For investments held at 31 December 2023, investments held above S&P rating BBB- were considered investment grade.

Credit Risk Statement:

Northern Trust Fiduciary Services (Ireland) Limited ("NTFSIL") is the appointed Depository of the Funds, responsible for the safe-keeping of assets. NTFSIL has appointed The Northern Trust Company ("TNTC") as its global sub-custodian. Both NTFSIL and TNTC are wholly owned subsidiaries of Northern Trust Corporation ("NTC"). As at year-end date 31 December 2023 NTC had a long term credit rating from Standard & Poor's of (A+) (31 December 2022: (A+)).

TNTC (as global sub-custodian of NTFSIL) does not appoint external sub-custodians within the U.S., the U.K., Ireland, Canada, Belgium, France, Germany, Netherlands and Saudi Arabia. However, in all other markets, TNTC appoints local external sub-custodians.

11. Financial Risk Management *(Continued)*

Credit Risk Statement: *(Continued)*

NTFSIL, in the discharge of its depositary duties, verifies the Fund's ownership of Other Assets (as defined under Other Assets, Art 22 (5) of UCITS V Directive 2014/91/EU) by assessing whether the Funds hold the ownership based on information or documents provided by the Funds or where available, on external evidence.

TNTC, in the discharge of its delegated depositary duties, holds in custody (i) all financial instruments that may be registered in a financial instruments account opened on the books of TNTC and (ii) all financial instruments that can be physically delivered to TNTC. TNTC ensures all financial instruments (held in a financial instruments account on the books of TNTC) are held in segregated accounts in the name of the Funds, clearly identifiable as belonging to the Funds, and distinct and separately from the proprietary assets of TNTC, NTFSIL and NTC.

In addition TNTC, as banker, holds cash of the Funds on deposit. Such cash is held on the Statement of Financial Position of TNTC. In the event of insolvency of TNTC, in accordance with standard banking practice, the Funds will rank as an unsecured creditor of TNTC in respect of any cash deposits.

Where relevant please note the following currencies, Jordanian Dinar, Saudi Riyal, cash in the onshore China market (principally the currency of Chinese Yuan Renminbi, and any other currencies remitted into accounts in the onshore China market), are no longer held on the Balance Sheet of TNTC. For these off-book currencies, clients' cash exposure is directly to the relevant local sub-custodian / financial institution in the market.

Insolvency of NTFSIL and or one of its agents or affiliates may cause the Fund's rights with respect to its assets to be delayed.

The Responsible Party manages risk by monitoring the credit quality and financial position of the Depositary and such risk is further managed by the Depositary monitoring the credit quality and financial positions of sub-custodian appointments.

Capital Risk Management

The capital of the Funds is represented by the net assets attributable to holders of redeemable shares. The amount of net asset attributable to holders of redeemable shares can change significantly on a daily basis, as the Funds' are subject to at least daily subscriptions and redemptions at the discretion of shareholders. The Company and Funds' objectives when managing capital is to safeguard their ability to continue as a going concern in order to provide returns for shareholders, provide benefits for other stakeholders and maintain a strong capital base to support the development of the investment activities of the Funds.

The Directors reserve the right to refuse to redeem shares of the Company ("Shares") where the redemptions made and requested in respect of a Dealing Day would otherwise exceed 10% of the Net Asset Value of the Fund as at such Dealing Day.

If they so refuse, the requests for redemption on such Dealing Day shall be reduced rateably and the Shares to which each request relates which are not redeemed by reason of such refusal shall be treated as if a request for redemption had been made in respect of each subsequent Dealing Day until all the Shares to which the original request related have been redeemed. Requests for redemption which have been carried forward from an earlier Dealing Day shall rank in priority to requests for redemption for a later Dealing Day.

Cybersecurity Risk

Cybersecurity breaches may occur allowing an unauthorised party to gain access to assets of the Company's Shareholder data, or proprietary information, or may cause the Company, the Management Company, the Investment Manager, the Distributor, the Administrator or the Depositary to suffer data corruption or lose operational functionality.

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

NOTES TO THE FINANCIAL STATEMENTS *(Continued)*

For the financial year ended 31 December 2023

11. Financial Risk Management *(Continued)*

Cybersecurity Risk *(Continued)*

The Company may be affected by intentional cybersecurity breaches which include unauthorised access to systems, networks, or devices (such as through “hacking” activity); infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. In addition, unintentional incidents can occur, such as the inadvertent release of confidential information (possibly resulting in the violation of applicable privacy laws). A cybersecurity breach could result in the loss or theft of Shareholder data or Funds, the inability to access electronic systems, loss or theft of proprietary information or corporate data, physical damage to a computer or network system, or costs associated with system repairs.

Such incidents could cause the Company, the Management Company, the Investment Manager, the Distributor, the Administrator, the Depositary, or other service providers to incur regulatory penalties, reputational damage, additional compliance costs, or financial loss. Consequently, Shareholders may lose some or all of their invested capital. In addition, such incidents could affect issuers in which the Funds invest, and thereby cause the Funds’ investments to lose value, as a result of which investors, including the Fund and its Shareholders, could potentially lose all or a portion of their investment with that issuer.

12. Fair Value Hierarchy

IFRS 13 “Financial Instruments”: Disclosure requires the Company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurement.

Fair value is the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties in an arm’s length transaction. The fair value of financial assets and liabilities traded in active markets are based on quoted market prices at the close of trading on the reporting date. The Company has adopted IFRS 13 Fair Value Measurement and uses last traded market prices as its valuation inputs for listed securities. If market quotations are not available or are unrepresentative, estimation methods may be used to calculate fair value.

The fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Certain inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety.

For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability. As at 31 December 2023 and 31 December 2022, Trium Multi-Strategy UCITS Fund had one fair valued position, Evraz, held under Level 3 as instructed by the Investment Manager.

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

NOTES TO THE FINANCIAL STATEMENTS *(Continued)*

For the financial year ended 31 December 2023

12. Fair Value Hierarchy *(Continued)*

The determination of what constitutes “observable” requires significant judgement by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

13. Efficient Portfolio Management & Use of Financial Derivative Instruments

Each Fund may, subject to the conditions and within the limits laid down by the Central Bank UCITS Regulations, use techniques and instruments for hedging purposes (to protect a Fund against, or minimise liability from, fluctuations in market value or foreign currency exposures) or for the purposes of efficient portfolio management (including but not limited to: currency forward contracts, futures contracts, options, put and call options on securities, indices and currencies, swap contracts, repurchase/reverse repurchase and stock lending agreements).

Such techniques and instruments may be used for the reduction of risk, cost or the generation of additional capital or income for each Fund with an appropriate level of risk, taking into account the risk profile of the Company as described in this Prospectus and the general provisions of the Regulations.

The use of techniques for efficient portfolio management is not expected to raise the risk profile of a Fund or result in higher volatility.

14. Distributions

The Classes of Trium European Equity Market Neutral Fund (closed 31 March 2021), Trium Multi-Strategy UCITS Fund (previously named Trium Absolute Return Fund), Trium Avala Dynamic Equity Fund, Trium Epynt Macro Fund and the accumulation classes of Trium ESG Emissions Improvers Fund (previously named Trium ESG Emissions Impact Fund), Trium Sustainable Innovators North American Equity Fund, Trium Sustainable Innovators Global Equity Fund and Trium Climate Impact Fund will not declare a distribution and any net income and realised and unrealised gains net of realised and unrealised losses attributable to such Classes will be accumulated in the Net Asset Value per Share of the relevant Class.

Trium ESG Emissions Improvers Fund's (previously named Trium ESG Emissions Impact Fund) distributing share classes will declare and distribute a dividend annually each January at the Director's discretion. Dividends may be paid out of capital of the Fund where there is insufficient net income or revenue available.

Trium Sustainable Innovators Global Equity Fund and Trium Sustainable Innovators North American Equity Fund's distributing share classes will declare and distribute a dividend annually each January at the Director's discretion. Dividends may be paid out of capital of the Fund where there is insufficient net income or revenue available. As at the reporting date, these share classes have not yet launched.

Trium Alternative Growth Funds distributing share classes will declare and distribute a dividend semi-annually on the 20th day of April and October of each year (or at a time and frequency to be determined at the discretion of the Directors following prior notification to the Shareholders). If the 20th falls on a day which is not a Business Day, then the distribution date shall be the following Business Day. Dividends may be paid out of capital of the Fund where there is insufficient net income or revenue available.

For the financial year ended 31 December 2023

NOTES TO THE FINANCIAL STATEMENTS *(Continued)*
For the financial year ended 31 December 2023

14. Distributions *(Continued)*

It is the current intention of the Directors to declare dividends in respect of the Class DI Shares of Trium Climate Impact Fund. Dividends will be paid out of net income (including dividend and interest income) and the excess of realised and unrealised capital gains net of realised and unrealised losses in respect of investments of the Fund. Dividends will usually be declared annually on the 31st day of December of each year (or at a time and frequency to be determined at the discretion of the Directors following prior notification to the Shareholders). If the 31st falls on a day which is not a Business Day, then the distribution date shall be the following Business Day.

Any change to the distribution policy of a Fund will be notified in advance to Shareholders and will be noted in an addendum or a revision to the Prospectus.

There were no distributions paid for the year from 1 January 2023 to 31 December 2023 (31 December 2022: Nil) for distributing Funds ESG Emissions Improvers Fund or Trium Climate Impact Fund. Trium Climate Impact Fund declared dividends for the year on 2 January 2024 for a total of EUR 467,834 and paid on 31 January 2024.

15. Establishment Costs

No establishment costs were written off in the Statement of Comprehensive Income for the Funds for the financial year ended 31 December 2023 and 31 December 2022.

16. Offsetting Financial Instruments

As per the Depositary Agreement, the Depositary or an affiliate is authorised to enter into master netting agreements with respect to foreign exchange transactions upon such terms and conditions as are deemed acceptable by the Depositary or such Affiliate. There are currently no netting agreements in place.

17. Exchange Rates

NOTES TO THE FINANCIAL STATEMENTS *(Continued)*

For the financial year ended 31 December 2023

20. Significant Events During the Year

Trium ESG Emissions Impact Fund changed its name to Trium ESG Emissions Improvers Fund on 16 February 2023.

Trium Absolute Return Fund changed its name to Trium Multi-Strategy UCITS Fund on 22 February 2023.

In March 2023, the global banking sector experienced a series of shocks prompted by the collapse of California's Silicon Valley Bank ("SVB") and the emergency rescue of Credit Suisse by UBS in Switzerland. The Board of Directors, the Manager and Investment Manager are continuing to monitor developing events in the global banking system and will consider if action is required. Each of the Trium Avala Dynamic Equity Fund and Trium Multi-Strategy UCITS Fund held small short positions in both banks before their collapse.

Trium Multi-Strategy UCITS Fund launched Class E USD and Class N USD on 10 March 2023.

Trium Epynt Macro Fund launched Class X GBP on 20 March 2023.

Trium Climate Impact Fund launched Class D GBP on 31 March 2023.

Trium Climate Impact Fund launched Class F GBP and Class I GBP on 27 April 2023.

Trium Climate Impact Fund launched Class F USD on 5 May 2023.

Trium Climate Impact Fund launched Class DI USD on 24 May 2023.

Trium Sustainable Innovators Global Equity Fund launched Class I USD on 25 May 2023.

Trium Climate Impact Fund launched Class DI EUR and Class DI GBP on 31 May 2023.

Trium ESG Emissions Improvers Fund launched Class SI GBP on 21 June 2023.

Trium ESG Emissions Improvers Fund launched Class FD GBP and Class ID GBP on 27 June 2023.

The Supplements for the Trium Climate Impact, Trium ESG Emissions Improvers and both Trium Sustainable Innovators Funds were updated on 29 June 2023 to include the latest SFDR pieces as Article 8 and Article 9 funds.

Trium Alternative Growth Fund launched Class FP GBP on 1 August 2023.

Trium Climate Impact Fund launched Class X GBP on 6 September 2023.

Trium ESG Emissions Improvers Fund launched Class SI EUR on 3 October 2023.

On 7 October 2023, Palestinian militants launched an assault on Israel, leading to an Israeli invasion of Gaza. This conflict has created extensive uncertainty on the political and economic front. The long term impact on economies, markets, industries and individual issuers continue to evolve. The Directors are monitoring the situation and are continuing to review during this period of uncertainty to assess any impact the situation may have on any of the Funds.

There have been no other significant events during the year that require recognition or disclosure in these financial statements.

21. Subsequent Events

Trium Climate Impact Fund declared dividends for the year on 2 January 2024 for a total of EUR 467,834 and paid on 31 January 2024.

There have been no other significant events affecting the Company since 31 December 2023 that require recognition or disclosure in these financial statements.

22. Approval of the Financial Statements

These financial statements were approved by the Directors on 22 April 2024.

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

APPENDIX 1 – (Unaudited) (Continued)

POLICY ON REMUNERATION AND REMUNERATION CODE PRINCIPLES

Trium Capital LLP (“Trium” and/or the “Firm”)

Trium UCITS Platform PLC (the “Company”) is an open-ended umbrella investment fund with segregated liability between Sub-Funds. The Company has been authorised by the Central Bank as an Undertaking for Collective Investments in Transferable Securities (UCITS) pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the “UCITS Regulations”).

The Company shall be managed and its affairs supervised by its Board of Directors. For details on each of the Directors please refer the Prospectus of the Company.

1. The Policy

The Company has established a remuneration policy in accordance with the requirements of Directive (Directive 2009/65/EC), as amended (the “UCITS Directive”) to the extent that is appropriate to its size, internal organisation and the nature, scope and complexity of its activities.

The European Securities and Markets Association (“ESMA”) published “Guidelines on sound remuneration policies under the UCITS Directive and AIFMD” (ESMA/2016/675) (the “ESMA Guidelines”) on 14 October 2016.

This remuneration policy has been adopted by the non-executive members of the Board of Directors in their supervisory function, who have expertise in risk management and remuneration and any revisions to the remuneration policy require approval of such members.

It is the Company’s policy to maintain remuneration arrangements that (i) are consistent with and promote sound and effective risk management, (ii) do not encourage risk-taking that is inconsistent with the risk profile of the Company, (iii) do not impair compliance with the Company’s duty to act in the best interests of its shareholders and (iv) are consistent with the principles outlined in Appendix 1(a) to this remuneration policy. The Company’s Remuneration Policy is designed to ensure that any relevant conflicts of interest can be managed appropriately at all times.

The implementation of the remuneration policy will be subject to central and independent review at least annually to ensure compliance with and adherence to the policy.

The remuneration policy itself will be reviewed on an annual basis by the non-executive members of the Board in their supervisory function, who have expertise in risk management and remuneration.

2. Persons subject to the Policy

The Company shall apply the provisions of this policy for its ‘Identified Staff’ being “those categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profiles of the management companies or of the UCITS that they manage”.

The Company has determined that the following staff members would fall within the definition of “Identified Staff”:

- Members of the Board of Directors

It is noted that Recital 2 of Directive 2014/91/EU (the “UCITS V Directive”) outlines that the remuneration policies and practices should apply, in a proportionate manner, to any third party which takes investment decisions that affect the risk profile of a UCITS because of functions which have been delegated in accordance with Article 13 of the UCITS Directive (i.e. this would include any investment manager). This recital is not further clarified in the UCITS V Directive.

3. Remuneration of Identified Staff

The Company’s Directors, who are not employed by Trium Capital LLP (the “Investment Manager”) or any affiliate or delegate of the Investment Manager, will accept a fee in accordance with the Company’s Instrument of Incorporation and as outlined in the ‘Directors’ Fees’ section of the Prospectus. This is a fixed fee with no variable component. The remaining Directors have agreed to waive this fee.

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

APPENDIX 1 – (Unaudited) (Continued)

4. Remuneration of the Investment Manager

The total remuneration of those individuals considered to comprise the entire staff of the Investment Manager is analysed below:

Remuneration Codes Staff by Business Area:

<u>Business Area</u>	<u>Total Remuneration</u>
Investment Management	£4,139,635

Aggregate Quantitative Remuneration by Senior Management:

<u>Type of Remuneration Code staff</u>	<u>Total Remuneration</u>
Senior Management	£2,820,000
Total	£6,959,635
Total Fixed Remuneration of Code Staff:	£3,984,135
Total Variable Remuneration of Code Staff:	£2,975,500

5. Proportionality Principle

As noted above, the Company must comply with the UCITS Directive remuneration principles in a way and to the extent that is appropriate to its size, its internal organisation and the nature scope and complexity of its activities. Accordingly, some UCITS can determine to meet the remuneration requirements through very sophisticated policies whereas others can do so in a simple and less burdensome way.

The Company does not pay any variable remuneration to any of its Identified Staff. Accordingly, the principles in respect of variable remuneration as outlined in the UCITS Directive are not applicable.

With respect to the remuneration committee, the Board has determined the remuneration committee requirement does not apply taking into account the below factors:

(a) all of the above proportionality criteria (i.e. the Company's size, internal organisation nature, the scope and complexity of its activities); and

(b) Article 14b(4) of UCITS V outlines a remuneration committee will be, where appropriate, set up in accordance with the ESMA Guidelines.

6. Disclosure

The general principles of the Company's remuneration policy and the specific provisions for Identified Staff are disclosed internally and documented in this procedure.

In addition, the Prospectus, KIID(s) and annual report of the Company will need to contain disclosure with respect to remuneration consistent with the UCITS Directive.

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

APPENDIX 1 – (Unaudited) (Continued)

Appendix 1(a) – Remuneration Principles as outlined in Article 14b of the UCITS Directive

In accordance with Article 14(b)(1) of the UCITS Directive, the Company must comply with the following principles regarding remuneration applicable to its Identified Staff in a way and to the extent that is appropriate to the Company's size, internal organisation and the nature, scope and complexity of its activities:

(a) the remuneration policy is consistent with and promotes sound and effective risk management and does not encourage risk-taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the Company;

(b) the remuneration policy is in line with the business strategy, objectives, values and interests of the Company and of the investors in the Company, and includes measures to avoid conflicts of interest;

(c) the remuneration policy is adopted by the Management Body of the Company in its Supervisory Function and that body adopts, and reviews at least annually, the general principles of the remuneration policy and is responsible for, and oversees, their implementation.

The tasks referred to in this point shall be undertaken only by non-executive members of the Management Body who have expertise in risk management and remuneration.

(d) the implementation of the remuneration policy is, at least annually, subject to central and independent internal review for compliance with policies and procedures for remuneration adopted by the Management Body of the Company in its Supervisory Function;

(e) staff engaged in control functions are compensated in accordance with the achievement of the objectives linked to their functions, independently of the performance of the business areas that they control;

(f) the remuneration of the senior officers in the risk management and compliance functions is overseen directly by the remuneration committee;

(g) where remuneration is performance related, the total amount of remuneration is based on a combination of the assessment as to the performance of the individual and of the business unit or Company and as to its risks and of the overall results of the Company when assessing individual performance, taking into account financial and non-financial criteria;

(h) the assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the investors of the Company in order to ensure that the assessment process is based on the longer term performance of the Company and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period;

(i) guaranteed variable remuneration is exceptional, generally occurs only in the context of hiring new staff and is generally limited to the first year of engagement;

(j) fixed and variable components of total remuneration are appropriately balanced and the fixed component represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy on variable remuneration components, including the possibility to pay no variable remuneration component;

(k) payments relating to the early termination of a contract reflect performance achieved over time and are designed in a way that does not reward failure;

(l) the measurement of performance used to calculate variable remuneration components or pools of variable remuneration components include a comprehensive adjustment mechanism to integrate all relevant types of current and future risks;

(m) subject to the legal structure of a Company and its fund rules or instruments of incorporation, a substantial portion, and in any event at least 50 per cent of any variable remuneration component consists of shares of the Company, equivalent ownership interests, or share-linked instruments or equivalent non-cash instruments with equally effective incentives as any of the instruments referred to in this subparagraph, unless the management of each sub-fund of the Company accounts for less than 50 per cent of the total portfolio managed by the Company, in which case the minimum of 50 per cent does not apply.

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

APPENDIX 1 – (Unaudited) (Continued)

Appendix 1(a) – Remuneration Principles as outlined in Article 14b of the UCITS Directive (continued)

The instruments referred to in this subparagraph shall be subject to an appropriate retention policy designed to align incentives with the interests of the Company and the investors of such Company. The Member States or their competent authorities may place restrictions on the types and designs of those instruments or prohibit certain instruments as appropriate. This subparagraph shall be applied to both the portion of the variable remuneration component deferred in line with subparagraph (n) and the portion of the variable remuneration component not deferred;

(n) at least 40 per cent, of the variable remuneration component is deferred over a period which is appropriate in view of the holding period recommended to the investors of the Company and is correctly aligned with the nature of the risks of the Company. The period referred to in this subparagraph shall be at least 3 years; remuneration payable under deferral arrangements vests no faster than on a pro-rata basis; in the case of a variable remuneration component of a particularly high amount, at least 60 per cent of the amount shall be deferred;

(o) the variable remuneration, including the deferred portion, is paid or vests only if it is sustainable according to the financial situation of the Company as a whole, and justified according to the performance of the business unit, the Company and the individual concerned. The total variable remuneration shall generally be considerably contracted where subdued or negative financial performance of the Company occurs, taking into account both current compensation and reductions in payouts of amounts previously earned, including through malus or clawback arrangements;

(p) the pension policy is in line with the business strategy, objectives, values and long-term interests of the Company. If the employee leaves the Company before retirement, discretionary benefits shall be held by the Company for a period of five years in the form of instruments referred to in subparagraph (m). In the case of an employee reaching retirement, discretionary pension benefits shall be paid to the employee in the form of instruments referred to in point (m), subject to a five year retention period;

(q) staff are required to undertake not to use personal hedging strategies or remuneration and liability-related insurance to undermine the risk alignment effects embedded in their remuneration arrangements; and

(r) variable remuneration is not paid through vehicles or methods that facilitate the avoidance of the requirements laid down in the UCITS Directive.

Remuneration Code

The Firm has adopted a remuneration policy and procedures that comply with the different chapters of the FCA's Senior Management Arrangements, Systems and Controls Sourcebook (SYSC), and in accordance with ESMA's Guidelines on sound remuneration policies. The Firm have considered all the proportionality elements in line with the FCA Guidance. All variable remuneration is adjusted in line with capital and liquidity requirements.

As a UK AIFM the Firm has assessed the proportionality elements and disapplies the Pay Out Rules. Furthermore, the Firm has concluded, on the basis of its size and the nature, scale and complexity of its legal structure and business that it does not need to appoint a remuneration committee. Instead, the Governing Body sets, and oversees compliance with, the Firm's remuneration policy including reviewing the terms of the policy at least annually. As a UCITS Manager, the Firm's Remuneration Policy is in line with the UCITS V Directive.

APPENDIX 2 - (Unaudited)

Securities Financing Transactions Regulation

The Securities Financing Transactions Regulation, as published by the European Securities and Markets Authority, aims to improve the transparency of the securities financing markets. During the financial year ended 31 December 2023, none of the Funds entered into any Securities Financing Transactions.

CRS Data Protection Information Notice

The Company hereby provides the following data protection information notice to all shareholders in the Company either as at 31 December 2023 or at any point of time since this date.

For the avoidance of doubt, this notice applies equally to any shareholders that have ceased to hold shares in the Company since January 1, 2020. Furthermore, it should be noted that this notice may be applicable to Controlling Persons of certain shareholders.

The Company hereby confirms that they intend to take such steps as may be required to satisfy any obligations imposed by (i) the OECD's Standard for Automatic Exchange of Financial Account Information in Tax Matters (the "Standard"), which therein contains the Common Reporting Standard ("CRS"), as applied in Ireland by means of the relevant international legal framework and Irish tax legislation and (ii) EU Council Directive 2014/107/EU, amending Directive 2011/16/EU as regards mandatory automatic exchange information in the field of taxation ("DAC2"), as applied in Ireland by means of the relevant Irish tax legislation, so as to ensure compliance or deemed compliance (as the case may be) with the Standard/CRS and the DAC2 from 1 January 2020.

In this regard, the Manager on behalf of the Company is obliged under Section 891F and Section 891G of the Irish Taxes Consolidation Act, 1997 (as amended) and regulations made pursuant to those sections to collect certain information about each shareholder's tax arrangements (and also collect information in relation to relevant Controlling Persons of specific shareholders).

In certain circumstances, the Manager on behalf of the Company may be legally obliged to share this information and other financial information with respect to a shareholder's interests in the Company with the Irish Revenue Commissioners (and, in particular situations, also share information in relation to relevant Controlling Persons of specific shareholders). In turn, and to the extent the account has been identified as a Reportable Account, the Irish Revenue Commissioners will exchange this information with the country of residence of the Reportable Person(s) in respect of that Reportable Account.

In particular, information that may be reported in respect of a shareholder (and relevant Controlling Persons, if applicable) includes name, address, date of birth, place of birth, account number, account balance or value at period end (or, if the account was closed during such period, the balance or value at the date of closure of the account), any payments (including redemption and dividend/interest payments) made with respect to the account during the calendar year, tax residency(ies) and tax identification number(s).

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

APPENDIX 3 - (Unaudited)

Sustainable Finance Disclosure Regulation (“SFDR”)

Trium ESG Emissions Improvers Fund (the “Fund”)

The Fund promotes environmental or social characteristics but does not have as its objective sustainable investment.

The environmental and/or social characteristics promoted by the Fund comprises of investing in and constructively engaging with companies that have the potential to improve their environmental and emissions footprint better than their peer group. The Investment Manager uses its proprietary investment process, driven by primary research, utilising company data, third party data, third party industry consultants and corporate management meetings to determine which companies have the best improvement potential.

In identifying investments which allow the Fund to promote the environmental characteristics referred to above, the Investment Manager adopts the following strategies:

A focus on system-wide emissions/environmental impacts along the entire value chain

The Investment Manager regards the emissions/environmental impacts created by the entire value chain of a prospective investment’s activities. This includes, both upstream (suppliers) and downstream (customers) as critical to the sustainable investment objective of reducing carbon emissions and other environmental impacts. The Investment Manager studies system-wide dynamics, rather than merely those of the prospective investment itself. As a result, the Investment Manager recognises that high-emitting companies can help lower system-wide emissions/environmental impacts, while low-emitting companies can cause increased system-wide emissions/environmental impacts. For example, firms that manufacture insulation are, prima facie, high emitters but the insulation they produce reduces energy requirements in buildings by a factor of many times the energy required in the insulation manufacturing process. Thus, the Investment Manager considers insulation a system-wide solution and companies that provide it should be encouraged, not excluded as investments. Meanwhile, activities such as mining iron ore or drilling for oil are not emissions intensive at this stage, but downstream the oxidation of iron ore in steel and the combustion of gasoline/diesel in auto engines are highly emitting processes.

Focus on improvement rather than divestment of polluting assets

The Investment Manager believes that the objective of system wide carbon emissions/environmental impact reductions may be achieved by actively engaging with management of firms who operate improving a polluting facility to encourage them to reduce emissions and not by selling the operation to private owners, who may resist disclosure or reduce safety and environmental standards.

Careful selection of investee companies in which to invest

The Investment Manager takes account of broader governance and social practices of investee companies through the use of external ratings (MSCI/Integrum) and proprietary research, in particular with regard to sound management structures, employee relations, remuneration of staff and tax compliance.

Given the foregoing, the Investment Manager only makes investments where it has concluded, based on a careful, meticulous, and comprehensive analysis, that a pathway for sustainable environmental improvement/system-wide benefit exists. In particular the Investment Manager seeks to identify superior marginal opportunities for achieving emission reductions.

The Investment Manager implements and monitors this strategy on a continuous basis through:

Operating an exclusion policy

The Investment Manager operates an exclusion policy in sectors/industries for which it cannot conclude such a pathway exists. Such sectors include but are not limited to alcohol, tobacco, gambling, weapons manufacture, animal testing, thermal coal, and rainforest logging.

TRIUM UCITS PLATFORM PLC
(Investment Company with Variable Capital)
Annual Report and Audited Financial Statements
For the financial year ended 31 December 2023

APPENDIX 3 - (Unaudited) (Continued)

Sustainable Finance Disclosure Regulation (“SFDR”) (continued)

Trium ESG Emissions Improvers Fund (the “Fund”) (continued)

Top-down sector analysis to narrow focus

The Investment Manager analyses each industry sector from a top-down basis. The Investment Manager focuses on the most effective paths for de-carbonisation and emissions reductions within each sector by examining the key technologies in that sector, and assessing which processes, geographic footprint, and regulatory support are necessary for success.

Bottom-up Greenhouse Gas (GHG) analysis and pathways

The Investment Manager analyses the pathways for reducing emissions of investee companies’ activities and value chain by:

- Assessing emissions data for proposed investments. This will utilise disclosed data, or where such disclosures are inadequate, by using the data of comparable companies, industrial processes, regulatory disclosure, and consultation with former industry executives.
- Seeking to estimate changes in corporate emissions going forward. The Investment Manager uses explicit corporate plans/targets, regulatory drivers, changes in their business etc. and compares these emissions changes on both an absolute and a relative basis.
- Identifying the companies with the highest comparative and specific reductions based on emissions reductions plan that are both material and measurable, on both a per-unit basis and overall basis.
- Estimating capital expenditure required to achieve these direct GHG reductions, on a per company basis, (the marginal abatement cost) to identify the most cost-effective pathways to achieve emissions reductions, paying particular attention to companies which are investing in technologies /solutions which reduce emissions for less than prevailing European carbon prices.
- Identifying the firms with the best revenue opportunities in this transition by focusing on firms which are growing their percentages of sustainable sales and using capex as a leading indicator in the process.

Through the foregoing steps, the Investment Manager seeks to identify and engage with companies whose prices do not reflect the transformation and where Investment Manager can contribute ideas and support to this process.

The Investment Manager regards sustainable solutions as products or services which either (1) have negative or neutral GHG emissions on Scope 1, 2, 3 basis, or (2) avoid GHG emissions in their lifetime use, or (3) support the ecosystem of a sustainable solution.

Engagement with investee companies

Engagement activities may include the Investment Manager:

- Speaking to the board of directors or management of the companies to present ideas of possible pathways for corporate transformation;
- Working with the investor relations team to discuss how to engage investors and ESG rating agencies,
- Recommending external consultants to help implement transformations;
- Presenting views on capital allocation policies for transformation including advice on dividends, buybacks, divestitures, and capital expenditure;
- Speaking with other investors, media, investment banking analysts, and suppliers/customers about a company transformation;
- Forecasting emissions pathways and benchmarking against peers; and
- Working with former industry executives to develop additional transformative actions.

The Investment Manager compiles an Engagement Report detailing its engagement activities with investee companies. This report is published annually and is available to investors in the Fund.

APPENDIX 3 - (Unaudited) (Continued)

Sustainable Finance Disclosure Regulation (“SFDR”) (continued)

Trium ESG Emissions Improvers Fund (the “Fund”) (continued)

Use of ESG ratings provided by third party service providers

The Investment Manager undertakes its own proprietary primary research to determine its own view of the ESG credentials of companies in the Fund’s investment universe.

In addition, the Investment Manager utilises external rating services MSCI and Integrum, along with environmental ratings from Carbon Disclosure Project (CDP) to aid its monitoring of the ESG profile of companies in its investment universe.

Asset allocation planned for the Fund

In excess of 75% of the investments of the Fund used to attain the sustainable investment objective in accordance with the binding element of the investment strategy. The majority of the strategy is based on ESG engagement of the core long positions, and core shorts driven by company specific ESG issues. Industry/Sector hedges or indices may be used to reduce sector exposures and volatility. Roughly 25% of the strategy is more short-term and opportunistic in nature and involves responding to ESG and corporate event controversies. This opportunistic strategy may account for roughly 25% of fund capital. These positions typically have a shorter holding period and are implemented to seek to generate ongoing performance complementing the alpha expected from the longer-term investments of the core books, comprising the majority of the Fund’s exposure.

The remaining proportion of the investments of the Fund does not affect the promotion of the environmental/social characteristics as they each meet the following minimum environmental or social safeguards:

- The Investment Manager insists that all investee companies in which long positions are taken undertake to provide emissions disclosure and strongly encourage such disclosure be made by way of public filing to CDP.
- The Investment Manager will not take a long position in a company which violates the UN Global Compact.

The remaining proportion of the investments are typically used for hedging or relate to cash/marketable securities held as ancillary liquidity.

In line with SFDR, in assessing the contribution the Fund’s investments make, the potential for adverse impacts and confirming they cause no significant harm to the environmental and social characteristics outlined above, the Investment Manager may take into account certain indicators. An illustrative list of such indicators follows.

- Greenhouse gas (GHG) Emission related and carbon footprint indicators (Scope 1, Scope 2, and scope 3 GHG Emissions & GHG intensity of investments)
- Emissions of pollutants,
- Environmentally sensitive generation/use/reuse of energy, water, and waste
- Social & Employee, Respect for Human Rights, Anti-Corruption /Bribery matters (viz. gender equality, protection of human rights etc. and anti-corruption/bribery

Continuous monitoring

The Investment Manager monitors compliance with the social and/or environmental characteristics outlined above on a regular basis through:

- Monitoring as part of our ongoing direct engagement with companies
- Monitoring changes in third party (MSCI ESG) ESG ratings of investee companies, which changes serve as a signal for reassessing the proprietary ESG rating.
- Monitoring service such as the ESG service providers for ESG controversies that can impact on the fundamental valuations and which may trigger divestment.
- Review of corporate disclosures viz annual corporate social responsibility reports and relevant press release.

APPENDIX 3 - (Unaudited) (Continued)

Sustainable Finance Disclosure Regulation (“SFDR”) (continued)

Trium ESG Emissions Improvers Fund (the “Fund”) (continued)

The Investment Manager monitors the performance of the Fund in following the UN Sustainable Development Goals. This is done through the Cambridge Impact Framework Methodology. The Investment Manager published a report on SDG alignment and methodology and discusses this as part of corporate engagements when appropriate.

Data quality, sources, processing limitations

The Investment Manager acknowledges that data relating to ESG factors and its use can be:

- Hard to quantify;
- Inconsistently processed/report by ESG service providers;
- Inappropriately forced into a “one size fits all” or “tick the box” framework; and
- Subject to late, inaccurate, or biased reporting.

The Investment Manager addresses these issues through:

- Careful analysis and consideration of multiple data sources, assessing for consistency over time and cross sectionally.
- Continuous monitoring of ESG factors and profiles of ESG companies as discussed above.
- Due diligence of data with the company

Adverse impacts on sustainability factors

The Fund promotes environmental or social characteristics by considering principal adverse impacts on sustainability factors pursuant to SFDR (Art 7 SFDR) in line with its regulatory obligations.

Further information

Further information on the Fund’s arrangements and processes regarding the promotion of environmental and social characteristics can be found at www.trium-capital.com.

APPENDIX 3 - (Unaudited) (Continued)

Sustainable Finance Disclosure Regulation (“SFDR”) (continued)

Trium Sustainable Innovators Global Equity Fund (the “Fund”)

The Fund promotes environmental or social characteristics (but does not have as its objective sustainable investments). The Fund invests in a selection of securities which comply with environmental, social and governance responsibility criteria including low carbon intensity, social diversity and respect of responsible business conduct.

The environmental and/or social characteristics promoted by the Fund comprises of environmental sustainability and improvements in a socially responsible manner congruent with good corporate governance.

In identifying investments which allow the Fund to promote these environmental or social characteristics, the Investment Manager adopts the following strategies:

Exclusion of sectors and companies, quantitative and absolute which:

1. have a high GHG emission intensity,
2. whose scope 1 + 2 emissions exceeds 50 tons per USD million of sales
3. whose board of directors is not at least 20% female
4. which are involved in the production and/or distribution of (i) banned weapons (>0% of turnover), according to the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction (“Ottawa Treaty”), the Convention on the Prohibition of Cluster Munitions (“Oslo Convention”) and/or (ii) B and C-Weapons pursuant to the UN Biological Weapons Convention and UN Chemical Weapons Convention
5. which derive a significant portion (>5%) of their revenues from activities susceptible to create significant harm (including legal weapons/armour manufacture, tobacco, or adult entertainment) or >15% in the case of revenues from alcohol products or activities in the fossil fuel sector, including coal; and
6. that have been found guilty of violations of the Ten Principles of the UN Global Compact or the OECD Guidelines for Multinational Enterprises.

The Fund may make investments which contravene exclusions 1, 2 and 3 above up to a maximum of 10% of Net Asset Value of the Fund for each exclusion.

For the avoidance of doubt, the Investment Manager shall make no investments which contravene exclusions 4, 5 and 6 above.

ESG Risk and Opportunities

- ESG risks (weaknesses, threats, and externalities) faced by each investee company are assessed, along with their strategies for managing/mitigating same. Only investee companies in respect of which there is deemed to be a low likelihood of a material adverse impact of ESG on valuation are chosen.
- ESG opportunities (activities that fulfil a sustainable objective) are assessed in respect of each investee company. The Funds shall seek to have significant exposure to investments using clean technology and resource efficiency.
- Investment that fulfils sustainable objective ("Sustainable Investments") shall form at least 20% of the Funds' Investment portfolio.

Social Considerations and Corporate Governance

Trium Capital LLP (the "Investment Manager") performs an analysis of each investee company's relationships with key stakeholders (employees, customers, suppliers, regulators etc) to check if the investee company has sustainable, value driven and harmonious relationships with same.

The Investment Manager performs an analysis of the investee company's corporate governance model, arrangements, and controls.

In line with SFDR, in assessing the contribution the Funds' investments make, the potential for adverse impacts and confirming they cause no significant harm to the environmental and social characteristics, the Investment Manager takes into account a number of indicators (Greenhouse gas emissions, emissions of pollutants, environmentally sensitive generation/use/reuse of energy, water and waste, Social & employee, respect for human rights, anti-corruption/bribery matters).

APPENDIX 3 - (Unaudited) (Continued)

Sustainable Finance Disclosure Regulation (“SFDR”) (continued)

Trium Sustainable Innovators Global Equity Fund (the “Fund”) (continued)

The Investment Manager builds a proprietary ESG rating of investee company based on the results of the foregoing ESG analysis and complements this with ESG data from service providers, such as MSCI ESG, RepRisk, Bloomberg ESG, and ISS (the “ESG service providers”). The rating flows into the calculation of the cost of capital which is a constituent of the investee company’s valuation.

Continuous monitoring

The Investment Manager monitors compliance with the social and/or environmental characteristics outlined above on a regular basis through:

- Monitoring changes in third party (MSCI ESG) ESG ratings of investee companies, which changes serve as a signal for reassessing the proprietary ESG rating.
- Monitoring service such as the ESG service providers for ESG controversies that can impact on the fundamental valuations and which may trigger divestment.
- Review of corporate disclosures, including annual corporate social responsibility reports and relevant press release.

Disclosures

The Investment Manager provides periodic reporting showing the exposure to adverse sustainability indicators on both a portfolio level (ESG factsheet, quarterly) and position level (semi-annually).

Engagement activities of Investment Manager may include:

- Ad hoc engagement with investee company managements where improvement on ESG related matters is identified.
- Requesting further information from investee companies regarding their environmental impacts.
- Identification and promotion of best ESG practices to investee company managements.
- Proxy voting, in a matter congruent with the Investment Management fiduciary responsibilities to investors and considering of costs and benefits of voting, on all relevant matters including those having environmental and social import.

Adverse impacts on sustainability factors

The Funds promote environmental or social characteristics by considering principal adverse impacts on sustainability factors pursuant to SFDR.

Adverse impacts on sustainability factors

The Fund promotes environmental or social characteristics by considering principal adverse impacts on sustainability factors pursuant to SFDR.

THE BELOW SFDR DISCLOSURE IS AN UNAUDITED PART OF THE ANNUAL REPORT
ANNEX IV

Product name: Trium ESG Emissions Improvers Fund
Legal entity identifier: 2138009RNHBSKP7J4181

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective? *[tick and fill in as relevant, the percentage figure represents the minimum commitment to sustainable investments]*

Yes

It made **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 27% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/ or social characteristics promoted by the Trium ESG Emissions Improvers Fund (“TESGEIF”) were met to a great extent. TESGEIF focuses on the energy, utilities, materials, industrials, construction and transportation sectors. The Fund’s strategy is to invest in companies that are improving their environmental and emissions footprint better than their peer group with primary focus on the improvement potential of the company rather than its current state.

● **How did the sustainability indicators perform?**

Please refer to separate Principal Adverse Impact Statement for TESGEIF included in this annual report.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **...and compared to previous periods?**

Please refer to separate Principal Adverse Impact Statement for TESGEIF included in this annual report for the year ended 31 December 2023.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

TESGEIF invests primarily in the equities of companies the energy, utilities, materials, industrials, construction and transportation sectors which are improving their environmental and emissions footprint better than their peer group with primary focus on the improvement potential of the company rather than its current state. The equities and equity-related securities in which the Fund may invest will generally be listed on recognised exchanges globally (within the list of Regulated Markets in Schedule I of the Prospectus).

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The sustainable investments which TESGEIF made throughout the period have contributed to a sustainable investment objective and not significantly harmed any of the sustainable investment objectives owing to careful analysis by the Investment Manager of the nature, characteristics and prospects of said sustainable investments.

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

Please refer to separate Principal Adverse Impact Statement for TESGEIF included in this annual report.

— **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

TESGEIF's investments are aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights as TESGEIF expressly excludes any companies which are violation of those guidelines/principles. Further TESGEIF does not invest in companies in breach of the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Please refer to separate Principal Adverse Impact Statement for TESGEIF included in this annual report.

All of the investments in TESGEIF are made to further the environmental objective to invest in companies that are improving their environmental and emissions footprint better than their peer group with primary focus on the improvement potential of the company rather than its current state as detailed above and in the Supplement, save for a small amount of cash held for liquidity purposes (11.12% of NAV at year end) and for hedging investments in the short portfolio.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
RWE AG	Utilities	2.84%	France
UPM-KYMMENE OYJ	Materials	2.27%	Finland
ROCKWOOL INTL A/S-B SHS	Industrials	1.39%	Denmark
Heidelbergcement Ag	Materials	1.23%	Germany
ANDRITZ AG	Industrials	1.04%	Austria
YARA INTERNATIONAL ASA	Materials	1.04%	Norway
SIGNIFY NV	Industrials	0.91%	Netherlands
STORA ENSO OYJ-R SHS	Materials	0.76%	Finland
CIA ENERGETICA DE-SPON	Utilities	0.71%	Brazil
SSAB AB - B SHARES	Materials	0.65%	Sweden

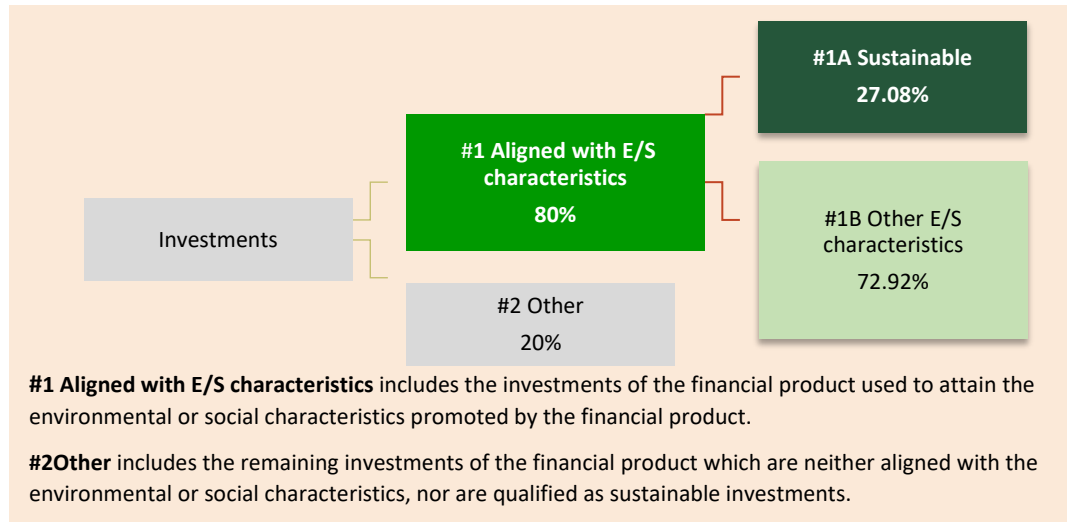

This schedule of investments is taken from a point in time, 29/12/2023, and excludes CFDs and the small amount of cash held for liquidity purposes (11.12% of NAV at year end) and for hedging investments in the short portfolio.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **01/01/2023-31/12/2023**

What was the proportion of sustainability-related investments?

● What was the asset allocation?

● In which economic sectors were the investments made?

Industry Group	Long (%)	Net (%)	Gross (%)
Utilities	21.09%	7.75%	34.44%
Capital Goods	19.47%	2.55%	36.40%
Materials	16.75%	-1.21%	34.71%
Energy	6.85%	2.69%	11.01%
Futures	4.30%	4.30%	4.30%
Transportation	2.45%	-2.36%	7.25%
Food, Beverage & Tobacco	2.16%	1.88%	2.43%
Automobiles & Components	1.48%	-2.13%	5.09%
Semiconductors & Semiconductor Equipment	0.99%	0.58%	1.40%
Consumer Durables & Apparel	0.67%	-1.19%	2.53%

Asset allocation describes the share of investments in specific assets.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

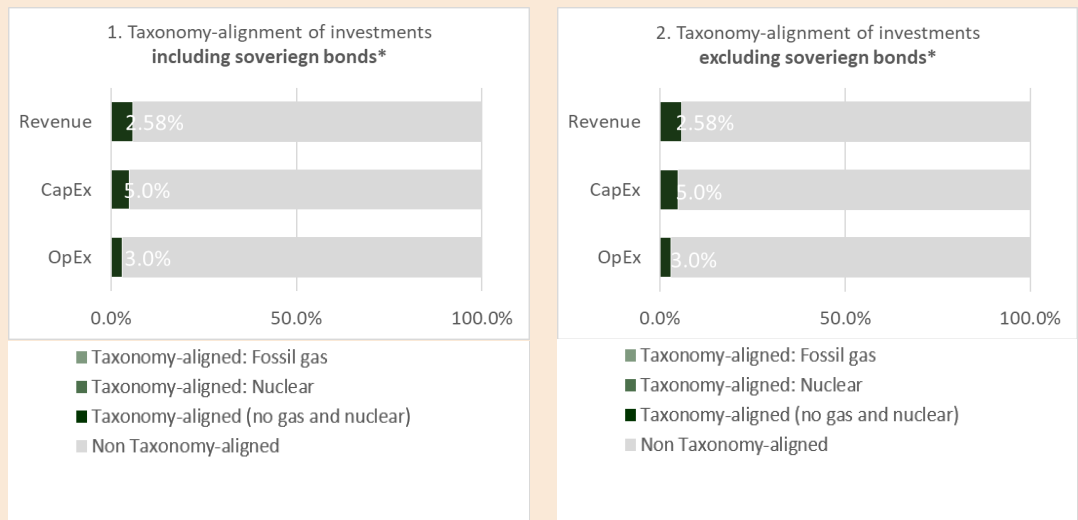

- Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

 In fossil gas In nuclear energy

 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

- **What was the share of investments made in transitional and enabling activities?**

During the reference period, 2% of TESGEIF's investments were made in transitional and enabling activities.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods**

The percentage of investments that were aligned with the EU Taxonomy rose from 5.1% in 2022 to 6% in 2023.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

During the reference period, <1% of TESGEIF's sustainable investments with an environmental objective were non-aligned with the EU taxonomy.

What was the share of socially sustainable investments

TESGEIF does not define a minimum proportion of socially sustainable investment. TESGEIF invests primarily in the equities of companies the energy, utilities, materials, industrials, construction and transportation sectors which are improving their environmental and emissions footprint better than their peer group with primary focus on the improvement potential of the company rather than its current state. TESGEIF's investments are aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights as TESGEIF expressly excludes any companies which are violation of those guidelines/principles. Further TESGEIF does not invest in companies in breach of the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The Fund held less than 20% in investments which do not contribute an environmental/social objective and the purpose of these is to provide liquidity. As noted above, these investments conformed with the minimum environmental or social safeguards as all of these investments are aligned with the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Details of shareholder engagement

The Investment Manager (IM) engages directly with the board, executive management, and/or sustainability teams of TESGEIF's portfolio holdings. The main aim of engagement across all companies is emissions reduction, but the IM also incorporates social and governance issues when appropriate. For certain companies, the focus is on other environmental issues such as waste,

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under

water, air quality, and biodiversity. Essentially, the IM is concerned with the E of ESG but will engage on other topics where IM believes such engagement will be beneficial. Engagements are typically carried out via meetings with the relevant company representatives or through written letters.

Although the IM's engagement activities are focused on emissions reduction, there are rarely meaningful shareholder votes on emissions. As such, the IM's voting activity is focused on executive compensation and gender diversity on boards. The IM voted against executive compensation for almost every holding in 2023, as the IM believes companies involved in environmental sectors should be leaders in incorporating ESG in management compensation. Unlike many funds, the IM believes that directly linking management compensation to the stock price leads to poor outcomes in the long run. This is especially true in environmental sectors, with changes in interest rates, energy prices, COVID rules, and government environmental policies having an enormous influence on stock prices on a 12-month view. The IM also believes that absolute levels of CEO compensation are too high across almost all listed public companies, and that voting against the executive compensation of the TESGEIF's holdings will force engagement on these topics. Voting in favour of executive compensation just because the stock increased in value and the Fund benefited is not going to improve executive compensation on a system-wide basis.

The engagement report of TESGEIF can be made available upon request to investors looking for more details of shareholding engagement.

How did this financial product perform compared to the reference benchmark?

The Fund does not have a specific designated reference index is to compare sustainability performance.

- ***How does the reference benchmark differ from a broad market index?***
N/A
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
N/A
- ***How did this financial product perform compared with the reference benchmark?***
N/A
- ***How did this financial product perform compared with the broad market index?***
N/A

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Trium ESG Emissions Improvers Fund

SFDR Report: Principle Adverse Sustainability Impacts Statement

Reported Period: 2 January - 29 December 2023

Summary

Trium Capital considers principal adverse impacts of its investment decisions on sustainability factors. The present statement is the consolidated principal adverse sustainability impacts statement of Trium ESG Emission Improvers Fund.

This principal adverse impacts statement covers the reference period from 2 January to 29 December 2023.

The below PAI disclosure is an unaudited part of the UCITS Annual Report.

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
Greenhouse gas emissions	1 GHG Emissions Scope 1 GHG Emissions	27,993.14 (93.95%)	21,237.51 (90.15%)	Sum of portfolio companies' Carbon Emissions - Scope 1 (tCO2e) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash.	The Trium ESG Emissions Improvers Fund considers all the mandatory PAIs applicable to the Fund's strategy and relies on a combination of the approaches mentioned below. Further information on how the Trium ESG Emissions Improvers Fund considers PAIs through binding investment commitments or processes can be found in the pre-contractual disclosures and periodic reporting. Trium ESG Emissions Improvers Fund also has additional policies and reports available (e.g. Engagement report) with further information on the actions taken by the Fund, which can be made available to investors upon request.
	Scope 2 GHG Emissions	4,608.47 (93.92%)	5,819.44 (90.28%)	Sum of portfolio companies' Carbon Emissions - Scope 2 (tCO2e) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash.	

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
	Scope 3 GHG Emissions	205,753.29 (94.00%)	99,497.28 (89.84%)	Sum of portfolio companies' Scope 3 - Total Emission Estimated (tCO ₂ e) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash.	<p>Engagement:</p> <p>Trium believes that engagement is an effective tool for achieving meaningful change, and we are committed to engaging with companies on a wide range of topics. We encourage management to adopt appropriate policies, activities and disclosure in line with established best practices. The Trium ESG Emissions Improvers Fund engages with companies on ESG issues, interactions typically involve a combination of face-to-face meetings, video calls, telephone calls and written communication. When an ESG issue is identified, we will usually raise it directly with investor relations, sustainability experts, company management or executive or non-executive directors.</p>
	Total GHG Emissions	240,076.81 (93.21%)	125,920.87 (88.97%)	The total annual Scope 1, Scope 2, and estimated Scope 3 GHG emissions associated with the market value of the portfolio. Companies' carbon emissions are apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).	

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Greenhouse Gas Emissions

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
2 Carbon Footprint	Carbon Footprint	699.29 (94.45%)	966.90 (90.80%)	The total annual Scope 1, Scope 2, and estimated Scope 3 GHG emissions associated with 1 million EUR invested in the portfolio. Companies' carbon emissions are apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).	Collaborative engagement is also used by the Trium ESG Emissions Improvers Fund to aid driving more leverage to internal corporate drivers on ESG issues due to larger collective assets under management working together or higher perceived ESG expertise of the investor group. Trium conduct general collective engagement through two non-profit organisations, The CDP and The Investor Forum.
3 GHG intensity of investee company	GHG intensity of investee company	0.06 (94.23%)	1.02 (90.50%)	The portfolio's weighted average of its holding issuers' GHG Intensity (Scope 1, Scope 2 and estimated Scope 3 GHG emissions/EUR million revenue).	Voting: The Trium ESG Emissions Improvers Fund's voting policy responds to a holistic analysis of all the long-term issues that may influence value creation, including material ESG issues.

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Greenhouse Gas Emissions

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
4 Exposure to companies active in the fossil fuel sector	Share of investments in companies active in the fossil fuel sector	15.00% (94.64%)	5.39% (92.32%)	The percentage of the portfolio's market value exposed to issuers with fossil fuels related activities, including extraction, processing, storage and transportation of petroleum products, natural gas, and thermal and	For more information please refer to the Trium ESG Emissions Improvers Fund's Voting Policy and Voting Report. Exclusions: The Trium ESG Emissions Improvers Fund has defined normative, activity-based and sector-based exclusion rules covering some of the key adverse sustainability indicators listed by the Sustainable Finance Disclosure Regulation (SFDR).
5 Share of non-renewable energy consumption and production	Share of non-renewable energy consumption and production	1.80% (75.71%)	0.45% (75.99%)	The portfolio's weighted average of issuers' energy consumption and/or production from non-renewable sources as a percentage of total energy used and/or generated.	Controversy monitoring: The Trium ESG Emissions Improvers Fund uses third-party data to identify controversies and establish their level of severity. This approach is then supplemented by an in-depth analysis of the scope of of controversies,
6 Energy consumption intensity per high impact climate sector	NACE Code A (Agriculture, Forestry and Fishing)	N/A (80.74%)	N/A (80.46%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code A (Agriculture, Forestry and Fishing)	

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
	NACE Code B (Mining and Quarrying)	0.20 (80.74%)	5.49 (80.46%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code B (Mining and Quarrying)	carried out by analysts, and a periodic review of developments. In the most severe and repeated cases, when no credible corrective action is taken, the investment team may divest from the holding.
	NACE Code C (Manufacturing)	0.60 (80.74%)	1.92 (80.46%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code C (Manufacturing)	Monitoring: Calculation and evaluation of Principal Adverse Impact indicators, including in the regular reporting at financial product level. Some of these indicators may have explicit targets and can be used to measure the attainment of the sustainable investment objective of the product.
	NACE Code D (Electricity, Gas, Steam and Air Conditioning Supply)	-0.16 (80.74%)	-1.35 (80.46%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code D (Electricity, Gas, Steam and Air Conditioning Supply)	

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
	NACE Code E (Water Supply; Sewerage, Waste Management and Remediation Activities)	0.00 (80.74%)	-0.50 (80.46%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code E (Water Supply; Sewerage, Waste Management and Remediation Activities)	The priority of the fund is emissions reduction. As such, we concentrate on Principal Adverse Indicators (“PAI”) in relation to emissions, including PAI 1, 2 and 3. However, we are not screening to exit companies with high emissions as a single data point. The fund is focused on the de-carbonisation of hard-to-abate sectors including energy, utilities, transportation, construction, chemicals, industrials, and agriculture. We only invest in companies in hard-to-abate sectors, and avoid technology, health care, financials, and consumer sectors. Therefore, our fund emissions are substantially higher than market indices, as we are purposely buying sectors in which emissions are high.
	NACE Code F (Construction)	-0.01 (80.74%)	-0.06 (80.46%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code F (Construction)	
	NACE Code G (Wholesale and Retail Trade; Repair of Motor Vehicles and Motorcycles)	0.03 (80.74%)	0.00 (80.46%)	The fund's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code G (Wholesale and Retail Trade; Repair of Motor Vehicles and Motorcycles)	

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
	NACE Code H (Transportation and Storage)	-0.08 (80.74%)	0.65 (80.46%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code H (Transportation and Storage)	The reason that we are focused on sectors with high emissions, is we want to buy stocks in high-emitting sectors which are best able to cut emissions quickly and efficiently.
	NACE Code L (Real Estate Activities)	0.00 (80.74%)	-0.08 (80.46%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code L (Real Estate Activities)	<p>The PAI emissions data supplied in the SFDR disclosure is from the previous reporting year. Therefore, the data provides only a snapshot of each company's emissions trajectory. We consider both a company's historical trend and its plans and ability to cut emissions in the future.</p> <p>We prefer companies that can grow sales while cutting emissions.</p>

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
Biodiversity	7 Activities negatively affecting biodiversity-sensitive areas	-0.13% (0.09%)	-3.67% (92.32%)	The percentage of the portfolio's market value exposed to issuers' that reported having operations in or near biodiversity sensitive areas and have been implicated in controversies with severe or very severe impacts on the environment.	<p>Alongside this, we look favourably on emissions strategies which are Paris-aligned and validated science-based targets. The world's demand for electricity, heating, transportation, chemicals, steel, cement, food, housing, and infrastructure will continue to grow. As such, our focus is on companies that can continue to grow sales but offer low-carbon products, rather than divest high-emitting, energy-intensive industrial activities.</p> <p>On an individual issuer level, we expect carbon intensity to improve over time for individual companies. However, on an aggregated portfolio level, carbon intensity improvement could be lower if we rotate into companies which are beginning their emissions reduction journey rather than those completing it.</p>

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period	
Water	8 Emissions to water	Tonnes of emissions to water generated by investee companies per million EUR invested, expressed as a weighted average	-17.77 (4.31%)	2,962.84 (18.41%)	The total annual wastewater discharged (metric tons reported) into surface waters as a result of industrial or manufacturing activities associated with 1 million EUR invested in the portfolio . Companies' water emissions are apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).	<p>PAI 4: We recognize that given the funds strategy, this will be high. As the Fund is targeting the de-carbonisation of hard to abate sectors, it will own companies involved in fossil fuel sector and which use non-renewable energy as part of their business.</p> <p>PAI 5: Similarly to PAI 4, we recognize that given the funds strategy, this will be high. As the Fund is targeting the de-carbonisation of hard to abate sectors, it will own companies involved in fossil fuel sector and which use non-renewable energy as part of their business.</p>
Waste	9 Hazardous waste ratio	Tonnes of hazardous waste generated by investee companies per million EUR invested, expressed as a weighted average	0.01 (47.93%)	50.85 (47.44%)	The total annual hazardous waste (metric tons reported) associated with 1 million EUR invested in the portfolio. Companies' hazardous waste is apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).	<p>PAI 6: We believe assessing energy intensity per unit of revenue for a range of sectors provides an important efficiency metric. However, the NACE Codes provided, such as Code C (Manufacturing) are too broad, impeding comparability. Where possible, we consider energy intensity on a product or output basis.</p>

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period	
Social and Employee Matters	10 Violations of UN Global Compact principles and Organisation for Economic Cooperation	Share of investments in investee companies that have been involved in violations of the	-0.73% (95.94%)	-0.25% (92.85%)	The percentage of the portfolio's market value exposed to issuers with very severe controversies related to the company's operations and/or products.	<p>PAI 7: We have engaged with external biodiversity consultants to develop a framework regarding biodiversity. In parallel, there is a need to encourage portfolio companies to improve data availability and consistency. We believe this data point will become increasingly important for industry, policy, and consumers, especially due to recent COP15 focused on biodiversity.</p> <p>PAI 8: There is limited coverage and inconsistency in methodology for emissions to water. We will engage with portfolio companies to improve both data availability and consistency. As we are focused on industrial companies, we accept some emissions to water within the portfolio as is typical in industrial processes. We expect companies to minimise emissions to water over time and we recognise environmental regulation as a driver of change.</p>

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
11 Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance /complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	11.98% (94.00%)	-4.85% (88.37%)	The percentage of the portfolio's market value exposed to issuers that are not signatories in the UN Global Compact.	<p>PAI 9: Similarly to PAI 8, there is limited data availability for PAI 9, and we are uncertain of consistency in methodology of reporting companies. We will engage with portfolio companies to improve data availability and consistency. Hazardous waste generation is most common in industrial companies and waste collection companies. We expect companies to minimise this ratio over time. Companies with no industrial activities will not have any direct hazardous waste.</p> <p>PAI 10: We expect to have no companies with UNGC violations in the portfolio. We accept some data providers flag violations via controversy-based screens rather than actual breaches. We will investigate if the violation has been remedied, else we will divest the company.</p>

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
12 Unadjusted gender pay gap	Average unadjusted gender pay gap of investee companies	-0.79% (22.72%)	-1.61% (18.88%)	The portfolio holdings' weighted average of the difference between the average gross hourly earnings of male and female employees, as a percentage of male gross earnings.	PAI 11: We expect all portfolio companies to have mechanisms in place to monitor compliance with International Labour Organization (ILO) standards, United Nations Guiding Principles (UNGPs), United Nations Global Compact (UNGC) Principles and the Organization for Economic Co-operation, and Development (OECD) Guidelines for Multinational Enterprises. We accept some data providers assess company policy statements as a proxy for internal processes.
13 Board gender diversity	Average ratio of female to male board members in investee companies	-0.04% (95.04%)	0.97% (92.13%)	The portfolio holdings' weighted average of the ratio of female to male board members.	
14 Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	Share of investments in investee companies involved in the manufacture or selling of controversial weapons	-0.60% (94.79%)	-0.22% (92.32%)	The percentage of the portfolio's market value exposed to issuers with an industry tie to landmines, cluster munitions, chemical weapons or biological weapons. Note: Industry ties includes ownership, manufacturing and investments. Ties to landmines do not include related safety products.	PAI 12: There is limited coverage and inconsistency for PAI 12. Gender pay gap reporting is only required in a few regions. We accept data providers may take only a portion of employee pay gap (such as in a mandatory jurisdiction) and judge this as representative across countries of operation for a single issuer.

INDICATORS APPLICABLE TO INVESTMENTS IN SOVEREIGNS AND SUPRANATIONALS

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period	
Environmental	15 GHG Intensity	GHG intensity of investee countries	0.00% (0.00%)	0.00% (0.00%)	The portfolio's weighted average of sovereign issuers' GHG Emissions Intensity (Scope 1, 2 and 3 emissions/EUR M GDP)	PAI 12 cont.: We recognize unadjusted gender pay gap is not a perfect or complete measure of equality, but we still monitor this for lack of gender equality within our portfolio companies.
Social	16 Investee countries subject to social violations	Number of investee countries subject to social violations (absolute number), as referred to in international treaties and conventions, United Nations principles and, where applicable, national law	0.00% (0.00%)	0.00% (0.00%)	The portfolio's number of unique sovereign issuers with European External Action Service (EEAS) restrictive measures (sanctions) on imports and exports	<p>PAI 13: We look at this on individual company basis and on a portfolio level. The portfolio level metrics can incorporate a broad range of percentages throughout companies, with geographic location playing a strong influence on this figure. We will engage on this topic where appropriate. We expect to see this number converge to roughly 50% across the portfolio over time.</p> <p>PAI 14: We expect zero exposure to controversial weapons. There may be data errors in this fields and we will investigate further. We will engage on these topics, and if there is a false positive in MSCI reporting, we will discuss this with MSCI.</p>

INDICATORS APPLICABLE TO INVESTMENTS IN SOVEREIGNS AND SUPRANATIONALS

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
	Number of investee countries subject to social violations (relative number divided by all investee countries), as referred to in international treaties and conventions, United Nations principles and, where applicable, national law	0.00% (0.00%)	0.00% (0.00%)	The portfolio's number of unique sovereign issuers with European External Action Service (EEAS) restrictive measures (sanctions) on imports and exports	

ADDITIONAL CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
9 Investments in companies producing chemicals	Share of investments in investee companies the activities of which fall under Division 20.2 of Annex I to Regulation (EC) No 1893/2006	-0.05% (97.03%)	0.00% (96.41%)	The percentage of the portfolio's market value exposed to issuers classified as manufacturers of pesticides and other agrochemical products by NACE Group (NACE Group Code 20.2).	<p>Voluntary PAI Disclosures Additional Climate and Other Environment-Related Indicator PAI 9: 'Investments in Companies Producing Chemicals' Additional Social and Employee, Respect for Human Rights, Anti-Corruption and Anti-Bribery Indicator PAI 14: 'Number of Identified Cases of Severe Human Rights Issues and Incidents'.</p> <p>Both topics are critical for success in environmental sectors, and have high data coverage, which makes the results meaningful. We expect high compliance with both topics and will engage where appropriate.</p>

ADDITIONAL INDICATORS FOR SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTI-CORRUPTION AND ANTI-BRIBERY MATTERS

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
----------------------------------	--------	-------------	-------------	-------------	--

14 Number of identified cases of severe human rights issues and incidents	Number of cases of severe human rights issues and incidents connected to investee companies on a weighted average basis	0.00% (96.15%)	0.00% (94.48%)	The portfolio's weighted average of issuers' number of Severe and Very Severe controversy cases in the last three years related to human rights violations issues.	
--	---	-------------------	-------------------	--	--

Data Sources and Quality of Data

Trium funds combine several data sources for its research. Each data source is analysed to evaluate data quality and relevance. Based on this analysis, Trium has chosen what we consider to be the strongest provider for each PAI. The specific Principal Adverse Impact indicators that are taken into consideration are subject to data quality and availability. They may evolve with improving data quality and availability. Trium undertake periodic reviews of data sources to continue to ensure the best-possible quality of data according to our analysis. The selection of data sources may change at any time.

Climate and other environment-related indicators

PAI 1. GHG emissions	MSCI
PAI 2. Carbon footprint	MSCI
PAI 3. GHG intensity of investee companies	MSCI
PAI 4. Exposure to companies active in the fossil fuel sector	MSCI
PAI 5. Share of non renewable energy consumption and production	MSCI
PAI 6. Energy consumption intensity per high impact climate sector	MSCI
PAI 7. Activities negatively affecting biodiversity sensitive areas	MSCI
PAI 8. Emissions to water	MSCI
PAI 9. Hazardous waste and radioactive waste ratio	MSCI

Social and employee, respect for human rights, anti-corruption and anti-bribery matters

Environmental: PAI 9: Investments in companies producing chemicals	MSCI
Social: 14 Number of identified cases of severe human rights issues and incidents	MSCI

This document has been issued by Trium Capital LLP (“Trium”) which is authorised and regulated by the Financial Conduct Authority in the UK (register number 497640), registered in the USA with the National Futures Association as a CPO (registered number 0477553) and is a registered investment advisor with the Securities and Exchange Commission (“SEC”) in the United States CRD# 306112/SEC#: 801-122997. Trium is a limited liability partnership registered in England, No. OC343790. Registered Office: 60 Gresham Street, London EC2V 7BB, UK. This document is for professional investors and market counterparties only.

The Trium ESG Emissions Improvers Fund is a UCITS sub-fund of the Irish-domiciled Trium UCITS Platform PLC and is managed by Trium Capital LLP, which is authorised and regulated by the UK Financial Conduct Authority. Applications for shares in any sub-fund of the Trium UCITS Platform plc (the “Fund”) should not be made without first consulting the Fund’s current Prospectus, KIID, Annual Report and Semi-Annual Report (“Offering Documents”), or other documents available in your local jurisdiction which are available free of charge from Trium Capital LLP. This information has been prepared solely for information purposes and is not an offer to buy or sell or a solicitation of an offer to buy or sell any security or instrument or to participate in any particular trading strategy. Trium UCITS Platform Plc is an Irish domiciled open-ended investment company with variable capital structured as an umbrella fund with segregated liability between its Funds under the laws of Ireland and authorised and regulated by the Central Bank of Ireland. The UCITS Management Company for Trium UCITS Platform Plc is Trium Ireland Ltd, authorised and regulated by the Central Bank of Ireland (register number: C189295).

Trium’s products and services are available to persons who are classified as professional clients and eligible market counterparties as defined in FCA’s rules. They are not available to retail clients. In certain jurisdictions a Trium product may only be available to professional or otherwise qualified investors or entities.

In the United States or for the account of U.S. Persons, this document is intended only for persons who are “qualified purchasers”, as defined in the United States Investment Company Act of 1940.

Trium is not acting as financial adviser or fiduciary to any party to whom it delivers this presentation or who invests in a fund or managed account. Trium’s products and services are available to persons who are classified as professional clients and eligible market counterparties as defined in FCA’s rules. They are not available to retail clients. In certain jurisdictions a Trium product may only be available to professional or otherwise qualified investors or entities. This document is not intended for distribution to, or use by any person or entity in any jurisdiction or country where such distribution or use would be contrary to local law or regulation. The distribution of this presentation and/or the information contained herein in certain jurisdictions may be restricted, and, accordingly, it is the responsibility of any recipient to satisfy itself as to compliance with relevant laws and regulations.

This document may not be divulged to any other person, reproduced or transmitted without the express written permission of Trium. The information contained in this document is strictly confidential and is intended only for use of the person to whom Trium has provided the material.

In particular, this presentation (in whole or in part) does not constitute investment advice. Before investing in a fund or managed account you should ensure that you fully understand its potential risks and rewards and independently determine that it is appropriate for you given your objectives, experience, financial and operational resources, and other relevant circumstances. You should consult with such advisors as you deem necessary to assist you in making these determinations. Any indicative terms provided to you are provided for your information and do not constitute an offer, a solicitation of an offer, or any advice or recommendation to invest in a fund or managed account (whether on the indicative terms or otherwise).

This presentation is intended for discussion purposes only and does not create any legally binding obligations on the part of Trium. Without any limitation, this presentation does not constitute an offer, or invitation to offer or a recommendation to invest in a fund or managed account. These materials were designed for use by specific persons familiar with your business and affairs and Trium assumes no obligation to update or otherwise revise these materials. Nothing contained herein should be construed as tax, accounting or legal advice nor is it to be relied upon in making an investment decision.

This document may not be reproduced or transmitted to any other person without the express permission of Trium. Although the above information has been taken from sources which Trium believe to be accurate, no warranty or representation is made as to the correctness, completeness and accuracy of the information or the assessments made on its basis.

The information contained in this document is preliminary and is qualified and superseded by the prospectus for the fund or governing document for the managed account to which it relates, and in particular the risk factors and information on conflicts of interest described therein, and any investment decision should only be made following consideration of that prospectus or other document.

Any performance data is based on a fund’s or an account’s actual or expected net asset value in accordance with the valuation methodology in its prospectus. Performance may be impacted by capital contributions and withdrawals and unless otherwise stated is net of management, performance and other fees as described herein and includes reinvestment of earnings. The fund’s or account’s fees may be modified or waived for certain investors as described in its prospectus or other governing document. An investor’s actual performance and actual fees may differ from the data reflected herein.

Results of the net performance mentioned herein reflect the reinvestment of dividends, gains and other earnings.

Comparisons to any index noted in this document are for purposes of comparison only, there will not

Investors are reminded that past performance should not be seen as an indication of future performance. The information contained herein is preliminary, is provided for discussion purposes only, is only a summary of key information, is not complete, does not contain certain material information about the funds mentioned herein (each a "Fund"), including important conflicts disclosures and risk factors associated with investments in the Funds, and is subject to change without notice.

The information contained herein does not take into account the particular investment objectives or financial circumstances of any recipient and does not constitute the provision of investment advice or a recommendation.

A recipient should make an independent investigation of the investment described herein, including consulting your tax, legal, accounting or other advisors about the matters discussed herein and the possible consequences for an investment in the Fund and the risks involved. An investment in any Fund may not be suitable for all investors. An investment in any Fund will be suitable only for certain financially sophisticated investors who meet certain eligibility requirements, have no need for immediate liquidity in their investment, and can bear the risk of an investment in a Fund for an extended period of time.

This presentation may not be provided to any person in the United States or to any U.S. Person as such term is defined under the Securities Act of 1933 of the USA, as amended. The information contained in this presentation about Trium is not directed to any person in the United States. Funds referred to herein are neither registered under the Securities Act 1933, nor are they registered under the Investment Company Act of 1940. Consequently, they cannot be offered for sale or be sold in the USA, its territories, possessions or protectorates under its jurisdiction, nor to nationals, citizens or residents in any of those areas.

This document is not intended for distribution to, or use by any person or entity in any jurisdiction or country where such distribution or use would be contrary to local law or regulation. The distribution of this presentation and/or the information contained herein in certain jurisdictions may be restricted, and, accordingly, it is the responsibility of any recipient to satisfy itself as to compliance with relevant laws and regulations.

This presentation is not intended to be, nor should it be construed or used as an offer to sell, or a solicitation of any offer to buy, interests or shares in any Fund mentioned herein.

An offer or solicitation will only be made by means of a Prospectus (the "Prospectus") which will contain additional information about the relevant Fund, including disclosures relating to risk factors and conflicts of interest. The relevant Prospectus may be obtained on request from Trium.

Investing in financial markets involves a substantial degree of risk. There can be no assurance that the investment objectives of any Fund described herein will be achieved. Investment losses may occur, and investors could lose some or all of their investment. No guarantee or representation is made that a Fund's investment program, including, without limitation, its diversification strategies, or risk monitoring goals, will be successful. Investment results may vary substantially over time. Investment losses may occur from time to time. Nothing herein is intended to imply that a Fund's investment methodology may be considered "conservative", "safe", "risk free" or "risk averse". Economic, market and other conditions could also cause any Fund to alter its investment objectives, guidelines, and restrictions.

Future returns are not guaranteed and a loss of principal may occur. Performance may be affected by economic and market conditions.

Information about market indices is provided for the purpose of making general market data available as a point of reference only. There is no representation that any index is an appropriate benchmark for comparison. Index returns do not take into account trading commissions and costs or other fees and expenses associated with the active management of portfolios. The volatility of indices may be materially different from the performance of the Fund. The Fund's holdings may differ substantially from the securities that comprise the indices. Furthermore, the Fund may invest in different trading strategies from the indices and therefore it should be noted that the sector, industry, stock and country exposures, volatility, risk characteristics and holdings of the Fund may differ materially from those of the indices. The performance returns of the indices include the reinvestment of earnings and are obtained from Bloomberg and other third party sources. Although Trium believes these sources to be reliable, it is not responsible for errors or omissions from these sources.

An investment in a Trium Fund involves a number of risks that is outlined in the Fund's Prospectus. There can be no guarantee that a Trium Fund's investment objectives will be achieved, and the investment results may vary substantially from year to year or even from month to month. It may engage in investment practices or trading strategies that may increase the risk of investment loss and a loss of principal may occur. Trium may in some of the Trium Funds have total trading authority over such Fund, and the Fund will be dependent upon the services of Trium. The Fund's fees and expenses as described in the Fund's Prospectus may offset the Fund's gains. In addition, there may be restrictions on transferring interests in the Fund. Please refer to the Fund's Prospectus for additional information.

IMPORTANT NOTICE FOR MARKETING COMMUNICATIONS

This is a marketing communication. Please refer to the Offering Documents of the relevant fund, or where applicable to the KIID before making any final investment decisions.

This communication is only being made available to and is only directed at persons in the United Kingdom or EEA who are professionals, defined as Eligible Counterparties, or Professional Clients, within the meaning of the rules of the Financial Conduct Authority.

Under no circumstances should any information contained in this communication be regarded as an offer or

Where risks or rewards of purchasing units in any fund are referenced, please refer to the risks outlined in either the KIID or Offering Documents. Any fund managed by Trium Capital LLP will be subject to, inter alia, the following risks:

- Market price risk: any investment fund is subject to fluctuations in the value of its investments. For UCITS funds, an indicator of market risk is set out in the Fund's Synthetic Risk Reward Indicator (SRRRI), which is available in the Fund's KIID.
- FX Risk: investments in the Fund may be subject to fluctuations in FX.
- Derivatives & leverage risk: derivatives can change in value rapidly and may cause losses to any investment fund
- Credit Risk: the Fund is exposed to the risk that the issuer of any debt securities invested in meet its obligations.
- Counterparty/Custodial Risk: a counterparty with whom a Fund contracts or a custodian holding a Fund's holding assets may fail to meet its obligations or become bankrupt, which may expose that Fund to a financial loss.
- Liquidity Risk: is the risk that there are insufficient buyers or sellers of a given investment to allow an investment fund trade readily which may impact the Fund's performance or (in extreme circumstances) an investor's ability to redeem.
- Operational Risk: human error, system and/or process failures, inadequate procedures or controls can cause losses to any investment fund

The costs associated with Trium ESG Emissions Improvers Fund (F EUR) on-going charges of 1.00% and performance charges of 10% of the NAV that exceeds the highest NAV. Where any performance is referenced, please note that past performance is not a reliable indicator of future returns.

The costs associated with Trium ESG Emissions Improvers Fund (I GBP) on-going charges of 1.50% and performance charges of 20% of the NAV that exceeds the highest NAV. Where any performance is referenced, please note that past performance is not a reliable indicator of future returns.

Where simulated or scenario based performance is referenced, please note that the scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and/or current market conditions and are not an exact indicator. What you will receive will vary depending on how the market performs and how long you keep the investment/product. In the United Kingdom, this material is a financial promotion and is issued by Trium Capital LLP, which is authorised and regulated in the United Kingdom by the Financial Conduct Authority.

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 54.56% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/ or social characteristics promoted by the Trium Sustainable Innovators Global Equity Fund (“TSIGEF”) were met to a great extent. As shall be noted below TSIGEF only makes investments in companies that comply with high standards of environmental, social and governance responsibility criteria including low carbon intensity, social diversity, and respect of responsible business conduct.

● **How did the sustainability indicators perform?**

The Principal Adverse Indicators for TSIGEF performed as expected across the reference period. TSIGEF found that the data coverage for the majority of indicators was above 75%, with impact figures reported in line with expectations.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In addition to the mandatory sustainable indicators, TSIGEF have also reported on the following voluntary indicators: 'Investments in companies without carbon emission reduction initiatives', 'Excessive CEO pay ratio', 'Number of Identified Cases of Severe Human Rights Issues and Incidents'. The Managers believe that all three topics are important for impactful reporting, and have high data coverage which makes results meaningful, and we expect high compliance with these topics and continue to engage with investee companies where appropriate.

● ***...and compared to previous periods?***

Please refer to separate Principal Adverse Impact Statement for TSIGEF included in this annual report for the year ended 31 December 2023.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The environmental and/or social characteristics promoted by the Fund comprise of environmental sustainability and improvements in a socially responsible manner congruent with good corporate governance.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The Fund identified investments which promoted environmental or social characteristics that *do not cause significant harm to any environmental or social sustainable investment objective*, in doing so the Investment Manager adopted the following strategies:

Exclusion of sectors and companies, quantitative and absolute

1. which have a high GHG emission intensity (such as fossil fuels, energy, forestry/paper products, construction and real estate, mining/extraction, transportation, telecommunications, and utilities);
2. whose scope 1 + scope 2 emissions exceeds 50 tons per USD million of sales;
3. whose board of directors is not at least 20% female;
4. which are involved (>0% of turnover) in the production and/or distribution of (i) banned weapons, according to the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction ("**Ottawa Treaty**"), the Convention on the Prohibition of Cluster Munitions ("**Oslo Convention**") and/or (ii) B and C-Weapons pursuant to the UN Biological Weapons Convention and UN Chemical Weapons Convention;
5. which are involved (>0% of revenues) in the production of controversial weapons including white phosphorus, depleted uranium and nuclear weapons;
6. which derive a significant portion (>5%) of their revenues from activities susceptible to create significant harm (including legal weapons/armour manufacture, tobacco, or

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

adult entertainment) or >15% in the case of revenues from alcohol products or activities in the fossil fuel sector, including coal; and

7. that have been found guilty of violations of the Ten Principles of the UN Global Compact or the OECD Guidelines for Multinational Enterprises.

The Fund may have made investments which contravene exclusions 1, 2 and 3 above up to a maximum of 10% of Net Asset Value of the Fund for each exclusion.

For the avoidance of doubt, the Investment Manager shall made no investments which contravened exclusions 4, 5 and 6 and 7 above.

Social considerations and corporate governance

The Investment Manager performed an analysis of each investee company's relationships with key stakeholders (employees, customers, suppliers, regulators etc) to check if the investee company had sustainable, value driven and harmonious relationships with same.

The "do no significant harm" principle applies only to those investments of the Fund that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining proportion of the Fund do not take into account the EU criteria for environmentally sustainable economic activities.

How were the indicators for adverse impacts on sustainability factors taken into account?

As noted above the Investment Manager took into account a number of indicators. An illustrative list of such indicators follows:

- Greenhouse gas (GHG) Emission related and carbon footprint indicators (Scope 1, Scope 2, and scope 3 GHG Emissions & GHG intensity of investments)
- Emissions of pollutants,
- Environmentally sensitive generation/use/reuse of energy, water and waste
- Social & Employee, Respect for Human Rights, Anti-Corruption /Bribery matters (such as gender equality, protection of human rights etc. and anti-corruption/bribery)

The Investment Manager builds a proprietary ESG rating of investee company based on the results of the foregoing ESG analysis and complements this with ESG data from service providers, such as MSCI ESG, RepRisk, Bloomberg ESG, and ISS (the "ESG service providers"). The rating flows into the calculation of the cost of capital which is a constituent of the investee company's valuation.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes, as noted above the Investment Manager completely excludes from the investment universe any companies that have been found guilty of violations of the Ten Principles of the UN Global Compact or the OECD Guidelines for Multinational Enterprises. As a result all investments in the universe are aligned with these guidelines.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Please refer to separate Principal Adverse Impact Statement for TSIGEF included in this annual report.

TSIGEF's investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights as TSIGEF expressly excludes any companies which are violation of those guidelines/principles. Further, TSIGEF did not invest in companies in breach of the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work, and the International Bill of Human Rights.

All of the investments TSIGEF made complied with the strict and in-depth investment selection process detailed above and in the Supplement, save for a small amount of cash held for liquidity purposes (% of NAV at year end = 2.8%).

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Abbott Laboratories	Health Care	7.38%	United States
OTIS WORLDWIDE CORP	Industrials	5.52%	United States
GRACO INC	Industrials	5.30%	United States
MASTERCARD INC - A	Financials	5.20%	United States
STRYKER CORP	Health Care	5.02%	United States
SIG COMBIBLOC GROUP AG	Materials	4.52%	Switzerland

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

01/01/2023-31/12/2023

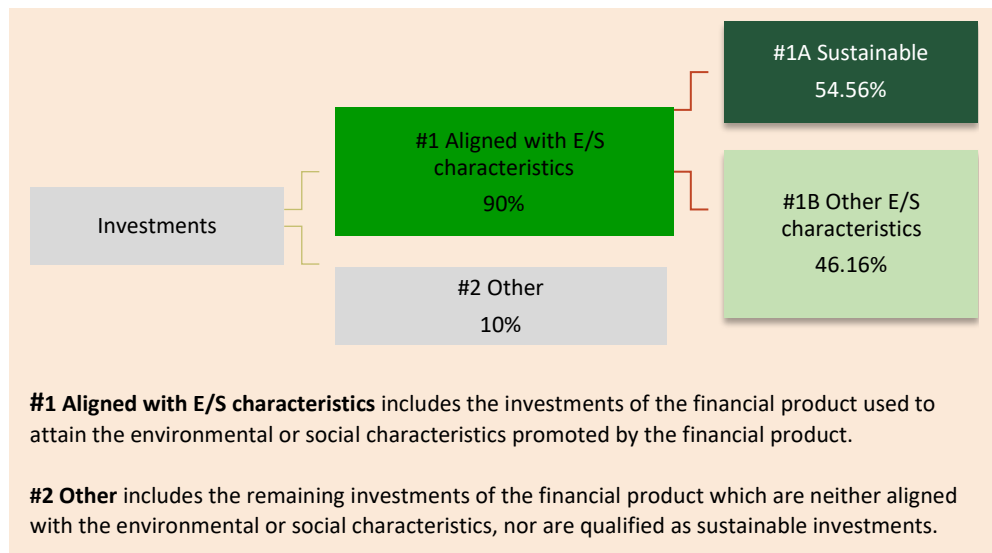

ADOBE INC	Information	4.47%	United States
ACCENTURE PLC-CL A	Information	4.11%	United States
ECOLAB INC	Materials	4.07%	United States
UNITEDHEALTH GROUP INC	Health Care	3.94%	United States

This schedule of investments is taken from a point in time, 29/12/2023, and excludes cash held for liquidity purposes (% of NAV at year end = 2.77%).

What was the proportion of sustainability-related investments?

● What was the asset allocation?

TSIGEF invests primarily in the equities of high-quality companies which are listed on the stock exchanges of the United States of America, Western Europe (including the United Kingdom) and on the relevant markets set out in Schedule 1 of the Prospectus and which comply with high standards of environmental, social and governance responsibility criteria including low carbon intensity, social diversity, and respect of responsible business conduct.

The sustainable investments which TSIGEF made throughout the period have contributed to a sustainable investment objective and not significantly harmed any of the sustainable investment objectives owing to every investment made during the period being selected the in-depth and rigorous screening process described in the Supplement.

TSIGEF operates a set of strict exclusion list which prohibits or limits investment in Companies which derive revenues from various industries/economic activities which are deemed to not be sustainable, or which fail to meet certain environmental, social and governance standards (viz. GHG emission intensity and diversity). See TSIGEF's Supplement for more details.

● In which economic sectors were the investments made?

- Industrials 23.90%

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

▪ Information Technology	21.00%
▪ Healthcare	20.72%
▪ Financials	11.93%
▪ Consumer Discretionary	9.07%
▪ Materials	8.59%
▪ Consumer Staples	2.03%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

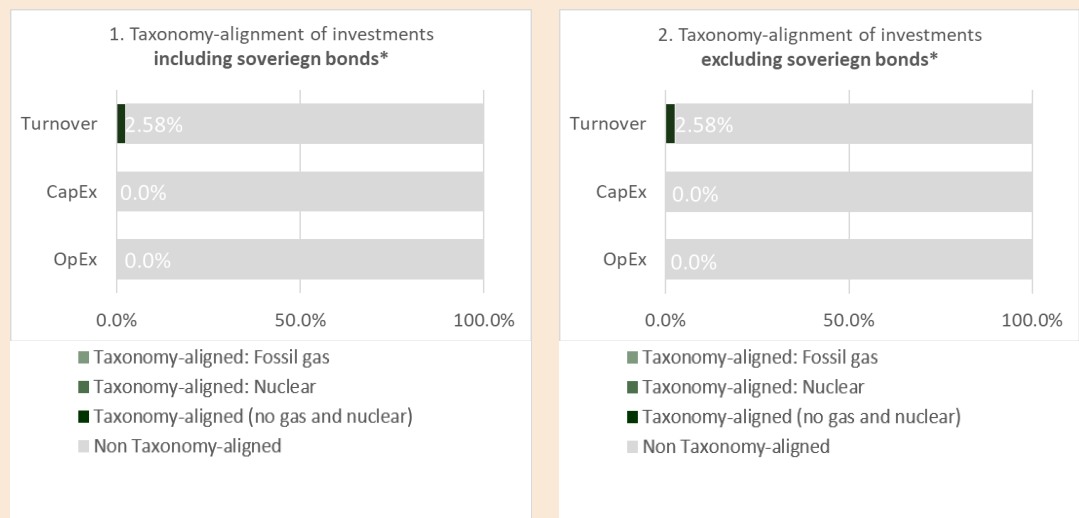

● **Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds. It must be noted that data is only available in respect of the taxonomy alignment (either through company reporting or third party estimated data) in respect of approximately 30% of the the sub-funds investments and hence the numbers reported below are the minimum level of taxonomy alignment of the portfolio.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

As described above, TSIGEF invests primarily in the equities of high-quality companies which are listed on the stock exchanges of the United States of America and Western Europe (including the United Kingdom). These companies, many of which comply with high standards of environmental, social and governance responsibility criteria including low carbon intensity, social diversity, and respect of responsible business conduct, do not necessarily report under the EU Taxonomy and current company disclosures do not include the information to allow the Fund to determine what activities could count as transitional or enabling.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods**

As noted above, many of the companies which TSIGEF invests in are not necessarily eligible to report under the EU Taxonomy. The percentage of EU Taxonomy Eligibility of the portfolio has risen from 38.8% in 2022 to 46.02% in 2023.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

TSIGEF invests in “sustainable investments”, which are defined as those investments that contribute to an environmental objective (apart from a portion of investments used for liquidity and hedging purposes), and which align with the Fund’s extra-financial objective of reducing GHG emissions, by measuring issuer performance via the scope 1+2 GHG emissions intensity indicator. However the Fund’s environmental objective does not qualify as environmentally sustainable under the EU taxonomy.

During the reference period, 97.42% of TSIGEF’s sustainable investments with an environmental objective were non aligned with the EU taxonomy.

What was the share of socially sustainable investments?

TSIGEF consider socially sustainable investments to be those that align with the Fund’s extra-financial objective of increasing gender diversity at the Board level. The Investment Manager performs an analysis of each investee company’s relationships with key stakeholders (employees, customers, suppliers, regulators etc) to check if the investee company has sustainable, value driven and harmonious relationships with the same. This includes a focus on the client and end-user relationship, workforce management and relationships with public authorities, regulators, universities, and trade associations. All investments conformed with the minimum environmental or social safeguards as none of these contravened the section entitled “Exclusion of sectors and companies, quantitative and absolute” above.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund held less than 10% in investments which do not contribute an environmental/social objective and the purpose of these is to provide liquidity. These investments conformed with the minimum environmental or social safeguards as none of these contravened the section entitled “*Exclusion of sectors and companies, quantitative and absolute*” above.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

TSIGEF operates a set of strict exclusion list which prohibits or limits investment in Companies which derive revenues from various industries/economic activities which are deemed to not be sustainable, or which fail to meet certain environmental, social and governance standards (viz. GHG emission intensity and diversity). See TSIGEF’s Supplement for more details.

Details of shareholder engagement

TSIGEF focusses on two key extra-financial objectives: Reduce GHG emissions and Board Gender Diversity. TSIGEF engages with companies and votes in annual general meetings in alignment with these objectives. We report on our performance in our annual Voting Report, Engagement Report, and in our monthly Investor reports.

GHG Intensity

During 2023, we engaged with our portfolio companies and voted in favour of resolutions supporting our objective to improve GHG emissions.

In terms of our engagement efforts, in 2023 there were 25 corporate engagements where environmental matters were discussed directly with companies, out of 69 engagements. In terms of our active engagement, we launched 4 active engagement efforts, of which 2 were environmentally focused or linked. For more information, please refer to the “Case Studies of Individual Active Engagement” section, and the “Thematic Active Engagement” section of the 2023 Annual Engagement Report.

From our voting behaviour perspective, we voted in favour of resolutions that promote environmental initiatives, such as resolutions focused on climate action plans. In 2023, there was 1 environmentally related resolution proposed, and we voted in favour, against management recommendation. We note a sharp decrease in climate related proposals in comparison with 2022 where there were 5 proposals on this topic.

Female Board Representation

We demonstrate our alignment with our extra financial objective to promote gender diversity at the Board level through our voting behaviour. Out of the 297 votes we conducted in 2023 related to Board of Director election or re-elections, 110 proposals set forward by management were female Directors (37%). TSINAEF voted in favour of a female Director proposal in 104 occasions (95% of the total female Directors proposed). This compares to an average approval rate for male Directors of 87%. In the six cases where we did not support a female Director candidate, this was mainly due to entrenchment, age, and/or lack of independence to stand up against executives due to close relationships.

How did this financial product perform compared to the reference benchmark?

The Fund does not have a specific designated reference index is to compare sustainability performance.

- ***How does the reference benchmark differ from a broad market index?***

N/A

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

N/A

- ***How did this financial product perform compared with the reference benchmark?***

N/A

- ***How did this financial product perform compared with the broad market index?***

N/A

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Trium Sustainable Innovators Global Equity Fund

SFDR Report: Principle Adverse Sustainability Impacts Statement

Reported Period: 2 January - 29 December 2023

Summary

Trium Capital considers principal adverse impacts of its investment decisions on sustainability factors. The present statement is the consolidated principal adverse sustainability impacts statement of Trium Sustainable Innovators Global Equity Fund.

This principal adverse impacts statement covers the reference period from 2 January to 29 December 2023.

The below PAI disclosure is an unaudited part of the UCITS Annual Report.

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
Greenhouse gas emissions	1 GHG Emissions Scope 1 GHG Emissions	76.96 (100.00%)	60.55 (100.00%)	Sum of portfolio companies' Carbon Emissions - Scope 1 (tCO ₂ e) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash.	The Trium Sustainable Innovators Global Equity Fund considers all the mandatory PAIs applicable to the Fund's strategy and relies on a combination of the approaches mentioned below. Further information on how the Trium Sustainable Innovators Global Equity Fund considers PAIs through binding investment commitments or processes can be found in the pre-contractual disclosures and periodic reporting. The Trium Sustainable Innovators Global Equity Fund also has additional policies and reports available (e.g. Engagement report) with further information on the actions taken by the Fund, which can be made available to investors upon request.
	Scope 2 GHG Emissions	154.98 (100.00%)	93.95 (100.00%)	Sum of portfolio companies' Carbon Emissions - Scope 2 (tCO ₂ e) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash.	

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
	Scope 3 GHG Emissions	5,455.59 (96.28%)	4,430.04 (100.00%)	Sum of portfolio companies' Scope 3 - Total Emission Estimated (tCO ₂ e) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash.	<p>Engagement:</p> <p>Trium believes that engagement is an effective tool for achieving meaningful change, and we are committed to engaging with companies on a wide range of topics. We encourage management to adopt appropriate policies, activities and disclosure in line with established best practices. The Trium Sustainable Innovators Global Equity Fund engages with companies on ESG issues, interactions typically involve a combination of face-to-face meetings, video calls, telephone calls and written communication. When an ESG issue is identified, we will usually raise it directly with investor relations, sustainability experts, company management or executive or non-executive directors.</p>
	Total GHG Emissions	5,681.83 (96.46%)	4,563.77 (100.00%)	The total annual Scope 1, Scope 2, and estimated Scope 3 GHG emissions associated with the market value of the portfolio. Companies' carbon emissions are apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).	

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Greenhouse Gas Emissions

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
2 Carbon Footprint	Carbon Footprint	94.20 (96.46%)	66.94 (100.00%)	The total annual Scope 1, Scope 2, and estimated Scope 3 GHG emissions associated with 1 million EUR invested in the portfolio. Companies' carbon emissions are apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).	Collaborative engagement is also used by the Trium Sustainable Innovators Global Equity Fund to aid driving more leverage to internal corporate drivers on ESG issues due to larger collective assets under management working together or higher perceived ESG expertise of the investor group. Trium conduct general collective engagement through two non-profit organisations, The CDP and The Investor Forum.
3 GHG intensity of investee company	GHG intensity of investee company	384.39 (96.46%)	422.86 (100.00%)	The portfolio's weighted average of its holding issuers' GHG Intensity (Scope 1, Scope 2 and estimated Scope 3 GHG emissions/EUR million revenue).	Voting: The Trium Sustainable Innovators Global Equity Fund's voting policy responds to a holistic analysis of all the long-term issues that may influence value creation, including material ESG issues.

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Greenhouse Gas Emmissions

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
4 Exposure to companies active in the fossil fuel sector	Share of investments in companies active in the fossil fuel sector	3.27% (100.00%)	0.21% (100.00%)	The percentage of the portfolio's market value exposed to issuers with fossil fuels related activities, including extraction, processing, storage and transportation of petroleum products, natural gas, and thermal and	For more information please refer to the Trium Sustainable Innovators Global Equity Fund's Voting Policy and Voting Report. Exclusions: The Trium Sustainable Innovators Global Equity Fund has defined normative, activity-based and sector-based exclusion rules covering some of the key adverse sustainability indicators listed by the Sustainable Finance Disclosure Regulation (SFDR).
5 Share of non-renewable energy consumption and production	Share of non-renewable energy consumption and production	56.22% (65.04%)	76.87% (92.15%)	The portfolio's weighted average of issuers' energy consumption and/or production from non-renewable sources as a percentage of total energy used and/or generated.	Controversy monitoring: The Trium Sustainable Innovators Global Equity Fund uses third-party data to identify controversies and establish their level of severity.
6 Energy consumption intensity per high impact climate sector	NACE Code A (Agriculture, Forestry and Fishing)	N/A (75.56%)	N/A (92.15%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code A (Agriculture, Forestry and Fishing)

Data Sources and Quality of Data

Trium funds combine several data sources for its research. Each data source is analysed to evaluate data quality and relevance. Based on this analysis, Trium has chosen what we consider to be the strongest provider for each PAI. The specific Principal Adverse Impact indicators that are taken into consideration are subject to data quality and availability. They may evolve with improving data quality and availability. Trium undertake periodic reviews of data sources to continue to ensure the best-possible quality of data according to our analysis. The selection of data sources may change at any time.

Climate and other environment-related indicators

PAI 1. GHG emissions	MSCI
PAI 2. Carbon footprint	MSCI
PAI 3. GHG intensity of investee companies	MSCI
PAI 4. Exposure to companies active in the fossil fuel sector	MSCI & Bloomberg

This document has been issued by Trium Capital LLP (“Trium”) which is authorised and regulated by the Financial Conduct Authority in the UK (register number 497640), registered in the USA with the National Futures Association as a CPO and CTA (registered number 0477553) and is a registered investment advisor with the Securities and Exchange Commission (“SEC”) in the United States CRD# 306112/SEC#: 801-122997. Trium is a limited liability partnership registered in England, No. OC343790. Registered Office: 60 Gresham Street, London EC2V 7BB, UK. This document is for professional investors and market counterparties only.

The Trium Sustainable Innovators Global Equity Fund and Trium Sustainable Innovators North American Equity Fund are UCITS sub-funds of the Irish-domiciled Trium UCITS Platform PLC and is managed by Trium Capital LLP, which is authorised and regulated by the UK Financial Conduct Authority. Applications for shares in any sub-fund of the Trium UCITS Platform plc (the “Fund”) should not be made without first consulting the Fund’s current Prospectus, KIID, Annual Report and Semi-Annual Report (“Offering Documents”), or other documents available in your local jurisdiction which are available free of charge from Trium Capital LLP. This information has been prepared solely for information purposes and is not an offer to buy or sell or a solicitation of an offer to buy or sell any security or instrument or to participate in any particular trading strategy.

Trium UCITS Platform Plc is an Irish domiciled open-ended investment company with variable capital structured as an umbrella fund with segregated liability between its Funds under the laws of Ireland and authorised and regulated by the Central Bank of Ireland. The UCITS Management Company for Trium UCITS Platform Plc is Trium Ireland Ltd, authorised and regulated by the Central Bank of Ireland (register number: C189295).

Trium’s products and services are available to persons who are classified as professional clients and eligible market counterparties as defined in FCA’s rules. They are not available to retail clients. In certain jurisdictions a Trium product may only be available to professional or otherwise qualified investors or entities. This document is not intended for distribution to, or use by any person or entity in any jurisdiction or country where such distribution or use would be contrary to local law or regulation. The distribution of this document and/or the information contained herein in certain jurisdictions may be restricted, and, accordingly, it is the responsibility of any recipient to satisfy itself as to compliance with relevant laws and regulations.

In the United States or for the account of U.S. Persons, this document is intended only for persons who are “qualified purchasers”, as defined in the United States Investment Company Act of 1940.

This document may not be divulged to any other person, reproduced or transmitted without the express written permission of Trium. The information contained in this document is strictly confidential and is intended only for use of the person to whom Trium has provided the material.

An investment in any Fund may not be suitable for all investors. An investment in any Fund will be suitable only for certain financially sophisticated investors who meet certain eligibility requirements, have no need for immediate liquidity in their investment, and can bear the risk of an investment in a Fund for an extended period of time.

This document is intended for discussion purposes only and does not create any legally binding obligations on the part of Trium. Without any limitation, this document does not constitute an offer, or invitation to offer or a recommendation to invest in a fund or managed account. These materials were designed for use by specific persons familiar with your business and affairs and Trium assumes no obligation to update or otherwise revise these materials. Nothing contained herein should be construed as tax, accounting or legal advice nor is it to be relied upon in making an investment decision.

This document (in whole or in part) does not take into account the particular investment objectives or financial circumstances of any recipient and does not constitute the provision of investment advice or a recommendation. Before investing you should make an independent investigation of the fund or managed account. You should ensure that you fully understand its potential risks and rewards and independently determine that it is appropriate for you given your objectives, experience, financial and operational resources, and other relevant circumstances. You should consult with your tax, legal, accounting or other such advisors as you deem necessary to assist you in making these determinations and the possible consequences for an investment in the Fund and the risks involved. Any indicative terms provided to you are provided for your information and do not constitute an offer, a solicitation of an offer, or any advice or recommendation to invest in a fund or managed account (whether on the indicative terms or otherwise).

Trium is not acting as financial adviser or fiduciary to any party to whom it delivers this document or who invests in a fund or managed account.

Investors are reminded that past results are not necessarily indicative of future results. The information contained herein is preliminary, is provided for discussion purposes only, is only a summary of key information, is not complete, does not contain certain material information about the funds mentioned herein (each a “Fund”), including important conflicts disclosures and risk factors associated with investments in the Funds, and is subject to change without notice.

Investing in financial markets involves a substantial degree of risk. Investment losses may occur, and investors could lose some or all of their investment. No guarantee or representation is made that a Fund's investment program, including, without limitation, its diversification strategies, or risk monitoring goals, will be successful. Investment results may vary substantially over time. Investment losses may occur from time to time. Nothing herein is intended to imply that a Fund's investment methodology may be considered "conservative", "safe", "risk free" or "risk averse". Economic, market and other conditions could also cause any Fund to alter its investment objectives, guidelines, and restrictions.

Although the above information has been taken from sources which Trium believe to be accurate, no warranty or representation is made as to the correctness, completeness and accuracy of the information or the assessments made on its basis.

Any performance data is based on a fund's or an account's actual or expected net asset value in accordance with the valuation methodology in its prospectus. Performance may be impacted by capital contributions and withdrawals and unless otherwise stated is net of management, performance and other fees as described herein and includes reinvestment of earnings. The fund's or account's fees may be modified or waived for certain investors as described in its prospectus or other governing document. An investor's actual performance and actual fees may differ from the data reflected herein.

Results of the net performance mentioned herein reflect the reinvestment of dividends, gains and other earnings.

An investment in a Trium Fund involves a number of risks that is outlined in the Fund's Prospectus. There can be no guarantee that a Trium Fund's investment objectives will be achieved, and the investment results may vary substantially from year to year or even from month to month. It may engage in investment practices or trading strategies that may increase the risk of investment loss and a loss of principal may occur. Trium may in some of the Trium Funds have total trading authority over such Fund, and the Fund will be dependent upon the services of Trium. The Fund's fees and expenses as described in the Fund's Prospectus may offset the Fund's gains. In addition, there may be restrictions on transferring interests in the Fund. Please refer to the Fund's Prospectus for additional information.

Any Fund prospectus (each a "Prospectus") qualifies the information contained herein in its entirety and no person should make an investment decision in reliance upon the information contained herein. In the event of any discrepancies between the information contained herein and a Prospectus, the Prospectus will control.

The information contained in this document is preliminary and is qualified and superseded by the prospectus for the fund or governing document for the managed account to which it relates, and in particular the risk factors and information on conflicts of interest described therein, and any investment decision should only be made following consideration of that prospectus or other document.

This document is not intended to be, nor should it be construed or used as an offer to sell, or a solicitation of any offer to buy, interests or shares in any Fund mentioned herein.

An offer or solicitation will only be made by means of a Prospectus (the "Prospectus") which will contain additional information about the relevant Fund, including disclosures relating to risk factors and conflicts of interest. The relevant Prospectus may be obtained on request from Trium.

Future returns are not guaranteed and a loss of principal may occur. Performance may be affected by economic and market conditions.

Comparisons to any index noted in this document are for purposes of comparison only, there will not necessarily be correlation between the Fund's return and the indices mentioned herein.

Information about market indices is provided for the purpose of making general market data available as a point of reference only. There is no representation that any index is an appropriate benchmark for comparison. Index returns do not take into account trading commissions and costs or other fees and expenses associated with the active management of portfolios. The volatility of indices may be materially different from the performance of the Fund. The Fund's holdings may differ substantially from the securities that comprise the indices. Furthermore, the Fund may invest in different trading strategies from the indices and therefore it should be noted that the sector, industry, stock and country exposures, volatility, risk characteristics and holdings of the Fund may differ materially from those of the indices. The performance returns of the indices include the reinvestment of earnings and are obtained from Bloomberg and other third party sources. Although Trium believes these sources to be reliable, it is not responsible for errors or omissions from these sources.

IMPORTANT NOTICE FOR MARKETING COMMUNICATIONS

This is a marketing communication. Please refer to the Offering Documents of the relevant fund, or where applicable to the KIID before making any final investment decisions.

This communication is only being made available to and is only directed at persons in the United Kingdom or EEA who are professionals, defined as Eligible Counterparties, or Professional Clients, within the meaning of the rules of the Financial Conduct Authority.

Under no circumstances should any information contained in this communication be regarded as an offer or solicitation to deal in investments in any jurisdiction. This communication is not aimed at US investors.

Where risks or rewards of purchasing units in any fund are referenced, please refer to the risks outlined in either the KIID or Offering Documents. Any fund managed by Trium Capital LLP will be subject to, inter alia, the following risks:

- Market price risk: any investment fund is subject to fluctuations in the value of its investments. For UCITS funds, an indicator of market risk is set out in the Fund's Synthetic Risk Reward Indicator (SRRRI), which is available in the Fund's KIID.
- FX Risk: investments in the Fund may be subject to fluctuations in FX.
- Derivatives & leverage risk: derivatives can change in value rapidly and may cause losses to any investment fund
- Credit Risk: the Fund is exposed to the risk that the issuer of any debt securities invested in meeting its obligations.
- Counterparty/Custodial Risk: a counterparty with whom a Fund contracts or a custodian holding a Fund's holding assets may fail to meet its obligations or become bankrupt, which may expose that Fund to a financial loss.
- Liquidity Risk: is the risk that there are insufficient buyers or sellers of a given investment to allow an investment fund to readily trade which may impact the Fund's performance or (in extreme circumstances) an investor's ability to redeem.
- Operational Risk: human error, system and/or process failures, inadequate procedures or controls can cause losses to any investment fund

The costs associated with Trium Sustainable Innovators Global Equity fund, and Trium Sustainable Innovators North American Equity Fund, include on-going charges of 0.6%.

Where any performance is referenced, please note that past performance is not a reliable indicator of future returns.

Where simulated or scenario-based performance is referenced, please note that the scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and/or current market conditions and are not an exact indicator. What you will receive will vary depending on how the market performs and how long you keep the investment/product.

In the United Kingdom, this material is a financial promotion and is issued by Trium Capital LLP, which is authorised and regulated in the United Kingdom by the Financial Conduct Authority.

THE BELOW SFDR DISCLOSURE IS AN UNAUDITED PART OF THE ANNUAL REPORT
ANNEX IV

Product name: Trium Sustainable Innovators North American Equity Fund
Legal entity identifier: 213800VJ5TWZ7NFNYZ54

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective? *[tick and fill in as relevant, the percentage figure represents the minimum commitment to sustainable investments]*

Yes

No

It made **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 46.57% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/ or social characteristics promoted by the Trium Sustainable Innovators North American Equity Fund ("TSINAEF") were met to a great extent. As shall be noted below TSINAEF only makes investments in companies that comply with high standards of environmental, social and governance responsibility criteria including low carbon intensity, social diversity, and respect of responsible business conduct.

● How did the sustainability indicators perform?

The Principal Adverse Indicators for TSINAEF performed as expected across the reference period. TSINAEF found that the data coverage for the majority of indicators was above 75%, with impact figures reported in line with expectations.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In addition to the mandatory sustainable indicators, TSINAEF have also reported on the following voluntary indicators: 'Investments in companies without carbon emission reduction initiatives', 'Excessive CEO pay ratio', 'Number of Identified Cases of Severe Human Rights Issues and Incidents'. The Managers believe that all three topics are important for impactful reporting, and have high data coverage which makes results meaningful, and we expect high compliance with these topics and continue to engage with investee companies where appropriate.

● ***...and compared to previous periods?***

Please refer to separate Principal Adverse Impact Statement for TSINAEF included in this annual report for the year ended 31 December 2023.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The environmental and/or social characteristics promoted by the Fund comprise of environmental sustainability and improvements in a socially responsible manner congruent with good corporate governance.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The Fund identified investments which promoted environmental or social characteristics that *do not cause significant harm to any environmental or social sustainable investment objective*, in doing so the Investment Manager adopted the following strategies:

Exclusion of sectors and companies, quantitative and absolute

1. which have a high GHG emission intensity (such as fossil fuels, energy, forestry/paper products, construction and real estate, mining/extraction, transportation, telecommunications, and utilities);
2. whose scope 1 + scope 2 emissions exceeds 50 tons per USD million of sales;
3. whose board of directors is not at least 20% female;
4. which are involved (>0% of turnover) in the production and/or distribution of (i) banned weapons, according to the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction ("**Ottawa Treaty**"), the Convention on the Prohibition of Cluster Munitions ("**Oslo Convention**") and/or (ii) B and C-Weapons pursuant to the UN Biological Weapons Convention and UN Chemical Weapons Convention;
5. which are involved (>0% of revenues) in the production of controversial weapons including white phosphorus, depleted uranium and nuclear weapons;
6. which derive a significant portion (>5%) of their revenues from activities susceptible to create significant harm (including legal weapons/armour manufacture, tobacco, or

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

adult entertainment) or >15% in the case of revenues from alcohol products or activities in the fossil fuel sector, including coal; and

7. that have been found guilty of violations of the Ten Principles of the UN Global Compact or the OECD Guidelines for Multinational Enterprises.

The Fund may have made investments which contravene exclusions 1, 2 and 3 above up to a maximum of 10% of Net Asset Value of the Fund for each exclusion.

For the avoidance of doubt, the Investment Manager shall made no investments which contravened exclusions 4, 5 and 6 and 7 above.

Social considerations and corporate governance

The Investment Manager performed an analysis of each investee company's relationships with key stakeholders (employees, customers, suppliers, regulators etc) to check if the investee company had sustainable, value driven and harmonious relationships with same.

The "do no significant harm" principle applies only to those investments of the Fund that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining proportion of the Fund do not take into account the EU criteria for environmentally sustainable economic activities.

How were the indicators for adverse impacts on sustainability factors taken into account?

As noted above the Investment Manager took into account a number of indicators. An illustrative list of such indicators follows:

- Greenhouse gas (GHG) Emission related and carbon footprint indicators (Scope 1, Scope 2, and scope 3 GHG Emissions & GHG intensity of investments)
- Emissions of pollutants,
- Environmentally sensitive generation/use/reuse of energy, water and waste
- Social & Employee, Respect for Human Rights, Anti-Corruption /Bribery matters (such as gender equality, protection of human rights etc. and anti-corruption/bribery)

The Investment Manager builds a proprietary ESG rating of investee company based on the results of the foregoing ESG analysis and complements this with ESG data from service providers, such as MSCI ESG, RepRisk, Bloomberg ESG, and ISS (the "ESG service providers"). The rating flows into the calculation of the cost of capital which is a constituent of the investee company's valuation.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes, as noted above the Investment Manager completely excludes from the investment universe any companies that have been found guilty of violations of the Ten Principles of the UN Global Compact or the OECD Guidelines for Multinational Enterprises. As a result all investments in the universe are aligned with these guidelines.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Please refer to separate Principal Adverse Impact Statement for TSINAEF included in this annual report.

TSINAEF's investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights as TSINAEF expressly excludes any companies which are violation of those guidelines/principles. Further, TSINAEF did not invest in companies in breach of the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work, and the International Bill of Human Rights.

All of the investments TSINAEF made complied with the strict and in-depth investment selection process detailed above and in the Supplement, save for a small amount of cash held for liquidity purposes (% of NAV at year end = 2.8%).

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Abbott Laboratories	Health Care	7.26%	United States
OTIS WORLDWIDE CORP	Industrials	6.82%	United States
UNITEDHEALTH GROUP INC	Health Care	6.22%	United States
CME GROUP INC	Financials	5.72%	United States
ANSYS INC	Information	5.68%	United States
ACCENTURE PLC-CL A	Information	4.90%	United States

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

01/01/2023-31/12/2023

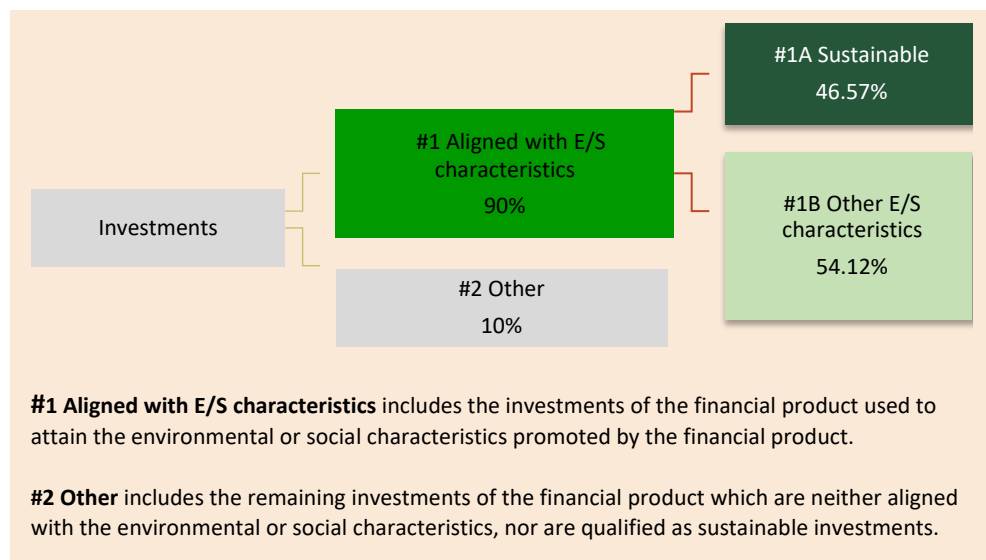

MOODY'S CORP	Financials	4.88%	United States
GRACO INC	Industrials	4.80%	United States
STRYKER CORP	Health Care	4.59%	United States
ECOLAB INC	Materials	4.59%	United States

This schedule of investments is taken from a point in time, 29/12/2023, and excludes cash held for liquidity purposes (% of NAV at year end = 2.78%).

What was the proportion of sustainability-related investments?

● What was the asset allocation?

TSINAEF invests primarily in the equities of high-quality companies listed on the stock exchanges of the United States of America and Canada, which comply with high standards of environmental, social and governance responsibility criteria including low carbon intensity, social diversity, and respect of responsible business conduct.

The sustainable investments which TSINAEF made throughout the period have contributed to a sustainable investment objective and not significantly harmed any of the sustainable investment objectives owing to every investment made during the period being selected the in-depth and rigorous screening process described in the Supplement.

TSINAEF operates a set of strict exclusion list which prohibits or limits investment in Companies which derive revenues from various industries/economic activities which are deemed to not be sustainable, or which fail to meet certain environmental, social and governance standards (viz. GHG emission intensity and diversity). See TSINAEFs Supplement for more details.

● In which economic sectors were the investments made?

• Industrials	21.41%
• Information Technology	21.11%
• Financials	19.26%

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- Healthcare 18.06%
- Consumer Discretionary 9.43%
- Materials 4.59%
- Consumer Staples 3.37%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

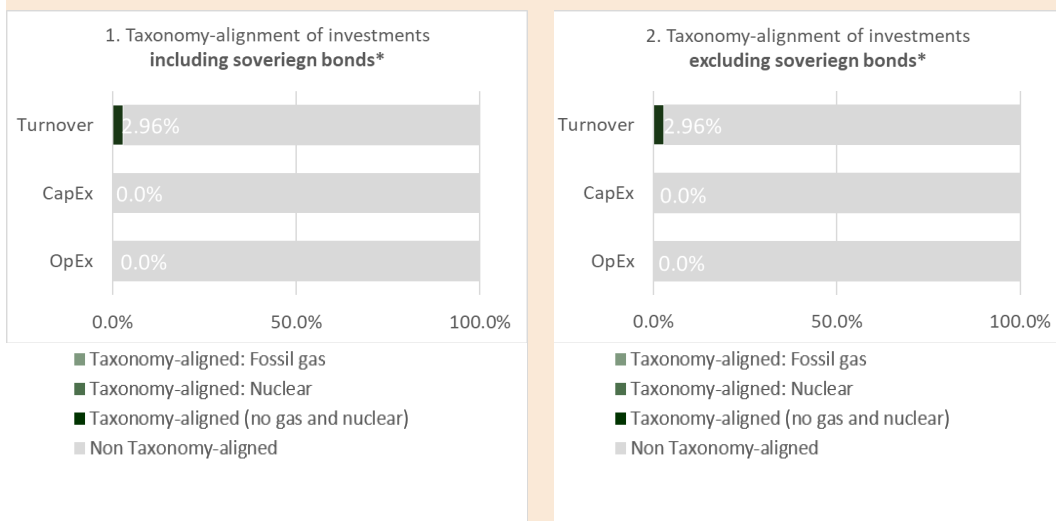

- Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds. It must be noted that data is only available in respect of the taxonomy alignment (either through company reporting or third party estimated data) in respect of approximately 30% of the the sub-funds investments and hence the numbers reported below are the minnum level of taxonomy alignment of the portfolio.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As described above, TSINAEF invests primarily in the equities of high-quality companies listed on the stock exchanges of the United States of America and Canada. This means that whilst these companies comply with high standards of environmental, social and governance responsibility criteria including low carbon intensity, social diversity, and respect of responsible business conduct, they do not report under the EU taxonomy and current company disclosures do not include the information to allow the Fund to determine what activities could count as transitional or enabling.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods**

As noted above, many of the companies which TSIGEF invests in are not necessarily eligible to report under the EU Taxonomy. The percentage of EU Taxonomy Eligibility of the portfolio has risen from 37.8% in 2022 to 50.81% in 2023.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

TSINAEF invests in “sustainable investments”, which are defined as those investments that contribute to an environmental objective (apart from a portion of investments used for liquidity and hedging purposes), and which align with the Fund’s extra-financial objective of reducing GHG emissions, by measuring issuer performance via the scope 1+2 GHG emissions intensity indicator. However the Fund’s environmental objective does not qualify as environmentally sustainable under the EU taxonomy.

During the reference period, 97.04% of TSINAEF’s sustainable investments with an environmental objective were non aligned with the EU taxonomy.

What was the share of socially sustainable investments?

TSINAEF consider socially sustainable investments to be those that align with the Fund’s extra-financial objective of increasing gender diversity at the Board level. The Investment Manager performs an analysis of each investee company’s relationships with key stakeholders (employees, customers, suppliers, regulators etc) to check if the investee company has sustainable, value driven and harmonious relationships with the same. This includes a focus on the client and end-user relationship, workforce management and relationships with public authorities, regulators, universities, and trade associations. All investments conformed with the minimum environmental or social safeguards as none of these contravened the section entitled “*Exclusion of sectors and companies, quantitative and absolute*” above.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund held less than 10% in investments which do not contribute an environmental/social objective and the purpose of these is to provide liquidity. These investments will conform with the minimum environmental or social safeguards as none of these contravened the section entitled “*Exclusion of sectors and companies, quantitative and absolute*” above.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

TSINAEF operates a set of strict exclusion list which prohibits or limits investment in Companies which derive revenues from various industries/economic activities which are deemed to not be sustainable, or which fail to meet certain environmental, social and governance standards (viz. GHG emission intensity and diversity). See TSINAEF’s Supplement for more details.

Details of shareholder engagement

TSINAEF focusses on two key extra-financial objectives: Reduce GHG emissions and Board Gender Diversity. TSINAEF engages with companies and votes in annual general meetings in alignment with these objectives. We report on our performance in our annual Voting Report, Engagement Report, and in our monthly Investor reports.

GHG Intensity

During 2023, we engaged with our portfolio companies and voted in favour of resolutions supporting our objective to improve GHG emissions.

In terms of our engagement efforts, in 2023 there were 25 corporate engagements where environmental matters were discussed directly with companies, out of 69 engagements. In terms of our active engagement, we launched 4 active engagement efforts, of which 2 were environmentally focused or linked. For more information, please refer to the “Case Studies of Individual Active Engagement” section, and the “Thematic Active Engagement” section of the 2023 Annual Engagement Report.

From our voting behaviour perspective, we voted in favour of resolutions that promote environmental initiatives, such as resolutions focused on climate action plans. In 2023, there was 1 environmentally related resolution proposed, and we voted in favour, against management recommendation. We note a sharp decrease in climate related proposals in comparison with 2022 where there were 5 proposals on this topic.

Female Board Representation

We demonstrate our alignment with our extra financial objective to promote gender diversity at the Board level through our voting behaviour. Out of the 297 votes we conducted in 2023 related to Board of Director election or re-elections, 110 proposals set forward by management were female Directors (37%). TSINAEF voted in favour of a female Director proposal in 104 occasions (95% of the total female Directors proposed). This compares to an average approval rate for male Directors of 87%. In the six cases where we did not support a female Director candidate, this was mainly due to entrenchment, age, and/or lack of independence to stand up against executives due to close relationships.

How did this financial product perform compared to the reference benchmark?

The Fund does not have a specific designated reference index is to compare sustainability performance.

- ***How does the reference benchmark differ from a broad market index?***

N/A

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

N/A

- ***How did this financial product perform compared with the reference benchmark?***

N/A

- ***How did this financial product perform compared with the broad market index?***

N/A

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Trium Sustainable Innovators North American Equity Fund

SFDR Report: Principle Adverse Sustainability Impacts Statement

Reported Period: 2 January - 29 December 2023

Summary

Trium Capital considers principal adverse impacts of its investment decisions on sustainability factors. The present statement is the consolidated principal adverse sustainability impacts statement of Trium Sustainable Innovators North American Equity Fund.

This principal adverse impacts statement covers the reference period from 2 January to 29 December 2023.

The below PAI disclosure is an unaudited part of the UCITS Annual Report.

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
Greenhouse gas emissions	1 GHG Emissions Scope 1 GHG Emissions	76.96 (100.00%)	60.54 (100.00%)	Sum of portfolio companies' Carbon Emissions - Scope 1 (tCO ₂ e) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash.	The Trium Sustainable Innovators Global Equity Fund considers all the mandatory PAIs applicable to the Fund's strategy and relies on a combination of the approaches mentioned below. Further information on how the Trium Sustainable Innovators Global Equity Fund considers PAIs through binding investment commitments or processes can be found in the pre-contractual disclosures and periodic reporting. The Trium Sustainable Innovators Global Equity Fund also has additional policies and reports available (e.g. Engagement report) with further information on the actions taken by the Fund, which can be made available to investors upon request.
	Scope 2 GHG Emissions	154.98 (100.00%)	102.44 (100.00%)	Sum of portfolio companies' Carbon Emissions - Scope 2 (tCO ₂ e) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash.	

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
	Scope 3 GHG Emissions	5,455.59 (96.28%)	4,298.83 (100.00%)	Sum of portfolio companies' Scope 3 - Total Emission Estimated (tCO ₂ e) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash.	<p>Engagement:</p> <p>Trium believes that engagement is an effective tool for achieving meaningful change, and we are committed to engaging with companies on a wide range of topics. We encourage management to adopt appropriate policies, activities and disclosure in line with established best practices. The Trium Sustainable Innovators Global Equity Fund engages with companies on ESG issues, interactions typically involve a combination of face-to-face meetings, video calls, telephone calls and written communication. When an ESG issue is identified, we will usually raise it directly with investor relations, sustainability experts, company management or executive or non-executive directors.</p>
	Total GHG Emissions	5,681.83 (96.46%)	4,461.82 (100.00%)	The total annual Scope 1, Scope 2, and estimated Scope 3 GHG emissions associated with the market value of the portfolio. Companies' carbon emissions are apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).	

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Greenhouse Gas Emissions

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
2 Carbon Footprint	Carbon Footprint	94.20 (96.46%)	63.70 (100.00%)	The total annual Scope 1, Scope 2, and estimated Scope 3 GHG emissions associated with 1 million EUR invested in the portfolio. Companies' carbon emissions are apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).	Collaborative engagement is also used by the Trium Sustainable Innovators Global Equity Fund to aid driving more leverage to internal corporate drivers on ESG issues due to larger collective assets under management working together or higher perceived ESG expertise of the investor group. Trium conduct general collective engagement through two non-profit organisations, The CDP and The Investor Forum.
3 GHG intensity of investee company	GHG intensity of investee company	384.39 (96.46%)	393.50 (100.00%)	The portfolio's weighted average of its holding issuers' GHG Intensity (Scope 1, Scope 2 and estimated Scope 3 GHG emissions/EUR million revenue).	Voting: The Trium Sustainable Innovators Global Equity Fund's voting policy responds to a holistic analysis of all the long-term issues that may influence value creation, including material ESG issues.

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Greenhouse Gas Emmissions

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
4 Exposure to companies active in the fossil fuel sector	Share of investments in companies active in the fossil fuel sector	3.27% (100.00%)	0.00% (100.00%)	The percentage of the portfolio's market value exposed to issuers with fossil fuels related activities, including extraction, processing, storage and transportation of petroleum products, natural gas, and thermal and	For more information please refer to the Trium Sustainable Innovators Global Equity Fund's Voting Policy and Voting Report. Exclusions: The Trium Sustainable Innovators Global Equity Fund has defined normative, activity-based and sector-based exclusion rules covering some of the key adverse sustainability indicators listed by the Sustainable Finance Disclosure Regulation (SFDR).
5 Share of non-renewable energy consumption and production	Share of non-renewable energy consumption and production	56.22% (65.04%)	78.98% (92.15%)	The portfolio's weighted average of issuers' energy consumption and/or production from non-renewable sources as a percentage of total energy used and/or generated.	Controversy monitoring: The Trium Sustainable Innovators Global Equity Fund uses third-party data to identify controversies and establish their level of severity.
6 Energy consumption intensity per high impact climate sector	NACE Code A (Agriculture, Forestry and Fishing)	N/A (75.56%)	N/A (84.96%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code A (Agriculture, Forestry and Fishing)	

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
	NACE Code B (Mining and Quarrying)	N/A (75.56%)	N/A (84.96%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code B (Mining and Quarrying)	This approach is then supplemented by an in-depth analysis of the scope of of controversies, carried out by analysts, and a periodic review of developments. In the most severe and repeated cases, when no credible corrective action is taken, the investment team may divest from the holding. Monitoring: Calculation and evaluation of Principal Adverse Impact indicators, including in the regular reporting at financial product level. Some of these indicators may have explicit targets and can be used to measure the attainment of the sustainable investment objective of the product.
	NACE Code C (Manufacturing)	0.06 (75.56%)	0.39 (84.96%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code C (Manufacturing)	
	NACE Code D (Electricity, Gas, Steam and Air Conditioning Supply)	N/A (75.56%)	N/A (84.96%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code D (Electricity, Gas, Steam and Air Conditioning Supply)

	Number of investee countries subject to social violations (relative number divided by all investee countries), as referred to in international treaties and conventions, United Nations principles and, where applicable,	0.00% (100.00%)	0.00% (0.00%)	The portfolio's number of unique sovereign issuers with European External Action Service (EEAS) restrictive measures (sanctions) on imports and exports	

ADDITIONAL INDICATORS FOR SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTI-CORRUPTION AND ANTI-BRIBERY MATTERS

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
4 Investments in companies without carbon emission reduction initiatives	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement	19.01% (100.00%)	27.45% (100.00%)	The percentage of the portfolio's market value exposed to issuers without a carbon emissions reduction target aligned with the Paris Agreement.	

ADDITIONAL INDICATORS FOR SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTI-CORRUPTION AND ANTI-BRIBERY MATTERS

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
8 Excessive CEO pay ratio	Average ratio within investee companies of the annual total compensation for the highest compensated individual to the median annual total compensation for all employees (excluding the highest compensated individual)	371 (80.69%)	228 (74.82%)	The portfolio's weighted average of issuers' ratio of CEO pay to average employee pay.	

ADDITIONAL INDICATORS FOR SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTI-CORRUPTION AND ANTI-BRIBERY MATTERS

Actions taken, and actions planned and targets set for the next reference period

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
14 Number of identified cases of severe human rights issues and incidents	Number of cases of severe human rights issues and incidents connected to investee companies on a weighted average basis	0.00% (100.00)	0.00% (98.56%)	The portfolio's weighted average of issuers' number of Severe and Very Severe controversy cases in the last three years related to human rights violations issues.	

Data Sources and Quality of Data

Trium funds combine several data sources for its research. Each data source is analysed to evaluate data quality and relevance. Based on this analysis, Trium has chosen what we consider to be the strongest provider for each PAI. The specific Principal Adverse Impact indicators that are taken into consideration are subject to data quality and availability. They may evolve with improving data quality and availability. Trium undertake periodic reviews of data sources to continue to ensure the best-possible quality of data according to our analysis. The selection of data sources may change at any time.

This document has been issued by Trium Capital LLP (“Trium”) which is authorised and regulated by the Financial Conduct Authority in the UK (register number 497640), registered in the USA with the National Futures Association as a CPO and CTA (registered number 0477553) and is a registered investment advisor with the Securities and Exchange Commission (“SEC”) in the United States CRD# 306112/SEC#: 801-122997. Trium is a limited liability partnership registered in England, No. OC343790. Registered Office: 60 Gresham Street, London EC2V 7BB, UK. This document is for professional investors and market counterparties only.

The Trium Sustainable Innovators Global Equity Fund and Trium Sustainable Innovators North American Equity Fund are UCITS sub-funds of the Irish-domiciled Trium UCITS Platform PLC and is managed by Trium Capital LLP, which is authorised and regulated by the UK Financial Conduct Authority. Applications for shares in any sub-fund of the Trium UCITS Platform plc (the “Fund”) should not be made without first consulting the Fund’s current Prospectus, KIID, Annual Report and Semi-Annual Report (“Offering Documents”), or other documents available in your local jurisdiction which are available free of charge from Trium Capital LLP. This information has been prepared solely for information purposes and is not an offer to buy or sell or a solicitation of an offer to buy or sell any security or instrument or to participate in any particular trading strategy.

Trium UCITS Platform Plc is an Irish domiciled open-ended investment company with variable capital structured as an umbrella fund with segregated liability between its Funds under the laws of Ireland and authorised and regulated by the Central Bank of Ireland. The UCITS Management Company for Trium UCITS Platform Plc is Trium Ireland Ltd, authorised and regulated by the Central Bank of Ireland (register number: C189295).

Trium’s products and services are available to persons who are classified as professional clients and eligible market counterparties as defined in FCA’s rules. They are not available to retail clients. In certain jurisdictions a Trium product may only be available to professional or otherwise qualified investors or entities. This document is not intended for distribution to, or use by any person or entity in any jurisdiction or country where such distribution or use would be contrary to local law or regulation. The distribution of this document and/or the information contained herein in certain jurisdictions may be restricted, and, accordingly, it is the responsibility of any recipient to satisfy itself as to compliance with relevant laws and regulations.

In the United States or for the account of U.S. Persons, this document is intended only for persons who are “qualified purchasers”, as defined in the United States Investment Company Act of 1940.

This document may not be divulged to any other person, reproduced or transmitted without the express written permission of Trium. The information contained in this document is strictly confidential and is intended only for use of the person to whom Trium has provided the material.

An investment in any Fund may not be suitable for all investors. An investment in any Fund will be suitable only for certain financially sophisticated investors who meet certain eligibility requirements, have no need for immediate liquidity in their investment, and can bear the risk of an investment in a Fund for an extended period of time.

This document is intended for discussion purposes only and does not create any legally binding obligations on the part of Trium. Without any limitation, this document does not constitute an offer, or invitation to offer or a recommendation to invest in a fund or managed account. These materials were designed for use by specific persons familiar with your business and affairs and Trium assumes no obligation to update or otherwise revise these materials. Nothing contained herein should be construed as tax, accounting or legal advice nor is it to be relied upon in making an investment decision.

This document (in whole or in part) does not take into account the particular investment objectives or financial circumstances of any recipient and does not constitute the provision of investment advice or a recommendation. Before investing you should make an independent investigation of the fund or managed account. You should ensure that you fully understand its potential risks and rewards and independently determine that it is appropriate for you given your objectives, experience, financial and operational resources, and other relevant circumstances. You should consult with your tax, legal, accounting or other such advisors as you deem necessary to assist you in making these determinations and the possible consequences for an investment in the Fund and the risks involved. Any indicative terms provided to you are provided for your information and do not constitute an offer, a solicitation of an offer, or any advice or recommendation to invest in a fund or managed account (whether on the indicative terms or otherwise).

Trium is not acting as financial adviser or fiduciary to any party to whom it delivers this document or who invests in a fund or managed account.

Investors are reminded that past results are not necessarily indicative of future results. The information contained herein is preliminary, is provided for discussion purposes only, is only a summary of key information, is not complete, does not contain certain material information about the funds mentioned herein (each a “Fund”), including important conflicts disclosures and risk factors associated with investments in the Funds, and is subject to change without notice.

Investing in financial markets involves a substantial degree of risk. Investment losses may occur, and investors could lose some or all of their investment. No guarantee or representation is made that a Fund's investment program, including, without limitation, its diversification strategies, or risk monitoring goals, will be successful. Investment results may vary substantially over time. Investment losses may occur from time to time. Nothing herein is intended to imply that a Fund's investment methodology may be considered "conservative", "safe", "risk free" or "risk averse". Economic, market and other conditions could also cause any Fund to alter its investment objectives, guidelines, and restrictions.

Although the above information has been taken from sources which Trium believe to be accurate, no warranty or representation is made as to the correctness, completeness and accuracy of the information or the assessments made on its basis.

Any performance data is based on a fund's or an account's actual or expected net asset value in accordance with the valuation methodology in its prospectus. Performance may be impacted by capital contributions and withdrawals and unless otherwise stated is net of management, performance and other fees as described herein and includes reinvestment of earnings. The fund's or account's fees may be modified or waived for certain investors as described in its prospectus or other governing document. An investor's actual performance and actual fees may differ from the data reflected herein.

Results of the net performance mentioned herein reflect the reinvestment of dividends, gains and other earnings.

An investment in a Trium Fund involves a number of risks that is outlined in the Fund's Prospectus. There can be no guarantee that a Trium Fund's investment objectives will be achieved, and the investment results may vary substantially from year to year or even from month to month. It may engage in investment practices or trading strategies that may increase the risk of investment loss and a loss of principal may occur. Trium may in some of the Trium Funds have total trading authority over such Fund, and the Fund will be dependent upon the services of Trium. The Fund's fees and expenses as described in the Fund's Prospectus may offset the Fund's gains. In addition, there may be restrictions on transferring interests in the Fund. Please refer to the Fund's Prospectus for additional information.

Any Fund prospectus (each a "Prospectus") qualifies the information contained herein in its entirety and no person should make an investment decision in reliance upon the information contained herein. In the event of any discrepancies between the information contained herein and a Prospectus, the Prospectus will control.

The information contained in this document is preliminary and is qualified and superseded by the prospectus for the fund or governing document for the managed account to which it relates, and in particular the risk factors and information on conflicts of interest described therein, and any investment decision should only be made following consideration of that prospectus or other document.

This document is not intended to be, nor should it be construed or used as an offer to sell, or a solicitation of any offer to buy, interests or shares in any Fund mentioned herein.

An offer or solicitation will only be made by means of a Prospectus (the "Prospectus") which will contain additional information about the relevant Fund, including disclosures relating to risk factors and conflicts of interest. The relevant Prospectus may be obtained on request from Trium.

Future returns are not guaranteed and a loss of principal may occur. Performance may be affected by economic and market conditions.

Comparisons to any index noted in this document are for purposes of comparison only, there will not necessarily be correlation between the Fund's return and the indices mentioned herein.

Information about market indices is provided for the purpose of making general market data available as a point of reference only. There is no representation that any index is an appropriate benchmark for comparison. Index returns do not take into account trading commissions and costs or other fees and expenses associated with the active management of portfolios. The volatility of indices may be materially different from the performance of the Fund. The Fund's holdings may differ substantially from the securities that comprise the indices. Furthermore, the Fund may invest in different trading strategies from the indices and therefore it should be noted that the sector, industry, stock and country exposures, volatility, risk characteristics and holdings of the Fund may differ materially from those of the indices. The performance returns of the indices include the reinvestment of earnings and are obtained from Bloomberg and other third party sources. Although Trium believes these sources to be reliable, it is not responsible for errors or omissions from these sources.

IMPORTANT NOTICE FOR MARKETING COMMUNICATIONS

This is a marketing communication. Please refer to the Offering Documents of the relevant fund, or where applicable to the KIID before making any final investment decisions.

This communication is only being made available to and is only directed at persons in the United Kingdom or EEA who are professionals, defined as Eligible Counterparties, or Professional Clients, within the meaning of the rules of the Financial Conduct Authority.

Under no circumstances should any information contained in this communication be regarded as an offer or solicitation to deal in investments in any jurisdiction. This communication is not aimed at US investors.

Where risks or rewards of purchasing units in any fund are referenced, please refer to the risks outlined in either the KIID or Offering Documents. Any fund managed by Trium Capital LLP will be subject to, inter alia, the following risks:

- Market price risk: any investment fund is subject to fluctuations in the value of its investments. For UCITS funds, an indicator of market risk is set out in the Fund's Synthetic Risk Reward Indicator (SRRRI), which is available in the Fund's KIID.
- FX Risk: investments in the Fund may be subject to fluctuations in FX.
- Derivatives & leverage risk: derivatives can change in value rapidly and may cause losses to any investment fund
- Credit Risk: the Fund is exposed to the risk that the issuer of any debt securities invested in meeting its obligations.
- Counterparty/Custodial Risk: a counterparty with whom a Fund contracts or a custodian holding a Fund's holding assets may fail to meet its obligations or become bankrupt, which may expose that Fund to a financial loss.
- Liquidity Risk: is the risk that there are insufficient buyers or sellers of a given investment to allow an investment fund to readily trade which may impact the Fund's performance or (in extreme circumstances) an investor's ability to redeem.
- Operational Risk: human error, system and/or process failures, inadequate procedures or controls can cause losses to any investment fund

The costs associated with Trium Sustainable Innovators Global Equity fund, and Trium Sustainable Innovators North American Equity Fund, include on-going charges of 0.6%.

Where any performance is referenced, please note that past performance is not a reliable indicator of future returns.

Where simulated or scenario-based performance is referenced, please note that the scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and/or current market conditions and are not an exact indicator. What you will receive will vary depending on how the market performs and how long you keep the investment/product.

In the United Kingdom, this material is a financial promotion and is issued by Trium Capital LLP, which is authorised and regulated in the United Kingdom by the Financial Conduct Authority.

<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 100% <ul style="list-style-type: none"> <input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent was the sustainable investment objective of this financial product met?

The sustainable investment objective of the Trium Climate Impact Fund (“TCIF”) was met to a great extent during the period. TCIF invests in companies that provide environmental solutions as their primary activity and focuses on the renewable energy, waste, water, circular economy solutions, clean transportation, energy efficiency, environmental infrastructure and agriculture sectors.

TCIF invests in “sustainable investments”, which are defined as those investments that contribute to an environmental objective (apart from a portion of investments used for liquidity and hedging purposes). TCIF define sustainable investments as companies with greater than 25% of sales in climate-focused activities. TCIF observes minimum environmental, social and governance safeguards in relation to all assets of TCIF and takes no positions, long or short, in companies which are non-compliant with UN Global Compact Principles according to ESG Data provider MSCI.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainability indicators perform?***

Please refer to separate Principal Adverse Impact Statement for TCIF included in this annual report.

● ***...and compared to previous periods?***

Please refer to separate Principal Adverse Impact Statement for TCIF included in this annual report for the year ended 31 December 2023.

● ***How did the sustainable investments not cause significant harm to any sustainable investment objective?***

The sustainable investments which TCIF made throughout the period have contributed to a sustainable investment objective and not significantly harmed any of the sustainable investment objectives owing to careful analysis by the Investment Manager of the nature, characteristics and prospects of said sustainable investments.

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

Please refer to separate Principal Adverse Impact Statement for TCIF included in this annual report.

— ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?***

TCIF's investments are aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights as TCIF expressly excludes any companies which are violation of those guidelines/principles as defined by ESG data provider MSCI. Further, TCIF does not invest in companies in breach of the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights as defined by ESG data provider MSCI.

How did this financial product consider principal adverse impacts on sustainability factors?

Please refer to separate Principal Adverse Impact Statement for TCIF included in this annual report.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
COMPAGNIE DE SAINT	Industrials	3.58%	France
Schneider Electric Se	Industrials	2.56%	France
SSE PLC	Utilities	2.52%	United Kingdom
REPUBLIC SERVICES INC	Industrials	2.22%	United States
TRANE TECHNOLOGIES PLC	Industrials	2.18%	United States
ANDRITZ AG	Industrials	2.12%	Austria
E.ON SE	Utilities	2.06%	Germany
UPM-KYMMENE OYJ	Materials	1.83%	Finland
LEGRAND SA	Industrials	1.82%	France
NEXTERA ENERGY INC	Utilities	0.02%	United States

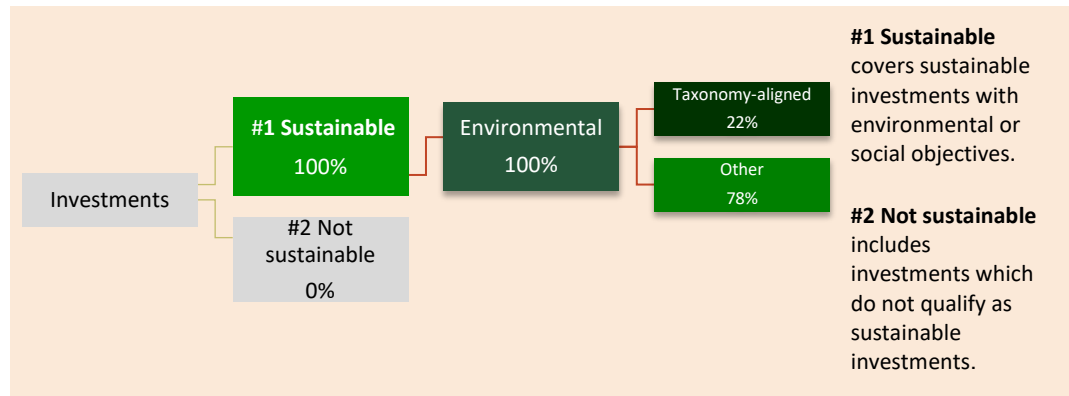

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **01/01/2023-31/12/2023**

This schedule of investments is taken from a point in time, 29/12/2023, and excludes CFDs and the small amount of cash held for liquidity purposes (5.48% of NAV at year end) and for hedging investments in the short portfolio.

What was the proportion of sustainability-related investments?

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

● In which economic sectors were the investments made?

TCIF's investments are made in the following sectors, and subsectors:

Industry Group	Long (%)	Net (%)	Gross (%)
Capital Goods	28.52%	10.00%	47.04%
Utilities	20.63%	7.37%	33.90%
Materials	5.80%	0.81%	10.79%
Commercial & Professional Services	4.92%	0.82%	9.02%
Food, Beverage & Tobacco	2.50%	1.56%	3.43%

Semiconductors & Semiconductor Equipment	1.41%	0.83%	1.99%
Technology Hardware & Equipment	1.97%	1.06%	2.87%
Automobiles & Components	1.53%	0.39%	2.68%
Consumer Durables & Apparel	0.79%	-1.35%	2.92%
Others	0.23%	0.23%	0.23%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

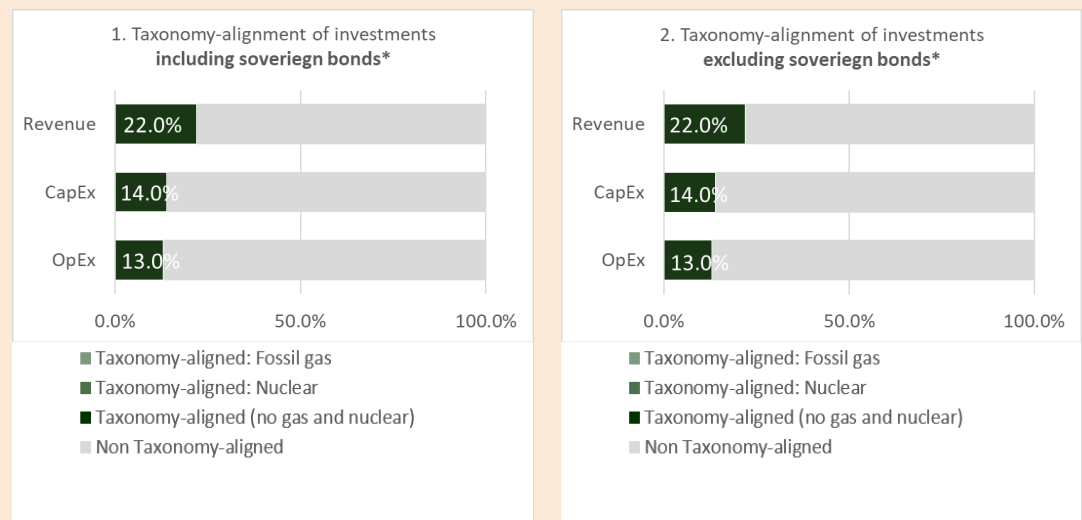

- Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

 In fossil gas In nuclear energy

 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

TCIFs invests in “sustainable investments”, which are defined as those investments that contribute to an environmental objective (apart from a portion of investments used for liquidity and hedging purposes). During the reference period, 6% of TCIF’s investments were made in transitional and enabling activities which are also aligned with the EU Taxonomy.

● **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods**

The percentage of investments that were aligned with the EU Taxonomy rose from 16.8% in 2022 to 22% in 2023.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

TCIF invests in “sustainable investments”, which are defined as those investments that contribute to an environmental objective (apart from a portion of investments used for liquidity and hedging purposes). During the reference period, 78% of TCIF’s investments were not aligned with the EU taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of socially sustainable investments?

TCIF does not define a minimum proportion of socially sustainable investment. TCIF invests in “sustainable investments”, which are defined as those investments that contribute to an environmental objective (apart from a portion of investments used for liquidity and hedging purposes). TCIF observes minimum environmental, social and governance safeguards in relation to all assets of TCIF and takes no positions, long or short, in companies flagged by ESG Data provider MSCI as non-compliant with UN Global Compact Principles.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

All of the investments TCIF are made to further the environmental objective of reducing emissions as detailed above and in the Supplement, save for a small amount of cash held for liquidity purposes (5.48% of NAV at year end) and for hedging investments in the short portfolio.

What actions have been taken to attain the sustainable investment objective during the reference period?

Details of shareholder engagement

The IM engages directly with the board, executive management, and/or sustainability team of TCIF's portfolio holdings. The main aim of engagement across all companies is increased disclosure. Engagements are typically carried out via meetings with the relevant company representatives or through written letters.

The IM generally approves of TCIF's portfolio holdings' primary business activities, strategy, and management. Otherwise, as the strategy dictates, they would not be held in the Fund. However, the IM believes that environmental solutions companies should be leaders in disclosure, and better corporate disclosure overall will lead to better corporate actions. The IM engages with companies to increase disclosure, considering the environmental theme, sector, geography, and maturity of the company and relevant regulations.

With regards to voting, the IM is mainly focused on executive compensation and gender diversity on boards. The IM believes that companies involved in environmental sectors should be leaders in incorporating ESG in management compensation. Unlike many funds, the IM believes that directly linking management compensation to the stock price leads to poor outcomes in the long run. This is especially true in environmental sectors, with changes in interest rates, energy prices, and government environmental policies having an enormous influence on stock prices on a 12-month view. The IM also believes that absolute levels of CEO compensation are too high across almost all listed public companies, and that voting against the executive compensation of TCIF's holdings will force engagement on these topics. Voting in favour of executive compensation just because the stock increased in value and the Fund benefited is not going to improve executive compensation on a system-wide basis.

How did this financial product perform compared to the reference benchmark?

The Fund does not have a specific designated reference index to compare sustainability performance.

- **How does the reference benchmark differ from a broad market index?**
N/A
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
N/A
- **How did this financial product perform compared with the reference benchmark?**
N/A
- **How did this financial product perform compared with the broad market index?**
N/A

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Trium Climate Impact Fund

SFDR Report: Principle Adverse Sustainability Impacts Statement

Reported Period: 2 January - 29 December 2023

Summary

Trium Capital considers principal adverse impacts of its investment decisions on sustainability factors. The present statement is the consolidated principal adverse sustainability impacts statement of Trium Climate Impact Fund.

This principal adverse impacts statement covers the reference period from 2 January to 29 December 2023.

The below PAI disclosure is an unaudited part of the UCITS Annual Report.

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
Greenhouse gas emissions	1 GHG Emissions Scope 1 GHG Emissions	-3951.44 (94.07%)	2103.82 (92.21%)	Sum of portfolio companies' Carbon Emissions - Scope 1 (tCO ₂ e) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash.	The Trium Climate Impact Fund considers all the mandatory PAIs applicable to the Fund's strategy and relies on a combination of the approaches mentioned below. Further information on how the Trium Climate Impact Fund considers PAIs through binding investment commitments or processes can be found in the pre-contractual disclosures and periodic reporting. The Trium Climate Impact Fund also has additional policies and reports available (e.g. Engagement report) with further information on the actions taken by the Fund, which can be made available to investors upon request.
	Scope 2 GHG Emissions	46.00 (93.22%)	-52.70 (89.84%)	Sum of portfolio companies' Carbon Emissions - Scope 2 (tCO ₂ e) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash.	

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
	Scope 3 GHG Emissions	-6,819.09 (93.76%)	-2,853.44 (90.71%)	Sum of portfolio companies' Scope 3 - Total Emission Estimated (tCO2e) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash.	Engagement: Trium believes that engagement is an effective tool for achieving meaningful change, and we are committed to engaging with companies on a wide range of topics. We encourage management to adopt appropriate policies, activities and disclosure in line with established best practices. The Trium Climate Impact Fund engages with companies on ESG issues, interactions typically involve a combination of face-to-face meetings, video calls, telephone calls and written communication. When an ESG issue is identified, we will usually raise it directly with investor relations, sustainability experts, company management or executive or non-executive directors.
	Total GHG Emissions	-10,665.31 (92.02%)	-5,005.64 (87.02%)	The total annual Scope 1, Scope 2, and estimated Scope 3 GHG emissions associated with the market value of the portfolio. Companies' carbon emissions are apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).	

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Greenhouse Gas Emissions

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
2 Carbon Footprint	Carbon Footprint	-477.67 (94.61%)	-857.51 (93.12%)	The total annual Scope 1, Scope 2, and estimated Scope 3 GHG emissions associated with 1 million EUR invested in the portfolio. Companies' carbon emissions are apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).	Collaborative engagement is also used by the Trium Climate Impact Fund to aid driving more leverage to internal corporate drivers on ESG issues due to larger collective assets under management working together or higher perceived ESG expertise of the investor group. Trium conduct general collective engagement through two non-profit organisations, The CDP and The Investor Forum.
3 GHG intensity of investee company	GHG intensity of investee company	-602.10 (94.29%)	-904.78 (90.98%)	The portfolio's weighted average of its holding issuers' GHG Intensity (Scope 1, Scope 2 and estimated Scope 3 GHG emissions/EUR million revenue).	Voting: The Trium Climate Impact Fund's voting policy responds to a holistic analysis of all the long-term issues that may influence value creation, including material ESG issues.

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Greenhouse Gas Emmissions

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
4 Exposure to companies active in the fossil fuel sector	Share of investments in companies active in the fossil fuel sector	-9.31% (94.87%)	-19.46% (95.38%)	The percentage of the portfolio's market value exposed to issuers with fossil fuels related activities, including extraction, processing, storage and transportation of petroleum products, natural gas, and thermal and	For more information please refer to the Trium Climate Impact Fund's Voting Policy and Voting Report. Exclusions: The Trium Climate Impact Fund has defined normative, activity-based and sector-based exclusion rules covering some of the key adverse sustainability indicators listed by the Sustainable Finance Disclosure Regulation (SFDR).
5 Share of non-renewable energy consumption and production	Share of non-renewable energy consumption and production	-5.20% (76.04%)	-22.19% (81.34%)	The portfolio's weighted average of issuers' energy consumption and/or production from non-renewable sources as a percentage of total energy used and/or generated.	Controversy monitoring: The Trium Climate Impact Fund uses third-party data to identify controversies and establish their level of severity. This approach is then supplemented by an in-depth analysis of the scope of of controversies,
6 Energy consumption intensity per high impact climate sector	NACE Code A (Agriculture, Forestry and Fishing)	N/A (78.47%)	N/A (82.83%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code A (Agriculture, Forestry and Fishing)	

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
	NACE Code B (Mining and Quarrying)	-0.05 (78.47%)	-4.41 (82.83%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code B (Mining and Quarrying)	carried out by analysts, and a periodic review of developments. In the most severe and repeated cases, when no credible corrective action is taken, the investment team may divest from the holding.
	NACE Code C (Manufacturing)	0.14 (78.47%)	2.61 (82.83%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code C (Manufacturing)	Monitoring: Calculation and evaluation of Principal Adverse Impact indicators, including in the regular reporting at financial product level. Some of these indicators may have explicit targets and can be used to measure the attainment of the sustainable investment objective of the product.
	NACE Code D (Electricity, Gas, Steam and Air Conditioning Supply)	-0.51 (78.47%)	-4.74 (82.83%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code D (Electricity, Gas, Steam and Air Conditioning Supply)	

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
	NACE Code E (Water Supply; Sewerage, Waste Management and Remediation Activities)	0.06 (78.47%)	0.61 (82.83%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code E (Water Supply; Sewerage, Waste Management and Remediation Activities)	The priority of the Fund is climate, with a focus on decarbonisation, waste, water, circular economy, and bio-based solutions. As such, we concentrate on Principal Adverse Indicators (“PAI”) in relation to emissions, including PAI 1, 2, and 3. In parallel, we review PAIs such as 7, 8, and 9, but these fields tend to have lower data availability and less consistency when compared to emissions.
	NACE Code F (Construction)	0.00 (78.47%)	-0.18 (82.83%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code F (Construction)	The Fund aims to invest in environmental solutions companies which may operate in industries with a noticeable carbon intensity. For example, manufacturing insulation or wind turbines have an associated carbon footprint, but on a life-cycle basis these products will lower global emissions via abatement. Therefore, we consider portfolio emissions in relation to avoided emissions, and aim that avoided is significantly greater than direct.
	NACE Code G (Wholesale and Retail Trade; Repair of Motor Vehicles and Motorcycles)	0.03 (78.47%)	0.21 (82.83%)	The fund's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code G (Wholesale and Retail Trade; Repair of Motor Vehicles and Motorcycles)	

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
	NACE Code H (Transportation and Storage)	-0.07 (78.47%)	-2.96 (82.83%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code H (Transportation and Storage)	The PAI emissions data supplied in the SFDR disclosure is from the previous reporting year. Therefore, the data provides only a snapshot of each company's emissions trajectory. We consider both a company's historical trend and its plans and ability to cut emissions in the future.
	NACE Code L (Real Estate Activities)	0.00 (78.47%)	-1.16 (82.83%)	The portfolio's weighted average of Energy Consumption Intensity (GwH/million EUR revenue) for issuers classified within NACE Code L (Real Estate Activities)	<p>We prefer companies that can grow sales while cutting emissions. Alongside this, we look favourably on emissions strategies which are Paris-aligned and validated science-based targets. As such, our focus is on companies that can continue to grow sales but offer low-carbon products, rather than divest high-emitting, energy-intensive industrial activities.</p> <p>On an individual issuer level, we expect carbon intensity to improve over time for individual companies.</p>

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
Biodiversity	7 Activities negatively affecting biodiversity-sensitive areas	-0.04% (0.03%)	-0.24% (95.38%)	<p>The percentage of the portfolio's market value exposed to issuers' that reported having operations in or near biodiversity sensitive areas and have been implicated in controversies with severe or very severe impacts on the environment.</p>	<p>However, on an aggregated portfolio level, carbon intensity improvement could be lower if we rotate into companies which are beginning their emissions reduction journey rather than those completing it.</p> <p>PAI 4: The Fund's exposure will be lower relative to market indices given the focus on environmental solutions. We accept a considerable number of utilities and independent power producers may have exposure to legacy fossil fuel distribution and power generation assets, despite capital expenditures focused on renewables.</p> <p>PAI 5: The Fund invests in both power producers and consumers. For producers, we prefer companies with a high percentage of renewable production.</p>

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period	
Water	8 Emissions to water	Tonnes of emissions to water generated by investee companies per million EUR invested, expressed as a weighted average	1.69 (1.95%)	13.67 (9.32%)	The total annual wastewater discharged (metric tons reported) into surface waters as a result of industrial or manufacturing activities associated with 1 million EUR invested in the portfolio . Companies' water emissions are apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).	<p>PAI 5 cont.: For energy consumers, we accept policy, industry and geography materially influence percentage of non-renewable consumption, alongside company initiatives to reduce scope 2 emissions.</p> <p>PAI 6: We believe assessing energy intensity per unit of revenue for a range of sectors provides an important efficiency metric. However, the NACE Codes provided, such as Code C (Manufacturing) are too broad, impeding comparability. Where possible, we consider energy intensity on a product or output basis.</p>
Waste	9 Hazardous waste ratio	Tonnes of hazardous waste generated by investee companies per million EUR invested, expressed as a weighted average	-0.55 (45.45%)	-13.77 (46.48%)	The total annual hazardous waste (metric tons reported) associated with 1 million EUR invested in the portfolio. Companies' hazardous waste is apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).	<p>PAI 7: We have engaged with external consultants to develop a framework regarding biodiversity. In parallel, there is a need to encourage portfolio companies to improve data availability and consistency. We believe this data point will become increasingly important for industry, policy, and consumers.</p>

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period	
Social and Employee Matters	10 Violations of UN Global Compact principles and Organisation for Economic Cooperation	Share of investments in investee companies that have been involved in violations of the	-0.08% (95.15%)	-0.41% (94.01%)	<p>The percentage of the portfolio's market value exposed to issuers with very severe controversies related to the company's operations and/or products.</p>	<p>PAI 8: There is limited coverage and inconsistency in methodology for emissions to water. We engage with portfolio companies to improve both data availability and consistency. As we are focused on industrial companies, we accept some emissions to water within the portfolio as is typical in industrial processes. We expect companies to minimise emissions to water over time and we recognise environmental regulation as a driver of change.</p> <p>PAI 9: Similarly to PAI 8, there is limited data availability for PAI 9, and we are uncertain of consistency in methodology of reporting companies. We engage with portfolio companies to improve data availability and consistency. Hazardous waste generation is most common in industrial companies and waste collection companies. We expect companies to minimise this ratio over time. Companies with no industrial activities will not have any direct hazardous waste.</p>

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
11 Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance /complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	7.41% (92.86%)	-17.42% (86.95%)	The percentage of the portfolio's market value exposed to issuers that are not signatories in the UN Global Compact.	<p>PAI 10: We expect to have no companies with UNGC violations in the portfolio. We accept some data providers flag violations via controversy-based screens rather than actual breaches. We will investigate if the violation has been remedied, else we will divest the company.</p> <p>PAI 11: We expect all portfolio companies to have mechanisms in place to monitor compliance with International Labour Organization (ILO) standards, United Nations Guiding Principles (UNGPs), United Nations Global Compact (UNGC) Principles and the Organization for Economic Co-operation, and Development (OECD) Guidelines for Multinational Enterprises. We accept some data providers assess company policy statements as a proxy for internal processes.</p>

INDICATORS APPLICABLE TO INVESTMENTS IN INVESTEE COMPANIES

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
12 Unadjusted gender pay gap	Average unadjusted gender pay gap of investee companies	-0.67% (22.54%)	-4.16% (21.39%)	The portfolio holdings' weighted average of the difference between the average gross hourly earnings of male and female employees, as a percentage of male gross earnings.	PAI 12: There is limited coverage and inconsistency for PAI 12. Gender pay gap reporting is only required in a few regions. We accept data providers may take only a portion of employee pay gap (such as in a mandatory jurisdiction) and judge this as representative across countries of operation for a single issuer. We recognize unadjusted gender pay gap is not a perfect or complete measure of equality, but we still monitor this for lack of gender equality within our portfolio companies.
13 Board gender diversity	Average ratio of female to male board members in investee companies	0.85% (94.92%)	2.23% (93.74%)	The portfolio holdings' weighted average of the ratio of female to male board members.	
14 Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	Share of investments in investee companies involved in the manufacture or selling of controversial weapons	-0.24% (94.98%)	0.00% (95.38%)	The percentage of the portfolio's market value exposed to issuers with an industry tie to landmines, cluster munitions, chemical weapons or biological weapons. Note: Industry ties includes ownership, manufacturing and investments. Ties to landmines do not include related safety products.	PAI 13: We look at this on individual company basis and on a portfolio level. The portfolio level metrics can incorporate a broad range of percentages throughout companies, with geographic location playing a strong influence on this figure. We will engage on this topic where appropriate. We expect to see this number converge to roughly 50% across the portfolio over time.

INDICATORS APPLICABLE TO INVESTMENTS IN SOVEREIGNS AND SUPRANATIONALS

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period	
Environmental	15 GHG Intensity	GHG intensity of investee countries	0.00% (0.00%)	0.00% (0.00%)	The portfolio's weighted average of sovereign issuers' GHG Emissions Intensity (Scope 1, 2 and 3 emissions/EUR M GDP)	PAI 14: We expect zero exposure to controversial weapons. There may be data errors in this fields and we will investigate further. We will engage on these topics, and if there is a false positive in MSCI reporting, we will discuss this with MSCI.
Social	16 Investee countries subject to social violations	Number of investee countries subject to social violations (absolute number), as referred to in international treaties and conventions, United Nations principles and, where applicable, national law	0.00% (0.00%)	0.00% (0.00%)	The portfolio's number of unique sovereign issuers with European External Action Service (EEAS) restrictive measures (sanctions) on imports and exports	

INDICATORS APPLICABLE TO INVESTMENTS IN SOVEREIGNS AND SUPRANATIONALS

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
	Number of investee countries subject to social violations (relative number divided by all investee countries), as referred to in international treaties and conventions, United Nations principles and, where applicable, national law	0.00% (0.00%)	0.00% (0.00%)	The portfolio's number of unique sovereign issuers with European External Action Service (EEAS) restrictive measures (sanctions) on imports and exports	

ADDITIONAL CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
9 Investments in companies producing chemicals	Share of investments in investee companies the activities of which fall under Division 20.2 of Annex I to Regulation (EC) No 1893/2006	0.08% (95.91%)	0.65% (96.31%)	The percentage of the portfolio's market value exposed to issuers classified as manufacturers of pesticides and other agrochemical products by NACE Group (NACE Group Code 20.2).	<p>Voluntary PAI Disclosures Additional Climate and Other Environment-Related Indicator PAI 9: 'Investments in Companies Producing Chemicals' Additional Social and Employee, Respect for Human Rights, Anti-Corruption and Anti-Bribery Indicator PAI 14: 'Number of Identified Cases of Severe Human Rights Issues and Incidents'.</p> <p>Both topics are critical for success in climate action, as many chemicals are used processes in decarbonisation, waste, and water. Monitoring human rights is essential both as a "do no significant harm" criteria and as part of "license to operate" globally.</p>

ADDITIONAL INDICATORS FOR SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTI-CORRUPTION AND ANTI-BRIBERY MATTERS

Actions taken, and actions planned and targets set for the next reference period

Adverse Sustainability Indicator	Metric	Impact 2023	Impact 2022	Explanation	Actions taken, and actions planned and targets set for the next reference period
14 Number of identified cases of severe human rights issues and incidents	Number of cases of severe human rights issues and incidents connected to investee companies on a weighted average basis	0.00% (95.43%)	0.00% (94.10%)	The portfolio's weighted average of issuers' number of Severe and Very Severe controversy cases in the last three years related to human rights violations issues.	

Data Sources and Quality of Data

Trium funds combine several data sources for its research. Each data source is analysed to evaluate data quality and relevance. Based on this analysis, Trium has chosen what we consider to be the strongest provider for each PAI. The specific Principal Adverse Impact indicators that are taken into consideration are subject to data quality and availability. They may evolve with improving data quality and availability. Trium undertake periodic reviews of data sources to continue to ensure the best-possible quality of data according to our analysis. The selection of data sources may change at any time.

Climate and other environment-related indicators

PAI 1. GHG emissions	MSCI
PAI 2. Carbon footprint	MSCI
PAI 3. GHG intensity of investee companies	MSCI

This document has been issued by Trium Capital LLP (“Trium”) which is authorised and regulated by the Financial Conduct Authority in the UK (register number 497640), registered in the USA with the National Futures Association as a CPO (registered number 0477553) and is a registered investment advisor with the Securities and Exchange Commission (“SEC”) in the United States CRD# 306112/SEC#: 801-122997. Trium is a limited liability partnership registered in England, No. OC343790. Registered Office: 60 Gresham Street, London EC2V 7BB, UK. This document is for professional investors and market counterparties only.

The Trium Climate Impact Fund is a UCITS sub-fund of the Irish-domiciled Trium UCITS Platform PLC and is managed by Trium Capital LLP, which is authorised and regulated by the UK Financial Conduct Authority. Applications for shares in any sub-fund of the Trium UCITS Platform plc (the “Fund”) should not be made without first consulting the Fund’s current Prospectus, KIID, Annual Report and Semi-Annual Report (“Offering Documents”), or other documents available in your local jurisdiction which are available free of charge from Trium Capital LLP. This information has been prepared solely for information purposes and is not an offer to buy or sell or a solicitation of an offer to buy or sell any security or instrument or to participate in any particular trading strategy. Trium UCITS Platform Plc is an Irish domiciled open-ended investment company with variable capital structured as an umbrella fund with segregated liability between its Funds under the laws of Ireland and authorised and regulated by the Central Bank of Ireland. The UCITS Management Company for Trium UCITS Platform Plc is Trium Ireland Ltd, authorised and regulated by the Central Bank of Ireland (register number: C189295).

Trium’s products and services are available to persons who are classified as professional clients and eligible market counterparties as defined in FCA’s rules. They are not available to retail clients. In certain jurisdictions a Trium product may only be available to professional or otherwise qualified investors or entities.

In the United States or for the account of U.S. Persons, this document is intended only for persons who are “qualified purchasers”, as defined in the United States Investment Company Act of 1940.

Trium is not acting as financial adviser or fiduciary to any party to whom it delivers this presentation or who invests in a fund or managed account. Trium’s products and services are available to persons who are classified as professional clients and eligible market counterparties as defined in FCA’s rules. They are not available to retail clients. In certain jurisdictions a Trium product may only be available to professional or otherwise qualified investors or entities. This document is not intended for distribution to, or use by any person or entity in any jurisdiction or country where such distribution or use would be contrary to local law or regulation. The distribution of this presentation and/or the information contained herein in certain jurisdictions may be restricted, and, accordingly, it is the responsibility of any recipient to satisfy itself as to compliance with relevant laws and regulations.

This document may not be divulged to any other person, reproduced or transmitted without the express written permission of Trium. The information contained in this document is strictly confidential and is intended only for use of the person to whom Trium has provided the material.

In particular, this presentation (in whole or in part) does not constitute investment advice. Before investing in a fund or managed account you should ensure that you fully understand its potential risks and rewards and independently determine that it is appropriate for you given your objectives, experience, financial and operational resources, and other relevant circumstances. You should consult with such advisors as you deem necessary to assist you in making these determinations. Any indicative terms provided to you are provided for your information and do not constitute an offer, a solicitation of an offer, or any advice or recommendation to invest in a fund or managed account (whether on the indicative terms or otherwise).

This presentation is intended for discussion purposes only and does not create any legally binding obligations on the part of Trium. Without any limitation, this presentation does not constitute an offer, or invitation to offer or a recommendation to invest in a fund or managed account. These materials were designed for use by specific persons familiar with your business and affairs and Trium assumes no obligation to update or otherwise revise these materials. Nothing contained herein should be construed as tax, accounting or legal advice nor is it to be relied upon in making an investment decision.

This document may not be reproduced or transmitted to any other person without the express permission of Trium. Although the above information has been taken from sources which Trium believe to be accurate, no warranty or representation is made as to the correctness, completeness and accuracy of the information or the assessments made on its basis.

The information contained in this document is preliminary and is qualified and superseded by the prospectus for the fund or governing document for the managed account to which it relates, and in particular the risk factors and information on conflicts of interest described therein, and any investment decision should only be made following consideration of that prospectus or other document.

Any performance data is based on a fund’s or an account’s actual or expected net asset value in accordance with the valuation methodology in its prospectus. Performance may be impacted by capital contributions and withdrawals and unless otherwise stated is net of management, performance and other fees as described herein and includes reinvestment of earnings. The fund’s or account’s fees may be modified or waived for certain investors as described in its prospectus or other governing document. An investor’s actual performance and actual fees may differ from the data reflected herein.

Results of the net performance mentioned herein reflect the reinvestment of dividends, gains and other earnings.

Comparisons to any index noted in this document are for purposes of comparison only, there will not

Investors are reminded that past performance should not be seen as an indication of future performance. The information contained herein is preliminary, is provided for discussion purposes only, is only a summary of key information, is not complete, does not contain certain material information about the funds mentioned herein (each a "Fund"), including important conflicts disclosures and risk factors associated with investments in the Funds, and is subject to change without notice.

The information contained herein does not take into account the particular investment objectives or financial circumstances of any recipient and does not constitute the provision of investment advice or a recommendation.

A recipient should make an independent investigation of the investment described herein, including consulting your tax, legal, accounting or other advisors about the matters discussed herein and the possible consequences for an investment in the Fund and the risks involved. An investment in any Fund may not be suitable for all investors. An investment in any Fund will be suitable only for certain financially sophisticated investors who meet certain eligibility requirements, have no need for immediate liquidity in their investment, and can bear the risk of an investment in a Fund for an extended period of time.

This presentation may not be provided to any person in the United States or to any U.S. Person as such term is defined under the Securities Act of 1933 of the USA, as amended. The information contained in this presentation about Trium is not directed to any person in the United States. Funds referred to herein are neither registered under the Securities Act 1933, nor are they registered under the Investment Company Act of 1940. Consequently, they cannot be offered for sale or be sold in the USA, its territories, possessions or protectorates under its jurisdiction, nor to nationals, citizens or residents in any of those areas.

This document is not intended for distribution to, or use by any person or entity in any jurisdiction or country where such distribution or use would be contrary to local law or regulation. The distribution of this presentation and/or the information contained herein in certain jurisdictions may be restricted, and, accordingly, it is the responsibility of any recipient to satisfy itself as to compliance with relevant laws and regulations.

This presentation is not intended to be, nor should it be construed or used as an offer to sell, or a solicitation of any offer to buy, interests or shares in any Fund mentioned herein.

An offer or solicitation will only be made by means of a Prospectus (the "Prospectus") which will contain additional information about the relevant Fund, including disclosures relating to risk factors and conflicts of interest. The relevant Prospectus may be obtained on request from Trium.

Investing in financial markets involves a substantial degree of risk. There can be no assurance that the investment objectives of any Fund described herein will be achieved. Investment losses may occur, and investors could lose some or all of their investment. No guarantee or representation is made that a Fund's investment program, including, without limitation, its diversification strategies, or risk monitoring goals, will be successful. Investment results may vary substantially over time. Investment losses may occur from time to time. Nothing herein is intended to imply that a Fund's investment methodology may be considered "conservative", "safe", "risk free" or "risk averse". Economic, market and other conditions could also cause any Fund to alter its investment objectives, guidelines, and restrictions.

Future returns are not guaranteed and a loss of principal may occur. Performance may be affected by economic and market conditions.

Information about market indices is provided for the purpose of making general market data available as a point of reference only. There is no representation that any index is an appropriate benchmark for comparison. Index returns do not take into account trading commissions and costs or other fees and expenses associated with the active management of portfolios. The volatility of indices may be materially different from the performance of the Fund. The Fund's holdings may differ substantially from the securities that comprise the indices. Furthermore, the Fund may invest in different trading strategies from the indices and therefore it should be noted that the sector, industry, stock and country exposures, volatility, risk characteristics and holdings of the Fund may differ materially from those of the indices. The performance returns of the indices include the reinvestment of earnings and are obtained from Bloomberg and other third party sources. Although Trium believes these sources to be reliable, it is not responsible for errors or omissions from these sources.

An investment in a Trium Fund involves a number of risks that is outlined in the Fund's Prospectus. There can be no guarantee that a Trium Fund's investment objectives will be achieved, and the investment results may vary substantially from year to year or even from month to month. It may engage in investment practices or trading strategies that may increase the risk of investment loss and a loss of principal may occur. Trium may in some of the Trium Funds have total trading authority over such Fund, and the Fund will be dependent upon the services of Trium. The Fund's fees and expenses as described in the Fund's Prospectus may offset the Fund's gains. In addition, there may be restrictions on transferring interests in the Fund. Please refer to the Fund's Prospectus for additional information.

IMPORTANT NOTICE FOR MARKETING COMMUNICATIONS

This is a marketing communication. Please refer to the Offering Documents of the relevant fund, or where applicable to the KIID before making any final investment decisions.

This communication is only being made available to and is only directed at persons in the United Kingdom or EEA who are professionals, defined as Eligible Counterparties, or Professional Clients, within the meaning of the rules of the Financial Conduct Authority.

Under no circumstances should any information contained in this communication be regarded as an offer or

Where risks or rewards of purchasing units in any fund are referenced, please refer to the risks outlined in either the KIID or Offering Documents. Any fund managed by Trium Capital LLP will be subject to, inter alia, the following risks:

- Market price risk: any investment fund is subject to fluctuations in the value of its investments. For UCITS funds, an indicator of market risk is set out in the Fund's Synthetic Risk Reward Indicator (SRRRI), which is available in the Fund's KIID.
- FX Risk: investments in the Fund may be subject to fluctuations in FX.
- Derivatives & leverage risk: derivatives can change in value rapidly and may cause losses to any investment fund
- Credit Risk: the Fund is exposed to the risk that the issuer of any debt securities invested in meet its obligations.
- Counterparty/Custodial Risk: a counterparty with whom a Fund contracts or a custodian holding a Fund's holding assets may fail to meet its obligations or become bankrupt, which may expose that Fund to a financial loss.
- Liquidity Risk: is the risk that there are insufficient buyers or sellers of a given investment to allow an investment fund trade readily which may impact the Fund's performance or (in extreme circumstances) an investor's ability to redeem.
- Operational Risk: human error, system and/or process failures, inadequate procedures or controls can cause losses to any investment fund

The costs associated with Trium Climate Impact fund include on-going charges of 1.00% and performance charges of 10% of the NAV that exceeds the highest NAV.

Where any performance is referenced, please note that past performance is not a reliable indicator of future returns.

Where simulated or scenario based performance is referenced, please note that the scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and/or current market conditions and are not an exact indicator. What you will receive will vary depending on how the market performs and how long you keep the investment/product. In the United Kingdom, this material is a financial promotion and is issued by Trium Capital LLP, which is authorised and regulated in the United Kingdom by the Financial Conduct Authority.
