Segregated liability between sub-funds means that the assets and liabilities of each sub-fund are segregated by law. The prospectus and periodic reports are prepared for Trium UCITS Platform plc at umbrella level. You may switch your shares in the Fund to shares in other sub-funds in which you are eligible to invest. Further information is available from the Administrator, Northern Trust International Fund Administration Services (Ireland) Limited.

Objectives: The Fund's investment objective is to make sustainable investments with the aim of achieving positive returns over the long term, independent of market conditions. Trium Capital LLP (the "Investment Manager") intends to invest in equity and equity-related securities of companies in the renewable energy, waste, water, circular economy solutions, energy efficiency, clean transportation, environmental infrastructure, and agriculture sectors. The Fund's strategy is to invest in companies that provide environmental solutions as their principal activity with robust, sustainable business models that are expected to perform strongly over the long term. There is no specific geographic focus for the Fund's investments, however, it is expected that there will be significant European and North American exposure.

The Fund may invest in Financial Derivative Instruments ("FDI") (i) for investment purposes, (ii) to attempt to hedge some of its investment risk, or (iii) for the purposes of efficient portfolio management. The Fund's use of FDI may introduce leverage into the Fund.

The Fund is considered article 9 fund under Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector ("SFDR"). The Fund observes minimum environmental, social and governance safeguards in relation to all assets of the Fund. The Fund's portfolio complies with the requirement that it does no significant harm to any of the environmental objectives set out in the SFDR.

The Investment Manager uses company data, and corporate management meetings in order to determine which companies have the best potential to make environmental improvements. It also uses third party ESG data providers.

The Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Fund's portfolio.

Hedging: The shares are denominated in Euro (EUR) and are unhedged. The base currency of the Fund is EUR. Share classes that are not denominated in the base currency are hedged.
