**Objectives:** The Fund’s investment objective is to achieve long-term capital growth (independent of market conditions) by adopting a multi-strategy approach to investing. The Fund invests in a globally diversified portfolio of currencies, financial instruments including equities and equity related securities (such as warrants and preference shares), and financial derivatives instruments (“FDIs”), fixed or floating rate securities including corporate and/or government bonds, convertible bonds (including up to 5% of net assets in contingent convertible bonds (“CoCos”)) and inflation linked bonds. The Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Fund’s portfolio, subject to the stated investment objectives and policies.

Any income less expenses that the Fund generates for this share class will be accumulated and reinvested to grow the value of your investment.. Shareholders may redeem shares on any business day (any day on which banks are normally open for business in Dublin, New York and London).
